OREGON SHIFTS INTO HIGHER INCOME LEVEL

WASHINGTON, Aug. 31 (AP)—Per capita income in the United States practically doubled during the war.

The commerce department said so yesterday in a survey of income payments to individuals during the years 1940 through 1944.

The survey showed per capita income for individuals jumped from \$575 in 1940 to \$1117 in 1944, or an increase of 94.3 per cent. The figures were reached by dividing total income by the civilian population.

The trend was for income in the southeast, southwest and west to come closer to the income levels of the east and midwest.

But the department added that "over the period only two states, Oregon and Indiana, shifted from the lower to the higher group, and none of the high-income states lost status."

One of the most spectacular gains was registered by the state of Washington. Its 1944 per capita income was \$1483 compared with \$632 in 1940.

By regions the far west 1944 per capita income was \$1459, the middle east \$1333, New England \$1284, central \$1192, northwest \$996, southwest \$867 and southeast \$722.

Improved Weather Releases Fighters

PORTLAND, Aug. 31 (AP)—Forest officials said today they have ordered 500 soldiers in the Tillamook forest fire area to return to their barracks because of improved weather conditions. A crew of 350 smoke chasers will remain along the trails, however, to check any flare-ups and continue retraining of some sectors.

RESTAURANT PRICES TO MEET OPA LIMIT

In a move to improve restaurant price compliance, W. H. McCargar, district OPA food price specialist, announced that from now on restaurant operators will not be allowed to make any changes in their April 4-10, 1943 base period prices filed with local OPA boards.

However, restaurants must file all "in-line" prices of new items with their local boards within three days after an item is first offered for sale.

Attempts by some restaurant operators to charge more than the legal ceiling prices for coffee will be checked by two actions: one provides that charging more than five cents for a cup or pot of coffee will not be allowed except for some new establishments. The other sets the ceiling price for coffee at the lower of the maximum prices charged by restaurants during the two periods, October 4-10, 1942, or October 4-10, 1943.

OPA WILL BOOST SMALL BUSINESSES

Details of an OPA action to assist new small businesses to get underway during the reconstruction period have been announced by that agency. The action, effective September 3, provides two special pricing methods for new small volume manufacturers of most consumer goods other than clothing. Since this group will in general be starting without sufficient capital to absorb the present abnormally high cost of setting up a business, they will be permitted the option of in-line prices or temporary ceiling prices calculated on the basis of current costs plus a specified profit margin.

The in-line method of pricing is to select a product comparable to the one they expect to produce and adopt the ceiling price now in effect for the comparable article.

Home Extension Unit To Be Started In Klamath Falls

The Klamath county home extension program will get underway again with the coming of September, according to Mrs. Winnifred K. Gillen, home demonstration agent, and something new will be added... namely a new extension unit in Klamath Falls, itself.

The first meeting of the new group has been called for September 11 at the community hall on Garden avenue. Mrs. Ray Garrison, who has been active in interesting women of the city in the home extension program, has set the time for the initial meeting for two o'clock on Tuesday, September 11. Women from every section of Klamath Falls are invited if they are interested in sharing their ideas on the problems of homemaking, and in learning the latest accepted methods of keeping a home, rearing a family, and taking a constructive part in society.
