

BOOK TELLS PLANS FOR FARM HOMES

A reference book on plans for Oregon farm and acreage homes is now available for those in rural communities planning to build.

The book which has been compiled by H. R. Sinnard, architect, and Maud Wilson, home economist, as part of the work of the agricultural, engineering and home economics departments of Oregon State college, contains 24 plans for homes.

Twelve of the plans are for lowest cost homes requiring the minimum of skilled labor to construct. Twelve more plans are for homes with higher standard conveniences, and require more skilled labor.

This book has been in the process of production six years. Extensive surveys of farm homes have been made by the college to create plans which will be of practical use.

All space is conserved in the plans for convenient, comfortable living. Storage lockers, cupboards and shelves are built in where most needed. Doors and windows are strategically placed, for exits, ventilation and views.

Several copies of the reference book are on request-call at the home demonstration office, federal building, and can be borrowed for study. Complete plans with estimated costs of material, of the type of home selected as suitable for each particular farm, may be ordered from OSC.

A survey is being conducted now of home frozen locker units, and plans for these will also be available in the near future.

DR. BAIRD SLATED TO VISIT KLAMATH

The Rev. Jesse H. Baird, DD, will speak at the First Presbyterian church, 6th and Pine, Wednesday, October 17, at 7:30 o'clock.

All Presbyterian churches in Klamath basin are invited to hear Dr. Baird, who is president of the San Francisco Theological Seminary, and represents the only west coast Presbyterian school for training ministers.

This visit to Klamath Falls is the first part of a state-wide program in connection with the seminary's Diamond Jubilee.

Delegations are expected from all Presbyterian churches in the area, including Peace Memorial in Altamont, Merrill, Malin and Tulelake.

Women of the First Presbyterian church will serve refreshments. The public is cordially invited to attend.

You A Murderer

The day you had a flash of hate against your brother, God counted it murder. For he that hateth his brother is a murderer.—BIBLE. The human heart sews out every kind of sin and the wages of sin is death. Bible again. You see dead men everywhere, for all have sinned and the wages of sin is death. To God, the dead fill our streets, schools, fields, and homes. To God, all men lie in sin and death. To Him we are lost—Lost—LOST. But God found a way to breathe life into such as will have it so.

A TWO-PART PLAN. HIS PART—God so loved you and me and the man lowest down, that He gave His only begotten Son, that if we should believe on Him, we should not perish but have eternal life. Now OUR PART. We are to believe down in our hearts that the blood of Christ has cleansed away our sins. The Bible says it. We are to believe it. So believing, we stand cleared before God. CHRIST'S PART—He is at the door. Receive Him and He comes in with life eternal. He becomes to you the Bread of Life—the Fulness of Life to all who yield themselves over to Him as Lord and Saviour.

Which for you? To go on without Christ, having no hope and without God in the world? Or will you this instant receive Christ and life eternal? Your heart knows.

State Supreme Court Will Hear Arguments

SALEM, Oct. 13 (AP)—The state supreme court will hear arguments of attorneys Tuesday in a suit brought by Orin O. Page to nullify a Portland ordinance changing zoning district No. 1 to zoning district No. 3, which permits the establishment of business places.

Judge Walter Tooe of the Multnomah county circuit court held previously for the plaintiff and issued a restriction order. The appeal was brought by the city of Portland.

SHERIFF'S POSSE ENDORSES HOSPITAL

At a meeting of the Klamath Sheriff's Posse in the Willard hotel Saturday night, the organization passed a resolution endorsing the proposed establishment of a Veterans' hospital in Klamath Falls, and in the resolution, which will be forwarded to General Omar C. Bradley, administrator of veterans' affairs, Washington, D. C., some of the advantages for such an institution in this locality were pointed out.

Altitude, low precipitation rate, average of cloudless days, as well as the wide diversity of recreation for convalescents, were cited as advantages.

Resolution Passed
A resolution was also passed to endorse and urge the state highway commission to build bridge paths along the new highway to be constructed through Klamath Falls.

Sheriff Lloyd Low discussed at length the jail problem here and the Posse went on record supporting his efforts to build a suitable jail.

