

INDUSTRY-WIDE STRIKE THREAT FACES LUMBER

(Continued from Page One)

pend upon the outcome of conferences under way in Portland.

CIO Favors Strike

While a conciliation committee there continued talking the strike authorized by the AFL, Lumber and Sawmill Workers, the CIO International Woodworkers of America announced "overwhelming approval" of a strike by their union.

The CIO said an unofficial tabulation of 30,000 ballots cast by Oregon, Washington and California workers showed a heavy majority favored giving the union power to call a strike.

President Claude Ballard said the union negotiating committee would meet here Wednesday, with authority to issue a strike call if it decides demands for a \$1.15 hourly minimum can not be obtained through negotiation.

"Some Progress"

Meanwhile E. P. Marsh, chairman of the commission working on the ALF demand for a \$1.10 hourly minimum, reported "some progress, but no startling developments" during meetings with labor and management.

The 80,000 AFL workers have already voted approval of a local Smith-Connelly strike.

In Springfield, Ore., the local CIO union asserted in a prepared statement that Springfield Plywood corporation has not reopened its plant because company officials "are afraid of violence on the picket line."

The AFL workers, who represent about 100 of the plant's 300 employees, struck a week ago in protest of the company's industry-wide CIO contract.

The CIO has demanded that the plant reopen, without the AFL workers. The company general manager said he was studying the situation but "had nothing to report."

Peak production of synthetic rubber is expected to be reached in 1946, with an output of 1,200,000 tons.

EDITORIALS ON NEWS

(Continued from Page One)

into billings and messing us and replenishing the jeep's yawning gas tank's innards?

WE decide against it and turn off to the right, having seen a familiar name on a sign that links up with the map. We reach the Rhine, and in the fading light of 9:30 p. m. double war time, we drive up the storied river along one of its most magnificent stretches, with castles skyned to right and left, and almost every place name on the signs a familiar one.

IT would have been magnificent but for the rapidly emptying tank of the jeep, but we couldn't enjoy the scenery on account of listening fearfully for the engine's dreaded last gasp. At a French sentry post, where we are stopped for examination of papers, we learn that there are Americans at Bingen, some 20 kilometers away.

LET'S make it short from here on.

The gas gauge shows empty long ago. So we stop on the west bank, across from Bingen, get a French private to rout out his captain, who explains volubly that if he had essence it would gladden all the remainder of his life to give it to us in magnificent quantity, but alas! he has no essence and there isn't anything he can do but die miserably of shame.

So we cross the Rhine on a temporary bridge the engineers worked up and at its east end is a sentry post, and the sentry has himself a fire at which he is warming his chilled shins, and he's AMERICAN.

Boy, his southern drawl sounds good!

YES, there's a skeleton signal corps outfit waiting to turn over to the French and if we can find anybody awake at the motor pool we can get gas. So we start on happily, get about a mile and the engine sputters and dies!

Sequel: Just as we're posting a guard on the jeep and the rest of us getting ready to walk on to hunt gas, a signal corps lieutenant comes along, gives us a GI can of fuel and then like a ministering angel takes us to his outfit's quarters in a requisitioned vast and magnificent German hunting lodge and puts us up for the night. All's well that ends well.

Grandson Takes Over Ford's Job

DETROIT, Sept. 21 (AP)—Henry Ford II today became president of the Ford Motor company. He succeeds his grandfather, Henry Ford, who simultaneously announced his resignation.

The younger Ford has been executive vice president of the company since April 28, 1944. It was the second time the elder Ford had resigned the presidency of the company he founded in 1903. He was president of the company until December 31, 1918, when he was succeeded by his son, Edsel B. Ford. On June 1943, a few days after Edsel Ford's death he again assumed the office.

His grandson and namesake, who had enlisted in the navy and advanced to the rank of lieutenant, was released following his father's death and became vice president of the company on December 15, 1943.

PARTY TRAPPED IN OREGON PARK BY EARLY SNOW

(Continued from Page One)

could not go to Diamond lake by way of Crater lake this weekend.

Snow at Lake o' the Woods

Three inches of snow fell at Lake o' the Woods, and snow was visible on the mountains east of Klamath Falls. Snow at the Marine Barracks melted during the morning.

Temperature at Klamath Falls dropped to 38 degrees, several degrees higher than the season's low to date.

A light rain fell in Klamath Falls.

MEDFORD, Sept. 21 (AP)—Crater Lake national park will be closed next week, officials said today.

Already snow has blocked the north and east entrances. The park staff said it would move from park headquarters to the Medford office next week.

Snow in the Diamond lake region halted filming of "Canyon Passage," underway there for two weeks. Director of the motion picture based on Ernest Haycox's novel cancelled a call for valley residents to act as extras Saturday and Sunday.

