

Martha Shops and Shops

A ripple of excitement stirred through a well-known Main street cafe on Wednesday, shortly after the noon lunch hour, when Andy Devine walked in. If it hadn't been for the heavy sideburns haircut that gave him a favored century ago, we might not have noticed. As it was, most of us forgot our manners and gawked openly.

Long's

SUITS this individual, I decided this season, I decided after viewing the varied array at Long's. Serviceable plaids and tweeds for casual wear look more feminine... but, even so, a dressier suit is still practically a necessity for smarter occasions.

No one could help being impressed by two of the soft all-wools... one a brown and white check with square yoke effect... very different... and blouse sleeves ending in tightly buttoned cuffs. The other a check of black and white with blue overplaid... on which the pockets add the interesting touch.

A group of tweed suits that just came in are especially striking. Of brown striped effect... the material is reminiscent of the English imports we used to rave about. Trying one with a chocolate brown topcoat, the contrast was perfect... the darker shade emphasizing the colored flecks.

The dressmaker suits Madge Long showed me, stress finesse in tailoring. They represent such famous lines as Saxony, Nathalie Nicoli and Etta Gaynes... all nationally advertised. Distinctive designing in sleeves, stitching and buttons is irresistible, and a Gaynes model of black wool... (this line exclusive at Long's) use of black velvet the unusual by use of carrie velvet at the neckline.

Long's Apparel, you know, is at 719 Main Street.

Art & Gift Shop

A STUDIO-LIKE room with a relaxing atmosphere is the result of the remodeling of the fur at The Art and Gift Shop these past few weeks.

Situated in the rear of the shop... there is now adequate space to display the many beautiful reproductions of paintings... and a large north window provides plenty of daylight.

Shelves of exquisite pottery... including the exclusive Hedi Schoop line from Hollywood... add to the homey appearance of this new room which, I certainly think, is a thoughtful contribution to the shop's patrons.

By the way, I was reminded that it isn't too soon to be ordering Christmas cards... when I noticed a display of several outstanding lines... At The Art and Gift Shop... 619 Main Street.

Whytal's

THE change in outdoor activities these snappy days demands "rugged" clothing... so I thought the Western shirts and sturdy twill slacks at Whytal's this week were most appropriate.

First, I'll tell you about the shirts... or you could use them as light jackets. The lightest, I thought, were the shepherd checks in both black and white and brown and white... but the beige ones weren't far behind.

Styled by Studio, these shirts, of a practical rayon material, have fitted waists... long sleeves with two-button cuffs, roll collars... and a western note is added by white or brown darts above each breast pocket.

The slacks are separate... but match up so well with the shirts it's plain to see they'd form a suitable outfit for hunting... or even for spectator's row at the football game.

So far, Whytal's has the slacks only in black twill... (more colors are expected)... however, there's a good range of sizes. They're a combination of 15 per cent wool, 65 per cent rayon, designed with neat pleated fronts... and for all-around wear are uncomparable.

Whytal's is also showing a large assortment of wool cardigan jackets... always popular for school wear. These are colorless... with four-button fronts and roomy pockets. Colors are red, black, brown and coffee.

Whytal's, you know, is at Ninth and Main... in the Medical-Dental Building.

Chinese Decoration slated For Colonel

CAMP ADAIR, Sept. 27 (AP)—Col. Carlton Smith, commander of the second replacement regiment here, will be awarded the breast Order of Yun Hui at a review here Saturday.

The Chinese government decoration will be presented by Maj. Gen. F. B. Mallon, commanding general of this depot, while 5000 troops pass in review.

Spencer's

SUCH a convenience to book lovers who aim to keep up with the latest is the rental library at Spencer's. Despite its big patronage... every now and then I run across someone who hasn't found it... especially among new residents.

Speaking of the almost daily arrival of books, Mrs. Spencer mentioned a few of the newest such as "Virgin with Butterflies" by Powers, "Yankee Woman" by Baume... "A Lion in the Streets" by Langley and "You Can't Stop Living" by Rives.

Many of the new arrivals rent for five cents a day... but most are only three cents. At Spencer's, 619 Main street... the store of lovely linens and tot's apparel.

Currin's

WHAT with all the various kinds of work we're doing these days, our nails need plenty of extra care if we don't want our hands... be they plain or beautiful... marred by ragged cuticle and broken nails. Practically everyone I know complains about one or the other of these... but Currin's has a marvelous antidote for just this trouble... Gartner's Nail Aid... recommended by manicurists.

You've noticed how dry cuticle and fingertips crack and split at the slightest jar. Well, Nail Aid... a creamy substance simply loaded with lanolin... goes right to work on this trouble... oiling nails and cuticle into resilient smoothness and sturdiness.

Directions say to massage this cream lightly over the fingertips... being particular to get some under each nail and around the cuticle... and use DAILY!

Of course, the manufacturers can't promise it will keep nails from splitting if the brittleness is caused from a physical condition... but they do believe this extra lubrication helps. For a trial size... get a 35-cent tube of Nail Aid... and I'm sure you'll go back for the dollar-size jar... At Currin's for Drugs... corner of Ninth and Main Streets.

Houston's

AT Houston's Beauty Salon the other day I bought a new type of cream... with a magical name... Protomone... and already I'm anxious to broadcast its virtues.

This is a synthesized hormone cream... equivalent in physiological effectiveness to the natural hormone... so Dolores and Mary told me... and its purpose is to help the skin keep a youthful look.

It isn't a cleaning cream. Instead, you clean your face and throat at night by your usual method... then rub about a half teaspoonful of Protomone over the skin... it takes so little. Within a few minutes the cream is absorbed... combating dryness that is so aging... leaving a look of freshness. I've found it excellent for hands, too.

Available at Houston's Beauty Salon... 114 North Eighth.

Cal-Ore

SEVERAL Klamathites I know have remarked lately how glad they are that the lifting of travel restrictions makes it more fun to entertain out-of-town guests... when they can just whisk them off to Cal-Ore for dinner and dancing.

A great convenience... as the hosts can relax, too. Besides, so many who come here have already heard about and are eager to visit this famous tavern.

Not only is it ideal for this... but think what a lot of work and fuss it saves if you call up and make reservations to give your next dinner party there... for four or six or more. The varied entertainment provided guarantees an evening far from dull.

Remember, though, Cal-Ore still closes on Mondays... which is the employees' night off.

The colorful ceremony will be open to the public. Smith's citation was granted by China in recognition of his services in the China-Burma-India theater.

LAST LAUNCHING

PORTLAND, Sept. 27 (AP)—The final tanker will be launched at Swan Island shipyard by Mrs. Henry J. Kaiser October 27—just a little more than three years after the yard's first vessel was launched.
