Wall Street Stocks Tumble

NEW YORK, Jan. 19 (AP)—The nation's darkening labor situation continued to depress stocks today in one of the liveliest short market sessions of the past six years.

Deals were speedy from the opening on. Steels were among the early tumbler as a strike in this industry was the matter of hours. U. S. Steel started late on a 2900-share block, off 1 5/8, and later extended this to 2 5/8. Utilities of the low-quoted variety were fairly resistant. Shares of around 1,400,000 were the largest for Saturday since May, 1940.

Conspicuous on the offside during the greater part of the proceedings were Bethlehem, Republic Steel, Youngtown Sheet, General Motors, American Telephone, Glenn Martin, Schenley, Westinghouse, Eastman Air Lines, U. S. Rubber, Sears Roebuck, Standard Oil (N.J.), Allied Chemical, American Gas, Great Northern, Standard and Union Carbide.

Included to extend the downward push were Commonwealth & Southern, United Corp., Columbia Gas, Consolidated Edison, American Water Works, and Fajardo Sugar.

Bonds slipped. Commodities were relatively steady.

NEW YORK, Jan. 19 (AP)—Another attempt to end the wage dispute which has tied up Overland Greyhound stages on runs west and north of Salt Lake City since October 1 will be made here Monday.

W. H. Kuse, company general manager, and Harold Oates, AFL drivers' business agent, plan to confer with the Portland Central Labor Council's executive committee. The council inaugurated the peace move.

Reports from drivers indicate there may be a settlement if adjustments are made in a contract which they rejected earlier this week, the executive committee said.

ALBANY, Jan. 19 (AP)—One of three men charged with robbing the Carlson hardware store and G. R. A. pharmacy in Brownsville December 21 was out of jail today under \$10,000 bond.

The suspect, Alfred Leroy Moore, is subject to later grand jury action. S. D. McClain and Jack Mann still are held in jail on the robbery charge.

WORKERS from the three truck packing company plants here are being transferred to independent plants to boost meat production, the secretary of the Oregon Federation of Butchers said today.

J. D. McDonald reported the three plants have cleaned up stocks on hand and are being packed.

Ways to help independent plants meet increased demands and strike plans against Swift and Armour companies were to be threshed out at a meeting Oregon and Washington butchers today in Seattle, he said.

Mrs. Gillen Gives Tips On Cleaning Furniture

The cure for a dull or grimy look on furniture may be simply a soap-and-water wash, says Mrs. Winnifred K. Gillen, Klamath county home demonstration agent, who observes that homemakers in the county are already taking steps about the annual spring housecleaning. Soil from handling or from smoke, dust or grease may accumulate

gradually on furniture and dim the finish, say the wood experts. Almost all finishes on wood may be washed safely, except shellac and cheap varnish which water turns white. Mrs. Gillen points out, in washing any furniture, care must be taken to use very mild soap and not to get the furniture dripping wet or allow moisture to reach glued joints.

Mrs. Gillen advises wringing a soft cloth or chamols out of warm soapsuds, rubbing the surface of the furniture until it is clean, and then wiping it dry with a dry cloth. After being washed, furniture should be polished with a good furniture polish. Painted or enameled furniture also may be washed in this way, but no polishing is necessary. For information on the care of polished wood surfaces, painted surfaces, or linoleums, call or write the office of the home demonstration agent, room 208, Federal building, Klamath Falls.
