

Klamath County Relief Load Hits 5-Year High

The relief load of the county welfare office for this month is heavier than for any month in the past five years, figures at the welfare office reveal, and the county commission has set aside \$6000 for general assistance in March.

At present 106 cases are receiving financial help, among them many persons classified as employable. All these are currently registered with the employment office and are expected to take jobs if any open.

Also receiving aid are a number of ex-servicemen, some during the period while they are waiting for their unemployment insurance benefits to begin.

The case load now is higher than in any month since March, 1941, with 106 families receiving case work services only.

In addition to the \$6000 for general assistance, the county commission approved an expenditure this month of \$8650 for old-age assistance, \$1700 for aid to dependent children and \$66 for blind aid.

NO THANKS

LOS ANGELES, March 6 (AP)—A government agency gave the city school system two carloads of potatoes and Business Manager A. S. Nibecker a headache.

The potatoes came free with the proviso they be served at school cafeterias.

That's all very well, says Nibecker, but costs of unloading, peeling and serving the potatoes would overrun the cafeteria's budget.

RED CROSS

By EARL WHITLOCK

Yets, indeed, I know that income tax comes this month. I know the cost of living is going up all the time. I know you've got lots of uses for your money. But, just the same I want you to do your duty by Red Cross. No, let's say "do your pleasure."

Because your Red Cross contribution ought to be a pleasure. Surely there is no expenditure you could make which will benefit humanity more greatly.

In drought, in flood, in fire or in earthquake, in China or in Chicago, the Red Cross is ready to help the helpless. And it doesn't ask who you are, or where you hail from, or if you've filled out your application blank or what party you voted for in the last election.

Red Cross asks only, "Do you need help?" and says, "Here is that help."

Dig deep on this one! Make your contribution a good one!

Next Monday Mr. Whitlock, of the Earl Whitlock Funeral home, will comment on "Unpaid, Unsung, Unappreciated."

NENT peace, but at least long periods of temporary peace can be brought about by those who have the power. Rome, when she had the power, enforced the Pax Romana (peace of Rome). Britain, when she had the power, enforced the Pax Britannica (peace of Britain).

Temporary peace is better than NO peace. If we and the British peoples work together to HOLD THE POWER, we can enforce another PAX—which, because we are reasonably decent and tolerant, will be far better for mankind than what will follow if we stay divided and weak.

DON'T kiss off this proposal for intelligent co-operation between Britain and America without serious thought.

French Warships Bombard Chinese

CHUNGKING, Thursday, March 7 (AP)—A Central News dispatch said today that five French warships bombarded Chinese troops at Haipong, Indo-China yesterday, and both sides suffered casualties in a hot but brief exchange.

The dispatch said the French attempted to land at the northern port, which Chinese forces had been occupying and which the French are supposed to take over under an agreement announced February 28.

The fighting continued until noon, when the warships withdrew leaving huge fires roaring from a blasted ammunition dump, the dispatch said.

CASCADE SUMMIT, March 4—Mr. and Mrs. L. L. Hall, proprietors of Summit lodge, received a letter last week written by Lt. Warren Moore from a prison camp in Germany dated December, 1944. He told of his being shot down and receiving burns in the accident.

Moore had, however, preceded his letter to the United States and last summer, much to the surprise of the Halls, drove in to their place while en route to his camp at Santa Monica from Seattle where he had visited his parents after being liberated.

Early in 1945 the Halls wrote Moore and the letter was returned stamped "Missing in action." The Halls feared he had been killed and were naturally overwhelmed with joy when they saw him. Moore worked at the lodge three summers prior to entering the service.
