Today's Roundup

By MALCOLM EPLEY
THROUGH the mail today came this letter from a Klamath Falls woman:
"May I speak a word of praise to the many good people who have contributed to the cancer fund?"

EPLEY

"Believe me, folks, I know whereof I speak—because I am a sufferer of cancer who waited too long. After suffering with stomach trouble for several years I went through the Portland clinic and was told by the doctors there that I had cancer of the stomach."

"They operated and removed three-fifths of my stomach and thought they had removed every bit of that terrible cancer. A year ago I again went through the clinic and the tests and X-rays showed there wasn't a sign of the cancer returning at that time. I was so very happy."

"Then in January of this year I became ill and was told by my doctor that the cancer had become active again, and there wasn't anything that could be done for me. He said that it was only a matter of time until the tube into my stomach would be closed by the cancer."

"I am still quite young and have everything to live for—a kind, loving husband and four dear children who think the world of their little mom, and would do anything to make her happy."

"Perhaps if we had plenty of money I could go to some doctor who could help me in some way—give me a few more years to be happy—but as it is we have only our little home and the wages my husband makes at day labor."

"Again, may I say if you are ill—find out at once what is wrong. Don't wait until too late. And please, everybody, give to the cancer fund to help our doctors find a cure for this terrible disease."

Thus, an unsolicited appeal for a cause of vast importance to all mankind, and our sincere thanks to the writer of this letter. Klamath's cancer fund quota of some \$2800 is a part of the community chest. Contributions to the cancer fund may be made immediately by sending the checks as follows:

Cancer Fund, Community Chest, First National Bank or U. S. National Bank, Klamath Falls, Ore. Let's give now to this cause.

Chamber Leadership
ACTIVE, aggressive leadership for the Klamath County chamber of commerce in the coming year is assured through the election of John Houston as president. The former mayor, long active in civic affairs here, is full of ideas and vitality. He is a made-to-order chamber of commerce president. You'll be hearing a lot from the chamber of commerce in 1946-47.

The chamber is ending a year of progress under the leadership of L. Orin Sisemore. Mr. Sisemore has given much of his time and ability to this job, which is not an easy one. The chamber's recent tremendous increase in membership is a tribute to his administration. Klamath's chamber is in a position to serve

morning. There will be a discussion of fire hazards found on most farms, and the need for cleaning up and eliminating these hazards. Special emphasis will be laid on the part played by 4-H clubbers in this important work. Participants in this will be Richard E. Vernor, president of the National Fire Protection association; Guy E. Noble, chairman of the National Committee on Boys and Girls Club Work, along with Champion 4-H girl Patsy Woods, 16, of Appleton, Wisconsin and Champion 4-H boy Eugene Kornis, 18, of Minnesota.

Marsh Says State Needs Sales Tax
PORTLAND, April 25 (P)—A warning against deficit financing during the state's "growing pain" stage was made here by the speaker of the state house of representatives in a speech.

Eugene E. Marsh, McMinnville, said the state faces higher financial demands for all purposes, listing \$12,000 needed in the next biennium for salary boosts, welfare needs and educational demands.

"If we ever needed a sales tax, we need one right now," Marsh told the Multnomah County Republican club, but said he doubted Oregonians would approve such a tax for "many years to come."

Tomorrow is the last day of the Man on the Street contest, and some lucky patron will walk off with the watch offered as first prize for selecting a name for the show. Bob McCarl and his mike will be at Rickys come 12:15 to award the prize and interview the winner, so don't miss this show. Even the staff doesn't know yet who will be the winner. Maybe McCarl does, but he's keeping it a dark secret—until tomorrow.

Another special show will be carried for Klamath listeners Saturday when John Baker of the U. S. department of agriculture, will discuss the "Business Side of Farming." This is a part of the American Farmer show, from 10 to 10:30 on Saturday

club back into civic activities of the city and outlined several projects which the club could adopt to advantage. The club voted to sponsor the first Air Scout troop in Klamath Falls. A report was given on the 20-30 sponsored troop meet next Saturday. Election of officers will take place in May. Acting Chairman Stewart Patrick presided at the meeting. Corky Ellis of Malin presented several piano numbers.

the community increasingly well. It has broad support, and more and more the people of the county are looking to it for leadership in all lines of civic endeavor. Its county-wide and ath county chamber of commerce in the lished.

News Behind The News

By PAUL MALLON
WASHINGTON, April 25—An AFL activity who knows thoroughly what is going on in the labor movement, has circulated privately a report that certain CIO unions are moving to cleanse themselves of communism. He tells of a secret meeting of the organization of utility workers of America recently, where the constitution is supposed to have been changed to provide expulsion of any member who joins the communist, nazi or fascist parties, and permanently prohibits them from holding office.

There are other inner symptoms not yet ready to relate, that the left-wingers are awakening to the methods and effects of communism. If they are, it would be a tremendously significant event because they are the ones who can best do the job of cleansing the influences which have absorbed much of their activity. It is in the leftwing labor movement where communism has had the greatest success, not in politics or at the polls, and a thorough cleansing might result in the change of many labor doctrines which have been unrealistic, if not self-destructive of labor's best interests. It may be a long job and require action, but at least the will to do the job seems to be developing where it will do the most good.

Communism Catching On

THERE are other indications that the country is catching on to the insidious methods of communism. A private letter sent out by one of the most reputable business advisory services in the country recently carried a thorough analysis of the peculiar communist technique which has never been fully understood by the business people of the country. It outlines, for instance, the fact that communism is a kind of fanaticism, difficult for the average American mind to understand. It works without principle or honor, using every method to attain its purposes—I was going to say ideals, but it has no ideals. The ideal changes with whatever immediate objective is ahead and the objective is destruction, primarily, of all other ideals.

