EMPLOYMENT ASKED FOR HANDICAPPED

In conjunction with President Truman's proclamation declaring October 7-13 as national "Employ the Physically Handicapped" week, Governor Earl Snell has asked the cooperation of employment officers and business managers.

With the expectation of hundreds of veterans returning to this area, handicapped by the war from holding regular jobs, employers are asked to look over their present staffs and make adjustments to use these men where they can.

Jack Almeter, manager of the local U. S. employment office, stated today that 612 physically handicapped men have been placed through his office since the first of the year. Not all were veterans, but each of them was available only for a selective job due to some handicap.

"This indicates that a physically handicapped person is definitely employable when properly placed," Almeter said.

At the present time the employment office files are cleared of those on a handicapped status, but with the return soon of thousands of veterans, there will undoubtedly be many who will be able only to hold selective positions.

Employers are asked to keep this in mind, and wherever possible to use strong men only for positions requiring their ability, and use veterans when possible for desk jobs and in places where physical strength is not the main part of the job.

When a handicapped person applies at the employment office, his case is thoroughly studied by the officers. They keep in mind his aptitude, his emotional and physical stamina, and the extent of his training.

HERBECK TO PLAY IN KF TONIGHT

One of the best received orchestras here in Klamath Falls was Ray Herbeck who made an appearance here a little over a month ago. According to Baldy Evans, a great number of people expressed the desire of hearing him again. Ray and his "Music With Romance" will again be featured at the armory tonight. He has just completed a tour of the northwest and is on his way to San Francisco, where he opens at the Golden Gate theatre Wednesday night for three weeks.

Being featured by Herbeck tonight are Roy Cordell and Eileen Wilson, vocalists. During the war Miss Wilson had her own program which was shortwaved all over the world to the boys in the service. Cordell will be remembered as the genial, good looking fellow who had the girls screaming with his imitations of Sinatra.

Dancing tonight will start at 9 and continue until 1.

Mexican Arrested For Liquor Violation

Jesus George Jara, a Mexican who allegedly was getting $10 a fifth for his merchandise, was arrested today on a charge of selling liquor to Indians.

Indian Officer John Arkell, assisted by city police, made the arrest at Jara's residence, 1122 Adams.

Arkell said the liquor allegedly sold by Jara was not Oregon liquor store whiskey, and presumably came from somewhere in California. Jara, he said, is an old offender, having been in trouble before on similar charges.

4 Now Points For Used Fats
Help Increase Supplies of Soap and Other Peacetime Products By Saving More Used Fats
Industrial fats far short of last year! We are almost down to the bottom of the barrel. The nation's industrial fat supply is millions of pounds less than it was in 1944. We need fully as much as last year to help make the soaps and other civilian goods you want and need so badly. So . . .
If you want more soap and soap flakes . . . if you're dreaming of nylons, sheets, cotton fabrics and want them to hurry back to the store counter . . . you can help by saving those used kitchen fats as you never saved before! Save every drop, every day!

These fats are vitally necessary to help speed greater supplies of soaps and hundreds of other things—like new cars, electric washers, irons, refrigerators and tires. Industry must have these fats . . . to help get to you more quickly the peacetime products you've been longing to have for years!
So skim and scrape and scoop just as you did so faithfully before V-J Day. It is a peacetime job now—a job that will help you. And to prove how important it is, your government has increased the point bonus. So help meet this nation's need by continuing to save used fats.
