The fact that Charles B. Woodson, blind veteran, was wearing overalls didn't keep Col. Rex J. Elmore from pinning two medals—the Silver Star and Purple Heart—on him. Woodson was wounded September 8, 1944, near Metz as he bent over a wounded comrade to give him a drink of water. The bullet severed both optic nerves. Bess Truman's Bridge Club Meets In White House Today

By Virginia Van Der Veer

WASHINGTON, April 11 (AP) The White House hung out its "Do Not Disturb" sign today. There's a big bridge game going on inside—and no kibitzers allowed.

At least Mrs. Harry Truman has 10 bridge-playing cronies from Independence, Mo., as house guests. How much good, serious bridge they'll get around to is anybody's guess.

The girls—whose club has met every-other-Tuesday for more than 20 years—spent their first evening in Washington at a Constitution Hall concert.

The club, resplendent in evening gowns and white gloves, almost took the spotlight from Pianist Eugene List, soloist with the Philadelphia Symphony orchestra.

Filling the presidential box and another adjoining, they almost hid the man who sat quietly in a corner behind them—Bess Truman's husband, Harry.

The 10 members of Independence's most exclusive bridge set accepted—unanimously and eagerly—the invitation of their fellow member for a reunion at her house.

They arrived yesterday—five slipping in quietly by car but the other five by plane, to the delight of photographers at every stop.

Expected to stay over the weekend, they'll have the house to themselves Friday. Mr. Truman will be away for the day at Hyde Park dedication ceremonies.

HOT CASH

DECATUR, Ill., April 11 (AP)—After a fire destroyed C. T. Durbin's house he poked around the ruins and found two pieces of iron pipe which had been part of his cash box and which had contained $2400 in currency.

He took the pipes to a Decatur bank and some charred material in the pipes was sent to the federal treasury with the proper claim filed.

Treasury experts identified the charred bills and have authorized the bank to credit $2400 to Durbin's account.

Texan Nominated To Bench Of Tax Court

WASHINGTON, April 11 (AP) Rep. Luther A. Johnson, member of congress from Texas since 1923, was nominated by President Truman today to the bench of the tax court of the United States.

The appointment is for a 12-year term beginning next June 2.

Johnson, whose home is in Corsicana, practiced law in Texas for 10 years before he entered congress.

Mr. Truman nominated two present members of the tax court for new 12-year terms, starting June 2. They are Bolon B. Turner of Arkansas and J. Russell Leech of Pennsylvania.

Kaiser Vancouver Dock Will Be Used

PORTLAND, April 11 (AP)—The navy will take over the Kaiser Vancouver shipyard's outfitting dock about April 20 to process ships destined for temporary layup at Swan Island basin here.

Capt. Homer L. Grosskopf, commanding officer of the Portland group, 19th inactive fleet, said the dock and layup site probably would not be used after January. By then the navy vessels will be moved to permanent moorage at Tongue point, Astoria.

Children Should Be Seen And Not Heard

TRINIDAD, Colo., April 11 (AP) An Oklahoma Indian, halted by State Highway Patrolman Robert Bean who suspected him of drinking, denied having any liquor in his car. His small child, hearing the conversation, reached under the back seat, pulled out a bottle of liquor and said "here 'tis, Daddy." The Indian was fined $25.

Thurston Nominated As Envoy To Mexico

WASHINGTON, April 11 (AP) Walter Thurston, now ambassador to Bolivia, was nominated by President Truman today to be ambassador to Mexico.

The nomination was sent to the senate while Mr. Truman was conferring with Secretary of State Byrnes and George Messersmith who has been shifted from the embassy at Mexico to become ambassador to Argentina.

Lumber Production Will 'Level Off'

SEATTLE, April 11 (AP)—The West Coast Lumbermen's association today warned lumber production would "level off" after a March output 9 per cent above the previous total.

In a monthly survey, the association declared mills resuming after winter shutdown in isolated districts caused the slight jump. The weekly production of 123,000,000 board feet was the highest since last August but still 15.3 per cent below the 1942-45 average.

The report said "repressive controls" would effect the leveling off, but expressed belief the housing goals of the national veterans homes program would obtain sufficient lumber.

6 Cases Of Mumps Reported In County

No cases of smallpox have been reported to Klamath county health authorities for the week ending March 30, but cases of mumps have shown an increase with six cases reported in the county.

Other communicable diseases reported for that period of time were four cases of chicken pox and two of diphtheria. By far the most prevalent communicable disease in the state is measles, however Klamath county is comparatively free of them.