Examples were given in this letter to enable the employers better to combat the effects of insidious organization. This letter also tells how the communists work in the unions from a single person to influence another by every means at their command, even metaphysically or psychically to absorb the peoples' minds. One man on a union board of 12, this memo relates, sometimes is able to control the judgment of as many as 12 ultimately after years of preying upon their likes and dislikes, at least on some issues.

New Methods Used

MANY of the methods were new to me, but the most striking was that communists actually start red baiting schemes against themselves by one of their members, of whom they wish to rid themselves without letting anyone know except themselves. It seemed to me the ultimate abnegation of all existence, to get your own people to advocate destruction of yourself in order to win an immediate point which might become another point tomorrow, or an opposite point.

The fact that these things now are getting around in the highest business and labor quarters, and also in even higher political quarters than I have suggested, indicates progress is being made of a great nature toward establishing realism necessary to good government here and peace here and abroad. When the methods and tactics become generally known, they can be easily destroyed, and I think lack of understanding has been one of the prime deterrents to our progress in recent years.

Progress Made On M.B. Plan

Progress was reported from the Washington end today in the effort to make an educational center at the Klamath Falls Marine Barracks.

Federal action toward turning the installation over to the state for this purpose has been cleared to the naval affairs committee of the house, according to word received from Senator Guy Cordon by Capt. Lowell T. Coggeshall of the Barracks.

The committee will meet about May 1 and is expected to declare the Barracks surplus, so that the war assets corporation may have authority to conclude a deal with the state.

State board of higher education officials have suggested that either a five-year lease or a longer-term arrangement would be satisfactory.

Governor Earl Snell spoke vigorously in behalf of the Klamath project in an appearance before the Clatsop post of the American Legion at Astoria this week.

PORTLAND, April 25 (P)—Ole M. Lakness, 63, Portland, was fatally injured by a car as he crossed a suburban street early today. It was Portland's 17th traffic fatality this year.

SIDE GLANCES

"We're so glad our son is going to marry a teacher—George and his father never were very bright in school, and his children will probably give you plenty to do!"

Beauty Shop Group Elects Officers

PORTLAND, April 25 (P)—New president of the Oregon Association of Beauty Shop Owners and Operators which closed a three-day meeting here Tuesday, is Mrs. Lucille Kelly, Portland.

Among other officers: Dolores Kosen, Klamath Falls, first vice president; Roberta Lee, Eugene, district No. 2 representative; Velma Herman, Roseburg, No. 3; Ethel Borden, Klamath Falls, No. 4; Frances Shaw, Pendleton, No. 7.

Works Soothing Magic In ARTHRITIS PAINS

Need the Fastest Relief, Longest Heat Comfort that can be found—thousands of sufferers now turn to OINT-EASE—known for 40 years as JOINT-EASE—for greater relief because it contains not just one or two, but FOUR great pain-relieving medicines which bring ALL THEIR STRENGTH AT ONCE to relieve such misery. For free sample write OINT-EASE, 34-C St. Holliston, Maine.

Witch's Brew advertisement for Old English household helpers. Text: "Can't Compare With the Magic of Old English No-Rubbing Wax. No need for incantations! All you do is pour and spread. In 15 minutes your linoleum shines with a coating that seals out dirt, absorbs wear and makes it easier to keep clean. Get a wonder-working pint today." Price 39¢.

Death Claims Tule Rancher

TULELAKE, April 25—Louis Andersen, 67, long-time resident of Merrill and Tulelake, died Saturday at Riverside, Calif., where he had gone several months ago for his health. The remains will arrive tonight and final rites will be announced by the Earl Whitlock Funeral home.

Mr. Andersen suffered a stroke January 21 of this year and had been partially paralyzed since that time. He came to Merrill in 1929 from Washington and farmed in both the Merrill and Tulelake areas. With George Bratton of Klamath Falls, Mr. Andersen organized the Tulelake Machinery company, which the latter managed for one year.

A son, Louis Andersen Jr., died five years ago. The widow, Leah, survives as does one sister, Mrs. Milton Streck of Riverside, who left a few days ago for Ohio. Funeral services are pending her return. Mr. Andersen was a member of the Klamath Falls lodge, BPOE.

20-30 Club Hears Houston

John H. Houston, president-elect of the Klamath County chamber of commerce, spoke before members of the reactivated 20-30 club at the Tuesday night dinner meeting in the Willard hotel. Houston welcomed the

club back into civic activities of the city and outlined several projects which the club could adopt to advantage.

The club voted to sponsor the first Air Scout troop in Klamath Falls. A report was given on the 20-30 sponsored troop meet next Saturday. Election of officers will take place in May. Acting Chairman Stewart Patrick presided at the meeting. Corky Ellis of Malin presented several piano numbers.

The yearly Shrine benefit for crippled children show will hit the air this year, coming to listeners at 6:30 Saturday night over KFLW. Emceed by comedian Bob Hope, the all-star cast will include such notables as Dinah Shore, Spike Jones, Roy Rogers, and his horse Trigger, and Tom Harmon. Speech of the evening will be made by William B. Woodfield, imperial potentate of the Shrine. Benefits of the entire show will go to the drive to help crippled children.

Tomorrow is the last day of the Man on the Street contest, and some lucky patron will walk off with the watch offered as first prize for selecting a name for the show. Bob McCarl and his mike will be at Rickys come 12:15 to award the prize and interview the winner, so don't miss this show. Even the staff doesn't know yet who will be the winner.
