Why not have all the flavor you want in peas!

No reason why you shouldn't—once you know what to look for!

Remember how peas grow in the pod? Different sizes, different flavors, together. And that's the way Del Monte packs Early Garden Peas—only Del Monte goes Nature one better.

First, Del Monte takes out the peas too young to have flavor, the peas so old they have passed the prime of flavor.

Then—Del Monte selects just the best of all the rest and packs them together—so the sweeter flavor of the smaller sizes blends with the richer flavor of the larger.

An improvement? Wait till you taste Del Monte Early Garden Peas!

You'll see right away why Del Monte Early Garden Peas outsell every other brand of peas—all up and down the Pacific Coast!

REMEMBER! DEL MONTE PUTS **flavor first**

Grown from our own special strain of seed, where soil and climate produce the finest quality.

They're blended—for flavor balance. A quality selection of just the tastiest peas in the pod.

They're harvested just when they're ready. Day or night! Flavor won't wait.

They're fast-packed—right after picking. For nothing's more important in canned-pea quality.
