

3-Power Talks Scheduled On Atomic Energy

WASHINGTON, Oct. 30 (AP)—Three-power discussions over the future of atomic energy will begin here about November 11 between President Truman, Prime Minister Attlee of Britain and Canada's Mackenzie King.

The announcement of the forthcoming talks, released in Washington and London simultaneously today, made no mention of Russian participation. The conference is in line with President Truman's previous statements that the three-power

5 CREWMEN KILLED IN PLANE CRACKUP

ANCHORAGE, Alaska, Oct. 30 (AP)—The army reported last night that five crewmen died and two persons escaped alive when a C-54 transport plane, inbound from Edmonton, Canada, crashed before dawn eight miles southeast of Elmendorf field.

The plane had arrived over Anchorage at 2:25 a. m. and circled the field, asking landing instructions. It was not heard from again.

A rescue team which found the wreck in timber at the foot of the Chugach mountain range reported by hand radio that one of the survivors had a broken foot and the other had escaped with bruises.

Names of the dead and the two survivors were withheld pending notification of next of kin.

New Tax Office Constructed Here

The end of the east wing of the county courthouse has been walled off, making another office to be used by the tax collector's department for automobile license sales.

1946 Oregon tags, the first metal tags to be issued since 1942, will go on sale at this office about Dec. 15. Passenger car licenses are \$5 and truck licenses cost according to the weight of the vehicle. Only one tag will be used for next year.

OFFICE ABOLISHED
WASHINGTON, Oct. 30 (AP)—Interior Secretary Ickes was directed by President Truman today to "wind up" the affairs of the office of fishery coordination established by executive order July 21, 1942.

Stromberg-Carlson Radios, Derby's Music Co.

domestic use and development of atomic energy.

No Knowledge
Eben Ayers, assistant press secretary who released the White House announcement, was asked at a news conference later whether Generalissimo Stalin of Russia was invited to the conference. Ayers said he had no knowledge of such an invitation.

The house military committee, meanwhile, pushed along President Truman's proposals for atomic energy controls by approving legislation creating a nine-man commission to supervise domestic development of the new power.

The legislation, written by an interim committee of scientists and government leaders, would permit scientists to experiment freely in the field of atomic energy provided their operations are not "on a scale which would constitute a national hazard."

Marshall Field 3rd May Purchase KOIN

PORTLAND, Ore., Oct. 30 (AP)—Entry of Marshall Field III, publisher of the Chicago Sun and New York PM and owner of two radio stations, into a west coast business was revealed in an announcement today that Field is negotiating to buy Portland radio station KOIN.

C. W. Myers, KOIN president, said Field has agreed to a price of \$943,967 pending approval of the sale by the interstate commerce commission.

The station is affiliated with the Columbia broadcasting system.

CRAWFORD BILL NOT LIKELY TO PASS CONGRESS

The Klamath Indian business committee today issued a press statement asserting that there is little chance of passage of the Crawford bill, in the U. S. congress.

This measure was introduced by Senator Wayne Morse, for himself and Senator Guy Cordon, and is sponsored by a group of which the leaders are Mr. and Mrs. Wade Crawford. Its principal purpose is to remove restrictions on the property and money belonging to individual Klamath Indians, provide for liquidation of tribal property and distribution of the proceeds, and to confer complete citizenship on the Indians.

Opposition
The business committee members, which indicated their opposition to the Crawford bill, issued a statement in compliance

with a resolution adopted by the committee to publicize information respecting the Klamath Indian "welfare bill" and the Crawford bill, now before congress.

Boyd Jackson, who signed the press statement, said SB1313 is not the property of the Klamath tribes, and that Senator Morse said he was introducing it at the request of certain clubs and business men of Klamath Falls.

"SB1313 has no companion bill in the house of representatives, without which there would be little chance for a bill of that character being passed into law," said the statement. "This will be further handicapped by an adverse departmental report, plus adverse positions taken by outstanding non-Indian organizations." Jackson added that the Klamath general council showed a lack of interest in the bill and refused to vote to put it on a ballot for a referendum.

Out On Limb
"It is quite apparent that the Crawfords now find themselves out on a limb, and are in sheer desperation, since they are doing everything they can to get the public to believe SB1313 has a chance," said the Indian committee statement.

The statement said that HR 2744, introduced by Congressman Stockman, with a companion bill in the senate introduced by Senator Morse, is the official

property of the Klamath tribes. This measure provides for payment of \$1000 to each enrolled member of the Klamath tribes without restrictions. The bill is pending before the committee on Indian affairs, awaiting departmental reports. It is known as the welfare bill.

"The welfare bill falls direct in line with the long range program now in operation and for several years past. . . . The framework we think is sound, constructive, conservative, and will lead to eventual citizenship."

Editor's note: The Indian business committee statement also covered information concerning the "long range program" and other matters, which will necessarily be summarized in a later story.
