

France Asks Death For Top 22 Nazis; Fervor Brings Fear To German Faces

By JAMES F. KING
 NUERNBERG, Jan. 17 (AP)—France asked death today for the 22 ringleaders of the Nazi regime and for punishment of hundreds of thousands of members of German terror organizations.

Francois de Menthon, wounded war veteran who is the French prosecutor, denounced Hitlerism and all it stands for with a fervor that brought fear to the faces of Hermann Goering and other prisoners before the International military tribunal.

The chief French prosecutor said that perhaps the punishment of hundreds of thousands of men who belonged to such terror organizations as the SS, the SA, the SA and gestapo "awakens some objection" but warned:

"Without the existence of these organizations, without the spirit which animated them, one would not succeed in understanding how so many atrocities could have been perpetrated. The systematic war of criminality could not have been carried out by Nazi Germany without these organizations, and without the men who composed them."

"The major Nazi culprits had their orders carried out in divers Nazi organizations which we ask you to declare criminal in order that each of their members may be apprehended and punished."

His accusation ran the gamut of German crimes. He said of 250,000 persons deported from France, only 35,000 returned.

"As Oselewin concentration camp, the most beautiful women were set apart artificially fertilized and then gassed," he declared.

De Menthon said his country was acting as spokesman for the

martyred peace-loving peoples of western Europe—Norway, Denmark, the Netherlands, Belgium and Luxembourg.

"A tortured people's craving for justice is the basic foundation of France's call to your high tribunal," he said. "This work of justice is equally indispensable for the future of the German people."

"These people have been for many years intoxicated by Nazi; certain of their eternal and deep-seated aspirations under the Hitler regime have found monstrous expressions; their entire responsibility is involved not only by their general acceptance but by the effective participation of a great number of them."

The Americans and British completed their cases yesterday, except for those against some individual defendants—including Rudolf Hess and Franz von Papen—which probably will be sandwiched in later. The French case is expected to take about three weeks, after which the Russian prosecutors will take over.

HIGH SCHOOL News Notes and Comment

 Lt. Com. Joseph Parker spoke to the Boys Alliance at a meeting recently. He is from Nashville, Tenn., and is now stationed at the naval base with the medical department dealing with psychiatry.

The commander spoke on vocations for the boys that would be profitable to turn to since the end of the war has changed many of their plans and training from the service.

One of the main points of his speech seemed to be that although intelligence was important, hard work is even more important and that even if a person's native ability is low, he may overcome it by hard work.

John Sandmeyer and Harold Shidder of the Junior chamber of commerce both gave short speeches on the coming game. The Rotarians were the guests of the Service club at the basketball game last night.

The basketball team was called up on the stage. In this particular incident the "team" was represented by members of the Pep Peppers. Lois Cuda, Charlotte Carter, Dorothy Dewey, Jeanne Hamilton, Darlene Geh-
