

President Orders War-Time Cloak Of Secrecy Remain Around A-Bomb Project At Hanford, Washington

WASHINGTON, March 8 (AP)—The War Relocation Authority department told Senator E. L. DuPont today that the cloak of secrecy remain around the Hanford, Wash., atomic bomb project.

The department said it was having difficulty in negotiating a contract with the E. I. DuPont de Nemours & Co. Company. The complaint referred to the national relations board but no action has been held because of security reasons.

Security Measures The department said the president has directed "maintenance" of security measures at Hanford until Congress has approved the atomic bomb project.

The primary consideration in the department's view is the security of the Hanford atomic bomb project. The department said it is necessary to maintain the security of the project until such time as the need for security no longer exists.

Council Agrees The War Relocation Authority Council agreed with the department that the conduct of public hearings and elections by the national relations board would jeopardize the security of the project.

The council also agreed to suspend the national relations board until such time as the need for security no longer exists.

The department has been maintaining the same security during the active life of the project.

An important feature of this program is the suspension of the national relations board hearings.

General Heiss said another regarding the maintenance of status quo in labor relations at the Hanford plant has uncertainty concerning future operation of the plant.

Mrs. Harrison had written Butcher Karl Kauf and asked if she could purchase the 10 pounds of bacon one of Kauf's customers had rejected. The customer, who during the war would joshingly order 10 pounds of bacon, recently had his order accepted by Kauf, but he turned it down.

Feed Your Dog as Many Famous Breeders Do

GRO-PUP DOG FOOD

"...best food we ever used"

Paul Evans, owner of Lane's End Cocker Spaniels, Minneapolis, Minn., writes: "I have been using Gro-Pup for some time. It's the best food we have ever used. My dogs eat better, maintain better condition and cost, in short, Gro-Pup has been wholly satisfactory."

Most breeders and veterinarians use and recommend a foundation diet of good dry dog food fed with scrap meat, including fat. So many feed Kellogg's Gro-Pup because it provides all the vitamins and minerals dogs are known to need for growth and vigor.

Kellogg's Gro-Pup is thrifty. And dogs love its hearty, meaty flavor.

Get this scientifically formulated dog food in 3 forms: Ribbon, Meal, or Pellets—at your grocer's or pet shop. Made by KELLOGG'S of Battle Creek.

Canada Grants Britain Credit

OTTAWA, March 8 (AP)—Canada has granted Britain a credit of \$1,250,000,000 at the same terms as provided in the proposed American-British loan. Prime Minister W. L. MacKenzie King announced today.

The amount granted by Canada is one-third the amount of the American loan, which still awaits the approval of congress.

The Canadian loan also must be approved by parliament, a finance ministry official said, and special legislation will be presented early at the next session, which opens a week from today. No important opposition is anticipated, although there have been indications that some spokesmen for French-speaking Quebec will oppose it.
