POINT REWARD FOR USED FATS DOUBLED
4 points instead of 2 for every pound!
EVERY one of you housewives in America, in your own kitchen, can speed the return of larger supplies of soaps and all the peacetime things you have been waiting for so long. You can do it by saving more used fats... every drop you can scrape or skim. It's as urgently needed as ever. So keep doing it, won't you?
You women of America have done a magnificent job of saving used fats during the war, but victory has not ended the need. The fat supply for the manufacture of soap and other long-wanted products is millions of pounds less in 1945 than it was in 1944. That is why the government offers four ration points instead of two for every pound of used fats you turn in.
By skimming, scooping and scraping every last drop of used fat, you can help increase your own home supplies of soaps, soap flakes and powders more quickly. And not only soaps. But the nylons, cottons, electric washers, irons, refrigerators, automobiles and hundreds of other peacetime products we've all been waiting for.
The fats saved in your kitchen are urgently needed to help get peacetime goods back into production... and back to you... more quickly. So won't you keep up the good work even though the war is over? You'll help to fill your own needs for soaps and the civilian goods you're dreaming of. Remember, every drop of used fat is still vitally important. Keep saving, won't you?
Your Used Fats help make the Peacetime Products You Want