The Posse donated from its funds \$50 for the Klamath Community Fund.

Captain Pat Ivory ordered the horsemen to assemble November 12, to participate in the Armistice Day parade.

The group set their future meeting dates as the second Friday of each month.

A new activities committee was appointed, consisting of Charlie Read, chairman, and assisted by Keith Moon and Mel Henry.

COOKERY CLASS SET FOR MONDAY NIGHT

Steaks will be sizzling at Fremont school next Monday night when the first meat cookery class for butchers and grocers begins.

There will be a series of lessons each Monday night from 7:30 to 9:30 p. m., for six weeks, under the leadership of Mrs. Ted Bingham, former Modoc county home demonstration agent.

There will be demonstrations and discussions on the preparation and cooking of cheaper and less frequently used cuts of meat as well as the more familiar ones. Special stress will be placed upon new methods of cooking meats, poultry and fish to bring out and retain the flavor, juices and nutritive value.

These classes are made possible by the vocational department and are to be held in the home economics laboratory of Fremont school at 7th and Pine. A nominal fee is required to cover expenses and anyone interested may enroll for the lessons. For further information call Lucile Tweed, coordinator of distributive education, at the vocational office of KUHS, phone 7595.

Lakeview

LAKEVIEW — Fire of unknown origin Tuesday afternoon totally destroyed the warehouse of the Lakeview creamery with loss of supplies alone running around \$1700. The warehouse contained practically all the creamery's sugar allotment, two gas tanks, numerous cases of empty milk, cream and beer bottles and caps, and all fountain supplies, such as syrups. The fire had a good start when the fire department arrived and it was impossible to save the building and its contents. About 25 cords of wood were also destroyed.

The building and contents were partially covered by insurance. It will be necessary to rebuild, and at present an investigation is being made into the type of construction possible because of wartime shortages.

Paperboard is used in containers for shell cases, ammunition, gun barrels, machine parts, blood plasma and food and medical supplies.

COL. YADEN ON TERMINAL LEAVE HERE

Lt. Col. Boyd Yaden of the corps of engineers is home on terminal leave and is visiting his mother, Mrs. Guy Hancock at 701 Pacific Terrace.

Col. Yaden was a reserve officer for a number of years, and in 1940 was called on active duty. He was supply officer at Hamilton field, near San Francisco, and then went to Hammer field at Fresno field, where he was supply officer and then base executive officer.

Assumes Command
In December, 1942, he assumed command of the 84th aviation engineers. After six months on that duty, he was transferred to the Alaska division of the air transport command as division engineer. He had charge of all air force construction and air field maintenance in western Canada and Alaska.

He was on that job until the present time, spending 28 months covering the huge territory in his jurisdiction. His title was division engineer and chief of the air installations division for the Alaska division, ATC.

Col. Yaden has leave until January. He was in engineering work for the government prior to going into the armed services. He is a native of Klamath Falls, went to high school here, and graduated from the University of Oregon in 1928, majoring in geology. He spent six years in Alaska before the war.

Col. Yaden's wife and 16-month-old son are here with him.

MILLIONAIRE CANDY MANUFACTURER DIES

HERSHEY, Pa., Oct. 13 (AP)—Milton Hershey, who made a fortune of millions in chocolate and cocoa and gave it away to orphan boys, died today in the Hershey hospital in this central Pennsylvania town he founded in a cornfield in 1903. He was 88.

The aged philanthropist became ill Thursday night and was removed to the Hershey hospital which he gave to this community.

Cause of death was given by the spokesman as "due to his advanced age."

In recent years, Hershey lived quietly in the town which bears his name and continued to take an active part in community affairs.

A childless widower, Hershey, three years after his wife's death in 1915, made the orphan boys of America his heirs by transferring his chocolate holdings to the Hershey Industrial school for orphan boys he established in 1905. The school for boys four to 15 years of age has an enrollment of approximately 800.

FIVE NEGRO VETS HELD IN CAFE RIOT

PORTLAND, Oct. 13 (AP)—Five negro overseas veterans, accused of attempting a mass hold-up which developed into a cafe riot, were being questioned in jail today.

