

Churchill Says Russia Would Not Share Bomb If She Alone Held Key

By ALEX H. SINGLETON
LONDON, Nov. 7 (AP)—Winston Churchill expressed conviction today that Soviet Russia would not share the atomic bomb secret if she alone held it, and urged Prime Minister Attlee in his forthcoming Washington talks to bring no "pressure" on the United States to divulge the bomb's production details.

"I am sure," Churchill said, "that were the circumstances reversed and we or the Americans asked for similar access to Russian arsenals, it would not be granted."

Assistance
The former prime minister mentioned assistance furnished the Russians during the war, including radar "and other matters," and said he was "not conscious of any considerable reciprocity."

Churchill told Britain's lawmakers that what the United States did not wish to disclose was the practical production methods of the bombs "developed at enormous expense and on a gigantic scale."

To be effective for Russia, he said, the disclosure would have to take the form of a visit by Soviet specialists, engineers and scientists to United States arsenals.

(C. D. Howe, Canadian munitions minister, said in Ottawa two months ago that the United States was the only nation which knew all the details of the atomic bomb, but that the information would be made available to Britain and Canada if they should ask for it. He said both Britain and Canada had decided

for reasons of security not to seek complete details.)

"Sacred Trust"
Saying that Britain should help the United States guard the atom bomb "as a sacred trust for the maintenance of peace," Churchill nevertheless declared at one point that Britain "should make atomic bombs ourselves and have them here, even if manufactured elsewhere, in suitable safe storage, with the least possible delay."

He asserted the future of the atomic bomb should be decided by parliaments and responsible governments and "not by scientists, however eminent or ardent they may be."

But he declared: "Any idea of Britain deliberately pursuing an anti-Russian policy or taking part in making a combination to the detriment of Russia is thoroughly opposed to British thought and conscience."

"Nothing but a long period of marked injuries and antagonisms could develop any such matter again in this land."

Opening common's first full dress debate on foreign policy since Britain's labor government assumed power, Churchill, as leader of the conservative opposition, praised Generalissimo Stalin as a "great man," and said the Russian leader "is still strongly holding the helm and steering his tremendous ship."

Foreign Policy
Churchill expressed the hope that Britain would adhere to the 12-point American foreign policy program enunciated by President Truman in New York Navy Day.

"We should make clear to the

United States," Britain's war time prime minister said, "that we will march at their side in the cause President Truman has defined. This is our chance of survival and it may even be of safety and, with safety, a vast extension of prosperity."

Churchill's statement came a day after Soviet Foreign Commissar V. M. Molotov told the Russians in a Moscow address that the atomic bomb could not be kept secret and that the Soviet Union would have "atomic energy and many other things."

Britain's war time prime minister told commons that Generalissimo Stalin "is still strongly holding the helm and steering his tremendous ship," the Soviet Union.

In his role as minority leader Churchill expressed the hope that "we shall adhere to the policy declared by President Truman to keep the knowledge and processes (of the atomic bomb) as a sacred trust, as a deterrent to aggressive war."

National Forest Service Fund Asked

PORTLAND, Nov. 7 (AP)—Oregon recreation agencies and clubs today asked congress for reinstatement of national forest service funds to develop recreational facilities in national forests.

Hearings on a deficiency appropriation bill are now before the house ways and means committee.

Mt. Hood, Inc., and the Oregon Winter Sports association approved the requests yesterday.

Four Schools Running In Shifts

OREGON CITY, Nov. 7 (AP)—Four overcrowded schools in this county are running in shifts: first four grades in the morning; upper four grades in the afternoon.

Two additional schools started the year on a double-shift basis, but went back to the old-fashioned system as a number of families left the area.

E. A. Woodworth, county school superintendent, attributed the overcrowded conditions to an increase of small farms in the county.

SISEMORE SAYS RED CROSS JOB WILL INCREASE

A prediction that Red Cross work with veterans will increase for at least 10 years was voiced Tuesday by L. Orth Sisemore, chairman of the Klamath county Red Cross chapter.

"Post-World War I experience indicates that Red Cross services to veterans will be called on more and more for some years ahead to aid ex-servicemen and their families," he asserted. "The job this time will be a much bigger one because of the tremendous number of men mobilized in World War II."

Sisemore explained that Red Cross aid to veterans is provided through the home service department in local chapters, through Red Cross workers in military camps and hospitals, and through Red Cross field directors in veterans administration hospitals and offices.

"Stands Ready"

"Home service in our local chapter stands ready to help any veteran in the community who needs assistance in applying for and securing government benefits, in the preparation of forms, and in obtaining documents such as birth certificates," he added.

"Counsel service on family and personal problems also is available."

"Service to veterans is part of a continuous Red Cross program for men who are or have been members of the armed forces. It begins when a man enters military service and continues as long as he needs help. Red Cross workers are stationed in camps and hospitals, both domestic and

overseas, to aid the serviceman with personal and family troubles. After a man is discharged, home service in his local chapter is ready to provide Red Cross assistance."

