

AP PICTURE TO BE DESIGN FOR POSTAGE STAMP

WASHINGTON, Aug. 30 (AP)—A picture taken by Associated Press Photographer Peter Carroll was disclosed by the war department today to have been used as the design for the new postage stamp honoring the U. S. army.

The three-cent stamp will be the second issued by the post-office department designed from an Associated Press photograph. The two Jima flag raising picture by AP Photographer Joe Rosenthal was reproduced on the three cent stamp issued in July in honor of the marine corps.

The war department said General George C. Marshall, army chief of staff, selected the Carroll picture as the army stamp design. The stamp pictures American soldiers marching along the Champs Elysees in Paris. The Arc de Triomphe appears in the background and six planes are flying overhead.

The post office department said the planes, which did not appear in the original picture, were superimposed on the original picture by the bureau of engraving and printing.

The stamp will be khaki colored in keeping with the color of the army uniform and will go on sale at Washington September 28.

2 MARINES GO AWOL TO MARCH TO TOKYO

WITH 4TH MARINES, YOKOSUKA, Aug. 30 (AP)—Two marine casualties from Okinawa, who wanted to march into Tokyo so badly that they pushed aside a chance to go right home, came to Japan as stowaways today and piled ashore with their old buddies.

They are PFC Joe A. Sargaves, Ashland, Ky., and Cpl. Joseph Curry, Sioux City, Ia. They sneaked into a battalion work gang loading transports at Guam. Their pals got them arms and they hid aboard at sailing time.

"I am putting the boys back in their old platoons with no punishment for going AWOL from Guam," said Maj. Wilson E. Hunt, Wayne, Pa. "Kids like that deserve being in at the finish."

All history is a decline of war, though a slow decline.—Sen. Walter F. George of Georgia.

NEW WHEAT VARIETY IS HIGH PRODUCER

OAKESDALE, Wash., Aug. 30 (AP)—A new winter wheat variety, developed over the last 10 years in the back yard of a local resident, produced 72½ bushels to the acre in a 27-acre field this year, the originator said today. The production is about twice the average of 35 bushels in this area this year.

The wheat, now being raised under contract on the Claude James ranch, is named "New Victory." Its originator, who declined to be identified until he has received patent protection, said the wheat is without beards, grows about five feet tall and does not lodge.

Main Quality

Its outstanding quality, he said, is that it stools out considerably, producing many heads of grain for each kernel sown. Last year, the wheat produced a 60-bushel crop.

Because of the heavy stooling out of the grain, only 21 pounds per acre was sown compared to the usual 60 pounds.

Hobart Black, farmer who harvested the crop, and warehousemen verified the yield and said it was the largest known in Whitman county.

The colonel, regretting he can't make the presentation personally, is asking The Associated Press to do it for him. He said he was mailing the stockings to the AP's New York office with a request they be forwarded to the AP correspondent in Bucharest for presentation to the queen.
