Today's Roundup

SO Klamath Falls "city zone" has 30,000 or more population now. That is the estimate based on the school census in an area including the city proper, the southeast suburbs, the settled area west of town and around Weyerhaeuser mill, and the settlements extending up both sides of Upper Klamath lake for several miles.

EPLEY

The indicated gain, over the federal census figure of 1940, is about 4000 persons. We are glad the estimated figure passes the 30,000 mark, because it emphasizes in local minds the realization that Klamath Falls is a sizeable community with the problems and responsibilities that go with a rating in the 30,000 class.

Til Death Do Us Part

A CIRCUIT judge down at Salem let loose a blast the other day on the divorce situation. The divorce rate is outrageous, Circuit Judge E. M. Page said. He stated that five years ago, divorces in the court at Salem numbered around eight a month. Now they average 50 a month.

Chess Champion Defeats 35 Local Players At Once

J. A. Horowitz, accepted chess champion and editor of the Chess Review, took on 35 local chess sharks at the Marine Barracks last week, and won all the games. Dr. D. H. Osborn held out against the champion longer than the others in the game that lasted from 10 p. m. Thursday until midnight.

Jap's Fate Up To MacArthur

TOKYO, Feb. 5 (AP)—U. S. supreme court's rejection of Lt. Gen. Tomoyuki Yamashita's death-sentence appeal leaves final decision up to General MacArthur and confirms that the trial of war criminals definitely is a responsibility of the military. Allied headquarters officers, reporting these conclusions today, said that MacArthur has had the records of Yamashita's Manila trial for some days. There was no indication when he might act, and he has made no comment.

make marriages stick will have to come from the people themselves; once a split-up gets as far as the court, it usually goes through.

What the good judge had to say about the Marion county situation can be applied almost anywhere. Our paper gave an account yesterday of the high rate of divorce in this county as compared with marriage.

High Before War

BUT the divorce rate was high before the war. It is a major sociological problem of our time. The family, the church, the school, the moving picture, the press—every educational and inspirational influence available might well be used in emphasis on the sanctity of the marriage vow in both its spiritual and practical importance.

The legal approach to the problem is not solution in itself, but it must be generally agreed that divorces are too easy to get. It should not be possible for residents to get a divorce in an hour or a day or even a few days. We've done a lot of talking about "cooling off" periods in industrial controversies; that device might well be put to use in domestic controversy.

We sometimes wonder if many divorces could not be stopped in the office of a lawyer. Divorce business is one of the major sources of revenue of many law offices, and the simple economic urge must be enough to cause most lawyers to take this business in stride rather than using their good offices to turn away or cancel a potential case that is worth money to them.

Hoyt To Denver

OF interest to Oregonians in and out of the newspaper field is the announcement that Palmer Hoyt, for many years publisher of the Oregonian, is going to the Denver Post as editor and publisher. Mr. Hoyt, by virtue of talent, personality and vigor, has made himself a force in the Oregon country since the days he entered newspaper work after graduation from the University of Oregon.

Typographical errors never show up when they should. A headline in our paper says: "Unseasonable weather hits U. S." "Unreasonable" would have been perfect, even though typographically erroneous.

other hand, are groaning beneath the weight of luxury. To be sure, the poor mans table groans, too, but that's because he is pinched by the high cost of food. Thus far on our world tour we have encountered only one capital which could compete in any way with Madrid. And that is in Dublin, which is a modest runner-up.

The World Today

By DeWitt MacKenzie AP World Traveler

PARIS, Feb. 5—You get an unhappy comparison between the hard times in war ravaged France and the relative well being of Spain if you make the journey from Madrid to Paris by train. Mrs. Mack and I crossed the frontier from a Spain in which we had found—at a price—the finest food we had seen since America entered the war, to sit down in France to a potter's meal which was shockingly meagre. I'm sure you won't take this as disparagement of La Belle France's hospitality, for she does the best she can from her Mother Hubbard's cupboard. We mention the incident merely as part of our report on the every day lives of people abroad. This country has been terribly hard hit.

Here's the dinner we had on one of France's crack trains: a plate of thin soup; a small portion of fish, with a few bits of boiled potato and string beans on the side, an undersize apple, and a demi-tasse of black ersatz coffee—and that in a country whose chefs have put their hall mark on the menu of ever civilized nation in the world.

GARDEN PLANS

KLAMATH FALLS, Ore. (To the Editor)—There are a number of newcomers in Klamath who own their home now and would like to have a beautiful yard and garden.

The ones of us who are from the south and middle west know nothing about when and how to plant flowers, put out bulbs and roses or even a garden.

How about a column in your paper on how and when to have a beautiful yard and when to plant a garden?

Sincerely, A Reader and Home Owner. Editor's Note: Following custom, The Herald and News will carry gardening information, together with a time-table for vegetable planting, etc., and advice on times for planting of bulbs, plants and seeds for flowers. This information will be carried in the early spring. We consider the desire of newcomers to beautify their home places as most commendable and will do what we can to help.

St. Paul's—A joint meeting of St. Paul's woman's auxiliary and the Guild will be held Thursday, 11:30 a. m., at the church. Communion service will be followed by potluck luncheon. The program will be a Valentine party with Hostesses Mrs. J. A. Lambert and Mrs. Joe Piland.

Double Operation—Mrs. Tom Neeley and daughter Darlene are returning home to Medford from Ashland Community hospital where they both had appendectomies. The Neeleys are co-owners of Lake o' the Woods resort with Mr. and Mrs. Jack A. Dutcher.

Overnight Rail Service Resumed

PORTLAND, Feb. 5 (AP)—Overnight rail service on less than carload shipments between Portland and southern Oregon cities and the Coos Bay area was restored yesterday by the Southern Pacific railroad. Freight Traffic Manager F. C. Nelson said the overnight run, which was discontinued in 1942, would serve Portland to Roseburg, Grants Pass, Ashland and intervening cities and Eugene to Coos Bay terminals.

Boom Juice Touched Off

TURNER VALLEY, Alberta, Feb. 5 (AP)—Believed to be the largest charge of nitro glycerine ever exploded at one time, 5000 quarts of the boom juice were touched off in the 6900 feet deep west flank oil well No. 2 here yesterday with no visible effects felt above ground.

Some time must elapse before results of the explosion can be determined. Experts detonated the charge in an effort to rejuvenate the almost dry well and release millions of barrels of oil believed by geologists to be there.
