

Services Reveal Plans For Freed PWs, Internees

Plans for liberated prisoners of war and civilian internees in the Far East are being formulated for their welfare by the Red Cross with army and authorities, as follows:

Prisoners of war and civilian internees will be evacuated from Japan to the Philippines by air and water. Army units taking food, medicines and clothing will be accompanied by 80 American Red Cross workers. The Australian Red Cross will care for the British in Japan. The British dominion and Dutch military authorities have the same plan.

In the Philippines the American Red Cross will maintain 24-hour service, keeping a central registration file, delivering messages and replies, staffing recreation centers, canteens and an information service. The Red Cross will also supplement the army issue of comfort articles both at the present camps and at the processing centers. Envelopes and airmail stationery will be distributed in the camps and at the processing centers. Evacuated children will be cared for and cash grants given to those returning home.

Liberation Messages
Each United States prisoner of war and civilian internee in the Far East will be permitted to send a 10-word message via the war department to his or her next of kin immediately upon liberation. The provost marshal general's office will forward these messages by telegram, with the notification of liberation to the emergency addresses of civilian internees, naval personnel and merchant seamen. The adjutant general's office will follow the same procedure for army personnel. Each person in the United States receiving notification will be authorized to

send a return message via the war department to his or her released relative. When this reply is received, the prisoner of war or civilian internee will be authorized to send a second message to the same addressee, again via the war department. The emergency addresses should follow exactly the directions given for this message service in the notification of liberation. This plan applies only to the United States prisoners of war and civilian internees. We understand that there will be a plan for the handling of messages from prisoners of war and civilian internees of other allied nations and as soon as any information concerning it is received, we shall inform you.

Mail to Prisoners

The war department has announced that persons wishing to write to liberated prisoners of war and civilian internees should use the following address:

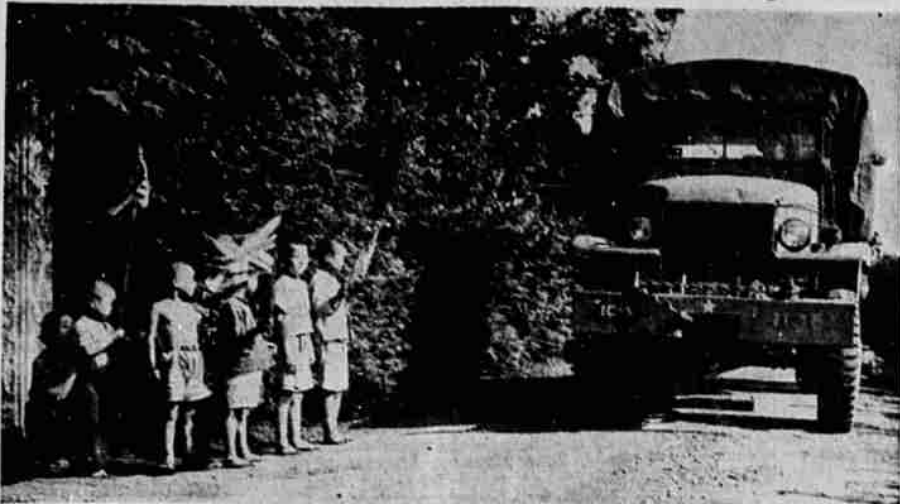

Name of Addressee (Rank and Serial No. for military personnel.)
Liberated Personnel Section
APO 501, c/o Postmaster
San Francisco Calif.

It is contemplated that delivery of this mail will be made either at Manila or at other points through which the liberated prisoners of war or civilian internees may pass en route back to the United States. Since the Red Cross is no longer transmitting the special messages on Form 1616 for liberated persons, the above information should be given to relatives and friends wishing to communicate with them.

Mail to USSR

Letter mail addressed to Italian prisoners of war in the USSR will be accepted for transmittal through Italian diplomatic channels. A person in the

Sons and Daughters of Nippon Change Flag Waving Tactics

(NEA Telephoto)
A few days ago these Japanese kids were waving the flag of the Rising Sun along this road near Yokohama. Now they've substituted the Stars and Stripes and the Union Jack for flag of their own country. Adaptable, what?

United States who wishes to correspond with an Italian known to be a prisoner of war in Russia will address his letter mail for the prisoner as follows:
Name and rank (Number if known.)
Care of Mr. E. Ortona, First Secretary,
Office of the Italian Embassy
1801 Fuller Street, N. W.
Washington D. C.

Such mail will be sent by diplomatic pouch to the Italian Embassy in Moscow, from which it will be forwarded to the addressee.

TURKEY GROWERS MEET
SALEM, Sept. 13 (AP)—More than 300 members of the Oregon Turkey Growers' association opened their annual session in the Salem chamber of commerce rooms this morning. C. R. Dear, Independence, is president of the organization, which will elect officers this afternoon and hold its annual banquet here tonight.

The first John Jacob Astor came to the New World in 1784 from Waldorf, near Heidelberg.

Sergeant Offers Blood To Tojo To Even Score

YOKOHAMA, Sept. 13 (AP)—A lanky Pennsylvania mess sergeant, John A. Archinal, of Allentown, volunteered to be the donor for Ex-Premier Hideki Tojo's first whole blood transfusion yesterday—and explained:

"I'm doing this so he can get his just dues and suffer for the time (17 months) he made me spend in New Guinea."
Afterward Capt. Roy Gold (5350 Victoria Rd.), Montreal, Canada, army medical officer, reported Tojo's condition as "very satisfactory."
Tojo didn't say anything; he just lay with his eyes closed and his legs comfortably crossed—his feet sticking out from beneath the covers.

Peter Stuyvesant lived 18 years of pleasant rural life on his Boverly farm after the British seized New York in 1664. Stuyvesant, who said that in preference to surrender he "would rather be carried out dead," was not allowed by his people to join battle.

The army medical corps made and fitted more than 5000 plastic artificial eyes.

War-Born MOTOR OIL

Now ready for cars of peace—a discovery of wartime research that fights oxidation—the parent of sludge

GOOD NEWS for all motorists! Now available, when cars need it most, is this new kind of motor oil... Golden Shell with oxidation inhibitor.

Oxidation is the enemy of old cars and new because it causes sludge. And sludge, gumming up friction surfaces inside your engine, won't let good oil get into the places where lubrication is needed. So your car wears out faster.

New Golden Shell motor oil with oxidation inhibitor is one of the first achievements of wartime research to reach civilian motorists. Adding the inhibitor during manufacture results in a lubricating oil that stays rich and free-flowing from one drain to the next.

Take no chances with the mileage remaining in your car. Get new Golden Shell motor oil today. Shell Oil Company, Incorporated.

Like oxidized metal—
Oxidized Oil is no good

You've seen the effect of oxidation on metal. Rusted equipment that must be scrapped. But you seldom see the insidious effect of oil oxidation inside your engine... the sludgy timing gears and other working parts... vital parts that need good lubrication protection. Give them the protection of new Golden Shell Motor Oil with oxidation inhibitor.
