

Russian Evacuation Of Northern Iran Assured By Embassy Spokesman

TEHRAN, Iran, Feb. 26 (Delayed) (AP)—A Soviet embassy official gave assurance today that Russian troops would be withdrawn from northern Iran but the Iranian foreign ministry and military observers said there was no apparent sign of a Russian evacuation.

An American officer said he believed it was "impossible" for the Russians to withdraw by March 2, the date agreed upon for the evacuation of all foreign troops from Iran.

Iranian officials complained a few weeks ago to the United Nations about the actions and presence of foreign troops in northern Iran in connection with an autonomy movement in the northwesternmost province of Azerbaijan, charging there had been "a number of interventions in Iranian affairs by Soviet authorities."

Disposed of Complaint
The United Nations security council disposed of the complaint by referring it to the Soviet and Iranian governments for direct negotiations, retaining the right to call for progress reports.

Iranian negotiators, headed by Premier Ahmed Quavam Es Saltaneh now are in Moscow.

Prince Firouz, undersecretary of state, expressed the opinion that Russian troops "certainly will be out of Iran" and added that the Soviet army communi-

cation lines already were being taken down north of Karvin.

An official in the Soviet consulate, to whom the Associated Press was directed to renew an application for permission to enter Azerbaijan, said:

"Surely, we will be out."

Asked why it was necessary to seek Russian permission to enter the province after Russian troops were scheduled to leave, he replied:

"We here are only the little people. How can we say what our government will do?"
