What we do to give you coffee with an extra flavor "lift"

Dwight Edwards
 —an authority on fine coffees

My coffee, you'll find, has a richness of flavor that really satisfies. That's because we blend and roast in small batches... under the personal formula of my father... perfected over 40 years ago. It's a painstaking custom way of doing things (we even select the choice coffee beans for size, shape and color), but it does give you coffee with a delicious extra flavor "lift." Try a pound and see for yourself. If you don't thoroughly enjoy it, your money will be refunded.

TO GIVE YOU the full, natural coffee taste, we blend by flavor, not by weight... roast by the Thermo "heated air" process which develops all the richness in the bean.

TO GIVE YOU absolute freshness, we grind immediately after roasting... then vacuum-pack to seal in all the flavor and aroma. Edwards Coffee is really fresh!