The five were identified by three negro civilians as among a group of possibly 15 soldiers who robbed the cafe cash box and several patrons, and knocked down two negro men yesterday.

The group, who Detective Sgt. Dan Mitola said were just back from two months on Okinawa but had not seen combat, are stationed at Vancouver Barracks. The civilian witnesses watched several hundred negro soldiers file into mess at Vancouver last night, but were unable to identify other participants.

Flashes of Life

PHONY
SEATTLE, Oct. 13 (AP)—Secret Service Supervising Agent W. B. Cline warned that counterfeit \$1 bills, bearing the following legend in Italian script, have appeared here:

"American promises have always been vain,
"They are beautiful bubbles,
"bubbles of soap,
"Just as this little bank-note."

BARGAIN SALE
SPOKANE, Wash., Oct. 13 (AP)—Spokane county found it had acquired a \$17,500 school in payment of a \$3.40 tax bill.

Marshall school district failed to get a clear title on the site of its school building. So Jean Hughes, county real estate agent, checked the boundaries of the plot which the county took by foreclosure last July when no body made the taxes or bid on the land. He made the discovery.

But officials quickly quieted the cheers of students. The county will give the school back on a tax-free basis as soon as the title is cleared.

CRIME VICTIM
SALT LAKE CITY, Oct. 13 (AP)—A leading exponent of the principle that "crime does not pay," Alf G. Gunn, deputy U. S. marshal for Utah, recently delivered a prisoner to authorities in California.

In his absence someone stole his automobile trailer.

BUTLER APPOINTED TO FINANCE POST

The First Federal Savings and Loan association Saturday announced the appointment of Arnel P. Butler as vice president of the association. Butler, according to George W. McIntyre, president of the First Federal Savings and Loan association, has had many years of experience in the field of finance.

Butler is a native of southern Oregon. He was born in Medford, attended school in that city and later studied architecture at the University of Oregon. His wife is the former Elsie Lawrence of Medford. Mr. and Mrs. Butler have two children. He has been associated with the Jackson county Savings and Loan association for 22 years and for the past eight years has been secretary and manager. Butler plans to assume his duties with the local organization November 1.

McIntyre also announced that Mrs. Opal McDonald, who has been with the association since its organization and who tendered her resignation some time ago, will remain with the association until Butler has assumed his duties. Mrs. McDonald expects to join her husband, Lt. Justin McDonald, who is now stationed in California following his return from a tour of duty in the Pacific. Lt. and Mrs. McDonald expect to return to Klamath as soon as he is released from the service.

VET HOSPITALS WILL BE BUILT IN BIG CITIES

By ARTHUR L. EDSON
WASHINGTON, Oct. 13 (AP)—The veterans administration has decided that if the doctors won't go to the veterans hospitals, the hospitals will have to go to the doctors.

Which means, an administration official said today, that more and more of its hospitals will be built in and near big cities, where it is easier to hire specialists part-time.

He said this will make many members of congress unhappy.

Lively Skirmish
In the past some of the liveliest behind-the-scenes skirmishing the capitol has seen has been over the question: What town gets the new hospital?

The reason: It has been estimated that a 250-bed veterans hospital may bring in \$1,000,000 a year in extra business to a community.

Veterans Administrator Omar N. Bradley and his acting surgeon general, Maj. Gen. Paul R. Hawley, are worried because:

The veterans administration has only 237 doctors. It could use another 1300 right now. Within a couple of years, it will need 5700 more.

It has 231 dentists. It needs 300 in the next year.

Worst Need
Worst need: 400 psychiatrists to treat the thousands of veterans who are coming out of this war with ailing minds.

The doctor situation is likely to get worse before it gets better. Seventeen hundred veterans' doctors are on loan from the army. They'll get discharges soon. Many of these were in the veterans administration before the army nabbed them, and they probably will return. But others undoubtedly will go into private practice.

No one in the veterans administration is too optimistic about getting sufficient recruits.

The pay isn't too attractive, for one thing. Dentists make \$3640 to \$6020 a year, doctors \$3840 to \$8750.

In 1866 Alexander Buntin installed at Valleyfield, Quebec, what is claimed to have been the first wood grinder for wood pulp manufacture in America.