DICK TAGGED

LOS ANGELES, Sept. 21 (AP)—Detective Sgt. O. Rest two picked up a suspect in a street-car loading zone.

When the prisoners were safely stowed away in the patrol wagon he returned to his car.

A fellow policeman had tagged it for illegal parking.

WRONG DOG

LOS ANGELES, Sept. 21 (AP)—The watch dog belonging to Morris Kuykendal may give up his dependable habit on the basis of his master's poor aim.

Kuykendal reported to police that he heard his dog barking, and found two men climbing over his back fence. He ran for his rifle and fired at them.

The bullet hit his dog in the leg.

The suspects? They got away.

ROUND-THE-WORLD AIR SERVICE SET

WASHINGTON, Sept. 21 (AP)—Regular round-the-world air service, dream of American flying men since the Wright brothers first got off the ground at Kitty Hawk, begins September 28 from Washington National airport.

Six and one-quarter days (151 hours) will be required for the 23,147-mile flight, scheduled as "The Globetrotter." Planes will leave Washington each Friday.

As the U. S. army air transport command made this announcement today it was learned:

1. Service will be restricted normally to military personnel, cargo and mail. However, a civilian certified as traveling in the national interest can make the complete flight for \$2431 plus 15 per cent transportation tax.

2. Later, when the army can get out of the business and planes are more available, U. S. commercial airlines will carry any civilian who wants to go; any civilian, that is, who (a) has the price and (b) is willing to undergo inoculations for everything from smallpox to cholera.

Howard Hughes, movie-producer and plane-builder, holds the record for globe-girdling by air. He flew 14,824 miles from New York to Paris, Moscow, Fairbanks, Alaska; Minneapolis and back to New York in three days, 19 hours, eight minutes and 10 seconds. However—that was 8323 miles short of "The Globetrotter" run.

3 Murder Charges Filed In Court

SEATTLE, Sept. 21 (AP)—In one of three murder charges filed in Seattle courts yesterday, Harry Larson, 40, was accused of first degree in connection with the fire which destroyed St. Vincent De Paul Salvage bureau September 9 and took the lives of four men.

Prosecutor Lloyd Shorett said Larson spread a confession he set the blaze. The information was filed in superior court.

A second degree charge was filed in superior court against Mrs. Dorothy Bradley, 47, accused of fatally shooting her husband, Paul Benson Bradley, 35, during an argument over money in their cabin near North Bend.

Dallas Anthony Craft, sought in connection with the knife slaying August 18 of Andrew Smith, was charged with second degree murder in justice court.

At Lake—Mrs. Rose M. Poole and her daughter, Mrs. Prentice Yeomans, have spent several days this week at the Poole summer home at Lake o' the Woods.

Try Hot Water Plus After Meals For Acid Indigestion

If the thousands of unfortunate people who suffer from so-called dyspepsia, acid indigestion, food fermentation, sour stomach, flatulence, gas or other stomach distress brought on by excess acid would just try drinking slowly after each upsetting meal half a glass of real hot water containing one spoonful of Neutradid they can usually get amazingly quick relief in a very few minutes.

Neutradid is not a laxative—it is soothing and comforting to the mucous membranes and very agreeable to take. Neutradid—physician's formula can now be obtained at Super Cut-Rate Drug or any first class drug store.

TABLES TURNED

ALBUQUERQUE, N. M., Sept. 21 (AP)—Rather than try himself in police court, Judge E. C. Gober forfeited five dollars.

The turn about case occurred when Gober, rushing to preside at police court, parked his red truck in the alley.

Moments later the mayor, followed by the city manager, started for their homes to find their way barred by the truck.

A policeman was called and Gober forfeited his bond, thus escaping trying himself.

WOMEN'S INGENUITY

HOLLYWOOD, Sept. 21 (AP)—New ideas for the entertainment of returning servicemen are becoming a habit with the fairer sex.

The latest ingenious bit has been added to the list by Dinah Shore.

Dinah announces that when the next shipload of veterans arrives from overseas, she and a guitar player aboard a blimp will hover just above deck and welcome them home with song and music.

DICK TAGGED

LOS ANGELES, Sept. 21 (AP)—Detective Sgt. O. Rest two picked up a suspect in a street-car loading zone.

When the prisoners were safely stowed away in the patrol wagon he returned to his car.

A fellow policeman had tagged it for illegal parking.

home or to a new job. A \$200 limit is put on the amount for one worker and his family.

4. Return of the United States employment service to the states within 90 days. Mr. Truman had asked that this service taken up by the government shortly after Pearl Harbor be kept in federal hands until July 1, 1947.

French Reveal Capture Of Nazi

NUERNBERG, Germany, Sept. 21 (AP)—The Russians named their judge and prosecutor today for the German war crimes trial this winter and the French announced the capture of Baron Konstantin von Neurath, one of the 24 listed for arraignment before the international tribunal.

