

RUDOLF HESS FOUND NOT INSANE

By DANIEL DE LUCE
 NUERNBERG, Nov. 28 (AP)—Rudolf Hess, Hitler's one-time deputy, was described by psychiatrists today as "not insane at the present time in the strict sense of the word" and the international military tribunal announced that arguments would be heard Friday on the Nazi leader's plea to escape the war crimes trial on grounds of amnesia.

The British psychiatrists' report revealed that Hess had tried to commit suicide on several occasions since his sensational and mysterious flight to Scotland in May, 1941.

Declaring that Hess was not insane, the psychiatrists conceded that his loss of memory would "interfere with his ability to make his defense." Hess went on trial on war crime charges last week with 19 other top Nazi leaders but has paid scant attention to proceedings, reading novels much of the time and giggling occasionally.

"Hysteria"

Hess, the medical board reported, is suffering from "hysteria" and "in addition, there is conscious exaggeration of his loss of memory and a tendency to exploit it to protect himself against examination." Three separate reports of examinations were filed, one by the British, one by the Russians and a third

by American, French and Canadian doctors.

As today's session opened, the prosecution presented evidence from an American diplomat that the Nazis schemed from their earliest days of power to absorb Austria.

The charge that Reichsmarschal Hermann Goering and others of the 20 top Nazi leaders on trial openly spoke of annexing Austria to the Reich was made in an affidavit by George S. Messersmith, former U. S. minister to Austria and now ambassador to Mexico.

Hitler's lightning invasion of Austria in March, 1938, represented the "flowering of the fifth column," declared Assistant

U. S. Prosecutor Sidney S. Alderman, who declared that the Fuehrer's plans for acquisition of the country were shown on the first page of "Mein Kampf."

No Initials Needed!

PORTLAND, Nov. 28 (AP)—A Wac at the army air force separation base here called the names of a group of discharges, one by one, to come forward to sign their certificate.

"Ephlamamus" called the Wac.

From the rear of the room came a query, "What initials, please?"
