## Peacetime Goods Flow Puts Crimp In Black Marketeers

WASHINGTON, Aug. 28 (AP)—Black markets were crumbling into thin air today — because more peacetime goods were coming up fast.

Black markets, prices, used cars, new cars, chickens, toys, and men wanting jobs — those were big subjects for Americans exactly two weeks after Japan threw in the sponge.

**More Autos**  
 Reputable dealers in used cars and chickens said black markets in those fields are starting to disappear. That's because shiny new autos are on the way and there will be plenty of chickens for your dinner table "very soon."

Government officials added that black markets in food are dwindling, and will fall away in all fields as shortages ease up because: If a person can buy the things he wants — in honest stores at reasonable prices — he isn't tempted to pay some chiseler more than the legal price ceiling.

**Price News**  
 Speaking of prices, there was this prime news about them today:

1. On used cars, they have finally started down.
2. On new cars, they will be at about the same levels as in 1942—says OPA.
3. On goods in general, an army of retailers invaded Washington to protest that the OPA is trying to hold their prices below what they can stand.

From all indications, the OPA reply was to be a flat "No."

As the retail spokesman met with OPA officials, the issue was this:

The OPA has ruled that prices of new goods—not produced in wartime—must be at, or near, 1942 levels. In many instances, the OPA is allowing manufacturers to charge more because their production costs have gone up. But retailers and wholesalers are supposed to "absorb" these increases so the public won't suffer.

the nation's ponderous progress from war to peace:

**Toys**—There will be plenty for Christmas, but most of them will be the wartime kind that were in stores last year. Government officials and industry sources predicted only the barest handful of tricycles, and metal wagons.

**Men not working**—Robert C. Goodwin, head of the U. S. employment service, said nearly 2,000,000 war workers have lost their jobs since Japan surrendered.

**Men not fighting**—The navy, now 3,389,000 strong, announced it will be down to 550,000 in one year. That means 2,839,000 will be released. (They will need jobs.)

**Price Drop**  
 The National Automobile Dealers association said the future flood of new autos has caused the first downward break in the price of used cars. Most of them now are selling below price ceilings.

The decrease so far is about \$25 a car, on the average.

**BUILDING PLANNED**  
 PORTLAND, Ore., Aug. 28 (AP)—National housing agency has approved immediate construction of 500 H-2 type homes in the Portland-Vancouver area, housing officials said. Allocation will allow 200 homes for sale, 150 for construction by owners and 150 for renting. Maximum sale price will be \$7500 and rental \$62.50.

## Committee To Hear Grass Planting Plan

SALEM, Aug. 28 (AP)—The proposal to plant grass on the Tillamook burn and use it for grazing was in the lap of Governor Snell's new forestry investigation committee today.

The idea, sponsored by Washington and Tillamook county citizens, was referred to the com-

mittee by the state forestry board, which indicated it would rather plant trees than grass.

State Forester N. S. Rogers said the grass would create a new fire hazard.