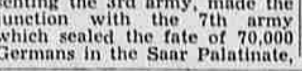

Yanks Outpaced Their Support

By NEA Service
The 26th Infantry division, whose YD shoulder patch denotes the Yankee division, was in training for almost four years before meeting the Germans. That chance came September 29, 1944, when the 26th went into action on the 3rd army front. For a month, in the region of Nancy and St. Mihiel, the Yankees acquitted themselves with distinction in defensive assignments.

Then, on November 8, the 26th heard the order to attack. Operating on the southern flank of the main assault, directed toward the fortress city of Metz, the division pushed across the Seille and Saar rivers, crushing determined enemy resistance under weather conditions so adverse that supporting armored and other forces were unable to maintain the pace. But the 26th kept driving forward and, on December 12, smashed into German territory at the Biles river.

Rushed to the aid of the First army during the Ardennes counter-offensive, the Yankee division hit the south side of the Nazi salient.

In late March, a few weeks before VE-Day, the Yankees, representing the 3rd army, made the junction with the 7th army which sealed the fate of 70,000 Germans in the Saar Palatinate, and thus virtually eliminated German resistance west of the Rhine.

KLAMATH FALLS SCHOOLS GIVE TO FUND DRIVE

Klamath Falls schools have presented a check for \$1162.98 to the community fund which at noon Saturday had passed the one-third mark in its goal for \$75,000.

Arnold Gralapp, in charge of school contributions, made his final report today to Joe Hicks, chairman of industrial organizations. All schools took part in the drive, Gralapp said.

A check with the chamber of commerce shows a total of \$26,360.00, now in the fund treasury. It is hoped that contributions will be speeded up next week and that all captains hear from workers as soon as possible.

Completed reports have been received from the following: California Oregon Power company, DiGiorgio Fruit corporation, Fluhrer's Bakery, The Herald and News, Klamath Lake Moulding company, city schools, Lombard Motors, Pacific Tele-

phone and Telegraph company, Reed Tractor company, Seawood Roebuck company, United States National bank and J. W. Kerns Implement company.

State Highway Chief To Attend Meetings

SALEM, Oct. 13 (AP)—R. H. Ballock, state highway commissioner, will leave Saturday for Washington, D. C., to attend meetings of the department of economic finance and administration of the highway research board. He will also attend the meeting of the executive committee of the association of state highway officials.

A LABOR UNION'S REPORT TO THE PUBLIC ON THE LUMBER STRIKE!

There is only one issue involved in the present tie-up of the lumber industry of the Pacific Northwest! That is the issue of a decent living wage for workers in the timber and sawmills. Efforts to drag in other issues, such as jurisdictional misunderstandings, are purely "stalling" tactics to confuse the public and some of the workers themselves.

IS \$1.10 AN HOUR Unreasonable?

The Lumber and Sawmill Workers, A. F. of L., called this strike only to enforce their demand for a minimum hourly wage of \$1.10 (some present minimums are as low as 70 cents). Under this rate a married worker with one child gets "take home pay" of only \$38.90 from his gross pay of \$44.00. How many of you would like to work in the most hazardous industry in the country and maintain a family on less than \$39? These are the workers who were "frozen" on their jobs at wages far below wages paid imported, unskilled workers in other defense industries. They are now asking only fair pay and living wages. Is this so "unreasonable"?

BIG WARTIME PROFITS A FACTOR!

Operators have said nothing about whether they are able to meet this wage demand. Nor have they said anything about their large wartime profits. Other business and labor leaders are pointing out, however, that most of the operators have "cleaned up" and for the balance of the year are operating under the excess profits bracket of the corporation income tax. Apparently they are not concerned whether mills operate, nor whether employees work. But the public is concerned, we believe! Tens of thousands want to build homes of their own, they want to be employed and have others employed at living wages! They want Economic Freedom to mean something!

CAST YOUR VOTE FOR A LIVING WAGE!

Please express your honest convictions on this issue! Write or tell business leaders and big sawmill companies what you think. And please fill in the ballot below and mail it today. You can help fellow Americans get living wages!