Sir David Maxwell Fyfe, British prosecutor, said the question of the sanity of Rudolf Hess had been thoroughly explored and that the one time third ranking nazi was suitable for trial. Hess parachuted onto a Scottish moor June 22, 1942, and has since been a prisoner of the British.

Return—Mr. and Mrs. H. E. Jones, 401 Jefferson, returned here last night after a 10-day trip to Yosemite park, Fresno and bay cities.

GOVERNOR KEPT QUIET TO SAVE AMERICAN BOYS

(Continued from Page One)

he would rather be defeated for president than to risk sacrificing needlessly the life of a single American boy.

"Extraordinary Example"

Bell, at a press conference, said Dewey's decision "was one of the most extraordinary examples of patriotism and self-restraint that's ever been exhibited, because it was tantamount to giving up his greatest chance to become president of the United States."

Bell said he had "no information or opinion" on whether Roosevelt was aware of Gen. Marshall's request to Dewey not to use the information. He declined to say how Gov. Dewey obtained information that the secret Japanese code had been cracked.

Questioned by reporters concerning a story in the current issue of "Life" magazine which also said Dewey declined to use his information in the campaign, the governor declined to answer most questions.

"I would rather not comment at this time," he explained.

However, close friends of Dewey said he felt last year that he would rather be defeated for president than endanger the war effort.

POINTS TAKEN OFF 3 GRADES OF BEEF

store them to ration control should it become necessary.

Increasing Supply

Action on the three lowest grades of beef, they said, reflected an increasing supply of beef, particularly of the lower grades. Marketings of cattle from western and southwestern pasture and range areas are increasing sharply to follow the normal fall marketing pattern.

There has been no indication when the rationing of the other meats may be terminated. Officials have said that this will be determined largely by overseas commercial and relief requirements.

Turkeys Released

Meanwhile, the agriculture department announced termination of an order which set aside a portion of this year's turkey crop for the military services. Officials said the armed forces bulk of their requirements, and that additional needs will be obtained on the open market.

The order, lifted as of next Monday, applied in California, Oregon, Washington, Idaho, and other states.

Issued last April, the order provided that all turkeys marketed in these states should be turned over to the government. Ending of the order means that turkeys will now become available for civilians in those areas.

MAC ORDERS ARREST OF JAP COMMANDER

(Continued from Page One)

was not one that would inspire American confidence.

American army officers, nevertheless, said after the conference that Doihara had pledged full cooperation and was "courteous and cooperative."

Code for Press

General MacArthur's code for the Japanese press specified that news "must adhere strictly to the truth" and said that "nothing may be printed which might directly or indirectly disturb public tranquility."

Rather than restrict the press, which already is American-censored, the code emphasized truth in news and the elimination of propaganda.

Five Perish In Reedsport Fire

REEDSPORT, Sept. 21 (AP)—Fire of undetermined origin took the lives of Mrs. Martha Doyle and her four small children early today in their home seven miles south of here.

Mrs. Doyle and the children were asleep in an upstairs room when the blaze first was noticed by Mrs. Doyle's mother, who ran from the living room to safety.

By that time the fire was burning so fiercely the mother and four children, from 1 to 5 years old, were unable to get downstairs. Mrs. Doyle's sister and her child escaped injury by jumping from a window to safety.

PORTLAND, Sept. 21 (AP)—E. L. Bartlett, Alaska's delegate in congress, predicted here the territory would attain statehood within the next few years. He stopped here briefly with a congressional delegation en route to study Alaskan postwar problems.

Radio Proximity Fuse Startling War Invention

WASHINGTON, Sept. 21 (AP)—The war's second most startling invention is a fuse which knows when a shell is close enough to the target to explode effectively.

It cost the navy \$800,000,000 to develop. But the "radio proximity fuse" works so well that two destroyers once shot down 35 enemy planes in 30 minutes and anti-aircraft gunners got 88 out of 72 buzz bombs bound for London.

H. Struve Hensel, assistant secretary of the navy ranks it next to the atomic bomb as a scientific war development. Gen. Brehon Somervell, chief of army service forces, first told of the invention last Tuesday.

Gas Shortage Menaces Detroit

DETROIT, Sept. 21 (AP)—A strike-cause gasoline shortage threatened today to give Detroit a worse immediate problem than its idleness of more than 80,000 men in the automobile manufacturing industry.

Available gasoline supplies for the city of 1,600,000 were described as sufficient to last only until Monday. Supplies were halted by the walkout of refinery employees and other CIO oil workers.

Forty per cent of the city's 3400 filling stations were "sold out."

POINTS TAKEN OFF 3 GRADES OF BEEF
