

Soviets Rolling Out Of Changchun, Manchuria, Heading Toward Siberia

By SPENCER MOOSA
CHUNGKING, March 14 (AP)—A report on Sino-Soviet discussions of economic cooperation in Manchuria roused heated shouts of "sit down" at the Kuomintang (National) party congress today as withdrawing Russian troops moved toward Siberia.

Chang Kai-shek, special commissioner for economic affairs to Manchuria, said Chiang Kai-shek told him last December not to recognize Russian claims to Japanese industrial equipment there as war booty. He said he was instructed further to refuse to discuss Sino-Soviet economic cooperation before withdrawal of Soviet forces.

Chang emphasized that no agreement on economic cooperation had been reached but several times angry shouts interrupted his report.

Russian troops which last week withdrew abruptly from Mukden to Changchun rolled on northward today—ostensibly headed for Siberia—in seven troop trains. Chinese government dispatches said the remainder of the Red army's former Mukden garrison would follow soon.

First Indication
This was the first indication that the Mukden withdrawal might mean evacuation of Manchuria.

Liu Pei, vice minister of operations, told the congress that only three per cent of Manchuria has reverted to Chinese government control. He said there are 100,

000 federal troops there and an estimated 200,000 communist soldiers. Previous estimates set the communist total at 300,000.

Liu estimated that 705,000 Japanese are in the area, including 200,000 he said are receiving Russian military training. He reported that hundreds of thousands of others went to Siberia.

He further said there are strong concentrations of Russian troops at Port Arthur and Dairen, the latter city declared an open port in the Sino-Soviet treaty of Aug. 14.

Government Control
Central News agency reported that Mukden and its suburbs now are firmly in Chinese government control and that peace and order are well maintained. It said that by noon yesterday strong federal forces controlled Mukden and its suburbs to a radius of six miles.

Chang told the Kuomintang congress that when he went to Manchuria in November, the Soviet representative told him Russian losses in the war were at least as great as losses of all other United Nations combined and contended that therefore Russia was entitled to booty in Manchuria.

On Jan. 5, Chang continued, Rodion Y. Malinovsky in an informal talk whittled down Soviet demands to a claim for joint Sino-Soviet control of some mines, power plants, and machine tool factories in Manchuria.

Safeguard Mukden
He said the Chinese asked the Russians to safeguard Mukden and other cities until Chinese forces could arrive but that considerable damage was inflicted on Manchurian industry. He did not say by whom.

He reported that destruction included 15 per cent of coal

mines, 50 per cent of steel works, 70 per cent of machine plants, 50 per cent of textile mills and 25 per cent of food.

As Chang made his report, a delegation of 40 members of the Manchurian guild arrived at the congress hall and demanded dismissal of Gen. Hsiung Shih-hui, director of the generalissimo's Manchuria headquarters. They charged that Hsiung is incompetent.

GLENDALE, Calif., March 14 (AP)—Charles R. Dyer has two good reasons for being in Glendale traffic court next Monday.

(1) He presides over the court as judge.

(2) He holds a citation ordering him to be there. It charges there was a defective tail-light on his honor's car.

Dog Owners Warned To Get Licenses

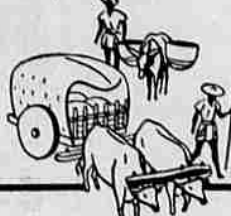

More action and less talk is the present program concerning unlicensed dogs roaming the county, as outlined by H. C. Howard county poundmaster. "Dog owners have had since

the first of the year to get licenses," Howard stated. "The deadline, March 1, has passed and a penalty of \$1 is levied against all dogs picked up now."

Moreover, Howard said, there will be no chiding owners to buy licenses or pay fines, all dogs lacking the 1946 tag attached to collars will be induced

to take the long sleep after a certain period of holding the animals.

Loose dogs are as thick as sand fleas destroying foliage on county school grounds and committing general nuisance, How-