The local Red Cross office is located upstairs at 518 Main.

"I WAS CONSTIPATED FOR MANY YEARS!"

Relieved by
KELLOGG'S ALL-BRAN

Constipated? Then here's an unsolicited letter you'll want to read:

"I'd been troubled with common constipation for many years. Was taking laxatives and pills all the time, and feeling very weak and run down. 3 months ago, I began eating KELLOGG'S ALL-BRAN daily. Now, I have a regular, natural movement every morning, which helps me feel my best!" Mr. Samuel D. Blank, 292 Kings Highway, Brooklyn, New York.

You, too, may be able to free yourself from pills and purgatives for the rest of your life—if your constipation is due to lack of bulk in the diet, and you eat a dish of KELLOGG'S ALL-BRAN every day and drink plenty of water! If not satisfied, send empty carton to Kellogg's of Battle Creek. You'll receive double the money you paid for it! ALL-BRAN is not a purgative. It's a highly nutritious food made from the vital outer layers of wheat. It's one of nature's most effective sources of gentle-acting, natural bulk.

Get ALL-BRAN at your grocer's. It's made by Kellogg's of Battle Creek and Omaha.

Many belts are not drycleanable because they are made with rubber cements which dissolve.

Today many of America's railroads and highways, especially in the hilly country, follow closely the old buffalo trails.

BASEMENT LEAKY?

Amazing Waterproof Cement Paint Seals Moisture Out of Damp Walls

Bondex actually stops dampness from creeping in through tiny cracks and pores by bonding with the wall surface! Easy to apply with brush or spray. Don't put up with the annoyance of leaky basement walls any longer—get some Bondex today and convert your basement into an extra room you can use for recreation or work.

Wards Rubber Footwear

KEEPS THE FAMILY HEALTHY!

 <p>SATINY, FLEECE LINED, BLACK GALOSHES <i>Not Rationed</i> 1.54</p> <p>Such warm protection, yet so neat and smart looking... these 2-snap galoshes of dull, satiny rubber with shiny trim. So easy to adjust in all heel heights.</p>	 <p>BOYS' FLEECE LINED ALL-RUBBER ARCTICS <i>Not Rationed</i> 2.69</p> <p>Protect your boy's health in all weathers! These practical 3-buckle arctics are easy to adjust and have non-skid soles. Sizes 2½-6 LITTLE BOYS' ARCTICS... 11-2</p>	 <p>WOMEN'S LIGHTWEIGHT BLACK SANDAL RUBBERS <i>Not Rationed</i> 1.18</p> <p>Good looking, dull satin finish... corrugated soles to keep you from slipping. You may have this popular sandal style in three heel heights high, Cuban, military.</p>
 <p>BOYS' STURDY STORM RUBBERS 1.35</p> <p>Reinforced at toe and other points of strain. Heavy, corrugated non-skid sole. 2½-6.</p>	 <p>MEN'S SHORT RUBBER BOOTS 3.50</p> <p>Strongly reinforced at points of strain! Non-skid soles. Bring ration certificate for Type 4.</p>	 <p>MEN'S HEAVY DUTY RUBBERS 1.69</p> <p>Strongly reinforced at points of strain to give service on the job! Heavy, non-skid soles.</p>
 <p>GIRLS' STURDY STORM RUBBERS 1.00</p> <p>Reinforced at points of strain. Corrugated soles. Sizes 12½-3.</p>	 <p>WOMEN'S SATIN FINISH TOE RUBBERS 78c</p> <p>A neat, lightweight toe rubber of dull, satiny black. Fits smoothly over your dress shoes.</p>	 <p>LITTLE BOYS' STORM RUBBERS 1.19</p> <p>Made for active wear... with reinforced toe cap and thick corrugated soles. Sizes 11 to 2.</p>

NEW GIANT X-RAY

The Latest Development in 50 Years of X-Ray Research

1945—NEW G-E 100-MILLION-VOLT "BETATRON"!

This 130-ton giant whirls electrons, tiniest parts of atoms, faster than man has ever been able to speed them before. So fast that they make the nearly 17-foot circular orbit of a doughnut-shaped vacuum tube 250,000 times in 1/240th of a second, and, striking a tungsten target, produce x-rays of 100-million-electron volts!

Dr. E. E. Charlton, left, and W. F. Westendorp, G-E scientists, designed this new machine, which generates x-rays over a thousand

times as intense as the early Coolidge tube—with a wave length of 0.00025 Angstrom units, up in the cosmic ray band! These rays will penetrate a thickness of metal considerably greater than even the 2,000,000-volt x-ray unit.

But more important still may be the uses of these super x-ray machines in medical and atomic research. G. E. is making them available to medical science for experimental therapy.
