Klamath Falls business firms are making improvements in their main street are improving their merchandising facilities at a dizzying rate of speed.

The latest modern post-improvements are changes in the Pelican cafe where the floor has been extended 24 feet extra space is being added for the bakery and the stainless steel electric dish and dryer.

The cafe is washed off the top into a closed container which they are stacked in racks and drawn into the steam spray cabinet. They come out of this "bath" steaming hot and evaporation dries them.

New work table, metal kettles and custom-built electric ranges are also part of new equipment. Mrs. Warner is kitchen manager and general assistant to Avis McConnell, Pelican cafe.

Chinese hangings have been added to the Pelican cafe.

# Not Typical, Thank Heavens

This is a picture of a Klamath Falls city street, fortunately not typical. E. S. Edwards, Garden street and Orchard way, is shown digging his car out of a mudhole on an unpaved portion of Garden behind his house. Some unpaved streets have become nearly impassable with frost going out of the ground. Unpaved streets can be improved with surfacing by owners of abutting property paying the costs, as has been done on other paved streets. Edwards thinks the city ought to provide the surveys for such work, cost free.

# Ash Wednesday Opens Lent

Today is Ash Wednesday, the first day of Lent. It was preceded by Shrove Tuesday, of old a special day for people to confess their sins and be "shriven." It was also a day marked as a final fling of feasting and merriment before the 40 days of the Lenten season. In stricter times, eggs and milk were eliminated from the Lenten diet which probably accounted for a last gorging of pancakes on Shrove Tuesday—and may have something to do with a passion for eggs on Easter Day when the prohibition was lifted.

Ash Wednesday and the remainder of the season make up the 40 days of Lent. Forty days Moses had remained up the mount at Sinai. Forty days our Lord had spent in the wilderness, and 40 hours His body had been laid away

in the tomb. The number had a mystical significance. Forty days of self-denial before Easter was readily acceptable to Christian sentiment. But Sunday was always a feast day.

Therefore, the season of Lent as finally settled covered 40 days exclusive of Sundays, or a total duration of 46 days, making the beginning of the season fall on a Wednesday.

The penitential spirit is strongly expressed throughout Lent. According to an old custom, people received a mark of ashes on their foreheads on the first day of the season, the ashes being made from the burning of palms.

Latin name for the Lenten season is Quadragesima, meaning 40th day, which has been corrupted in French to Careme and in Spanish to Cuaresma.

In English the old Anglo-Saxon word lencten was adopted. It merely meant "spring" and became shortened to Lent.

The date of Easter determines when the dates of Lent shall fall and they vary from year to year. This year Easter falls on Sunday, April 21. It is celebrated by all churches in Christendom with pageant and song, altars decked in white, symbol of joy, thanksgiving and victory.
