## THE SMART FAMILY

THESE YOUNG FOLKS certainly have a direct way of asking questions. Take Jane Smart, for instance. The other day she said, "Doctor, a group of us were discussing alcoholism. Some folks are claiming long and loud that it is a disease." "Right, Jane," says I. "Now with all other diseases, research tries to discover the source, and destroy that source, doesn't it?" "Right, Jane, again!" "And yet the source of alcoholism is known, and rather than destroy it—it seems to us girls that they are trying to alibi or camouflage the source—if it is a disease why not treat the source like other diseases?"

# Southern Pacific Track Workers are furnished housing

Southern Pacific urgently needs track workers. On this job you help lay track and ties, ballast roadbed, repair storm damage and keep the line in good condition at all times. It's healthful, outdoor work. No experience required.

If you work with a section gang (stay in one locality and maintain one section of track) the company furnishes housing, including fuel, light and water, without cost.

If you work with an extra gang out on the line, you'll have outfit cars to live in. You'll get board at reasonable prices, too.

As a railroad worker you get these valuable extras: medical and hospital care, insurance, railroad pass privileges, and a fine retirement pension plan.

Remember, you need no experience to be a track worker. You'll catch on quickly. Remember, too, that Southern Pacific is a good outfit to be with—a permanent company with plenty of work ahead.
