TOKOTEE LINE TO KLAMATH PLANNED

Power Plant License Asked

California Oregon Power company's Tokotee falls project proposed for the North Umpqua river will be connected with the Klamath basin directly by transmission line, according to present plans of the company revealed today.

If the necessary permission is granted and the company builds the power plant, the first transmission line will be built to Dixonville near Roseburg, which is about 47 miles from the plant. It is then planned to construct another line, passing on the east side of Crater Lake national park, and connecting with

the company's Klamath basin power system north of Klamath Falls.

This program will give the Klamath basin transmission power inlets from the north as well as the south, providing added assurance of steady supply of power for this area. Two lines come in from the south now, and another will then come in from the north.

License Sought

A request for a license to construct has recently been made to the federal power commission, following preliminary applications, and a license to construct will be asked immediately of the state commission.

If licenses are granted by state and federal authorities, construction will start this year to be completed in 1948. The applications are based on a plant capacity of 25,000 kilowatts to be operated basically as a stream flow plant. Estimated cost of the construction, including the Dixonville transmission line but not including the Klamath basin line, is \$3,200,000.

Location

The Tokotee project is located at Tokotee falls on the North Umpqua in Douglas county, about 80 miles by road from Roseburg and a little more than 100 miles from Klamath Falls. The river at this location flows through a rugged canyon and for about four miles averages a fall of more than 100 feet per mile. Tokotee is one of six proposed projects on the North Umpqua and its tributaries.

Diversion dam at Tokotee will consist of a main earth fill section having a maximum height of 45 feet and a crest length of 350 feet. A steel sheet pile cut-off will be provided. A reinforced concrete outlet structure will be incorporated in the fill. Flanking the main section on one bank will be a short concrete gravity dam and a concrete overflow spillway section with a lined channel leading to the river below the dam.

A powerhouse on concrete foundations will house two vertical generating units and the electrical control and switching equipment. The plant will have two vertical reaction turbines in cast steel spiral scroll settings connected to penstocks leading to the plant. The turbines will be directly connected to alternating current generators.

Each turbine unit will have a water capacity of 425 second feet and will deliver 18,000 B. H. P. when operating under a net effective head of 405 feet at a speed of 360 r. p. m.

Junior Chamber To Honor 50 Years Of Organization

Robert S. Farrell, secretary of state, will speak Saturday at the Junior chamber of commerce annual Founders' Day banquet at the Willard.

Fifty years of organization will be celebrated by the Junior chamber of commerce Saturday, January 26.

The public is invited to attend the Founders Day banquet which will be held at the Willard at 6:30 p. m., at which Secretary of State Robert S. Farrell Jr., will speak, and to the dance which will follow.

Charles R. Stark, manager of the chamber of commerce, will act as master of ceremonies at the banquet, with Ray Ward as chairman and Hank Garnett, Paul Deller and Bob O'Sullivan serving on the committee in charge of the program.

The outstanding young man for 1945 will be announced at the banquet for which tickets are on sale at Carrins for Drugs and the chamber of commerce.

POSTMASTERSHIP
WASHINGTON, Jan. 24 (AP)—The president has sent to the senate the following nominations for postmasterships in Oregon: Carl Burk, Hammond, Ore.

Barnett Rites Slated Friday

Final services for Hugh A. "Barney" Barnett, 23-year-old veteran and former Klamath Falls resident who died of self-inflicted wounds in Albany, Calif., this past week, will be held in Albany and not in Klamath Falls as previously announced. Rites will be conducted Friday at 2 p. m. by the Sun-

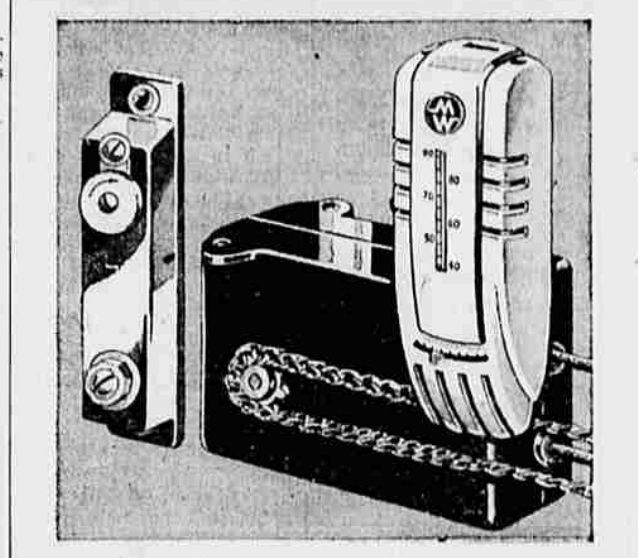

set Mausoleum Ellis company with interment in that city.

The youth's parents, Mr. and Mrs. H. A. Barnett, Blaine street residents, are in the south now. Barnett is a former KUHS athlete and spent the past three years in the service.
