

Lets Must File Income Tax Return

Although a \$3000 deduction for any part of each year in service will exempt the majority from paying an income tax, Oregon's returning servicemen were reminded today that they must file a state income tax return, the same as civilians, by the April 15 deadline.

Details of income tax obligations and exemptions pertaining to Oregon veterans as passed by the 1943 legislature were simplified by state income tax commission officials at the request of Hugh E. Rossini, state veterans' affairs director, and were released today as follows:

1. The veteran must file a report on his 1945 earnings.
2. He is allowed a deduction of \$3000 from his net income for any part of each year in active service, for the years 1942 through 1945. This means that veterans who served as enlisted personnel or in the lower ranks of commissioned officers, and who had little or no income other than service pay, will have no tax liability in most cases for the years of service.
3. In such cases, a letter should be sent to the tax commission, setting out income received in each year for which a return has not been filed, and no further return will be required.
4. The \$3000 deduction is for each year, from 1942 on, that the man was in active service for one day. For example, if he was discharged on January 1, 1945, he can claim a \$3000 deduction on his earnings for 1945.
5. This deduction is in addition to the regular exemption allowed all persons. For single men, an income of less than \$800 for the year 1942, 1943, or 1944, and less than \$750 for 1945, is tax-exempt. For a married man living with his wife, less than \$1500 in any one year is tax-exempt, and an additional \$300 exemption is allowed for each additional dependent.
6. Where a veteran was granted a deferment of income tax payments when he entered service, or can show that he was absent from the United States in the armed forces when a return became due, he will not be penalized if a return is filed within a reasonable time after his return to this country.
7. He may save money by filing a joint income tax return with his wife. By so doing, if his \$3000 deduction was not used up, the remainder of this deduction can be applied to his wife's

deductible income. What this does, in effect, is to give his wife a greater deduction than she would otherwise have.

8. To take advantage of the \$3000 deduction, veterans must file on the "long form" tax table.

9. Service pay, overseas pay, flight pay and retirement pay are taxable for state purposes. Not taxable are maintenance allowances, the government's share of dependency allotments, disability pay and pensions, and payments received under the GI bill for education or apprentice training jobs.

Assistance in preparing returns may be obtained at the offices of the tax commission in Salem, Room 100, state office building, or in Portland, Room 709, Oregon building. For information and forms, write the State Tax Commission, Salem.
