# KF Woman Receives Unusual Pictures

Mr. and Mrs. Walter Fuller, 2252 Vine, yesterday received two unusual pictures taken of their son Lt. Hugh Fuller in Paris while he served overseas.

The eight by 10-inch bust-ports are three-dimensional, giving them a wavy appearance and a look of realism and movement. Costing \$40 each, the pictures are of a type not often seen in this country. According to Mrs. Fuller, local photographers said that they had never seen such work, and don't know how it is done. Part of the effect of movement is achieved by a special type of glass used to cover the photographs.

The Fullers had given up ever getting the pictures, which were packed for mailing over a year ago when their son was in Czechoslovakia, but they arrived this week in excellent condition. Mr. and Mrs. Hugh Fuller are living in Los Angeles now.
