UN Deadlocked On Veto Issue

NEW YORK, May 6 (AP)—Trygvie Lie, secretary-general of the United Nations, said today that unless the security council eventually was able to agree on the vital veto question the issue might have to be tossed back to the 51 United Nations in the form of a charter amendment.

Lie, speaking at a press conference, confirmed reports that the security council's procedure experts were deadlocked on the veto question, which he said must have the unanimous agreement of the big five powers for settlement.

Lie also said:

No reports had yet been received from either Iran or Russia on the progress of Soviet troop withdrawal from Iran. Under terms of a Russian-Iranian agreement, the deadline for complete withdrawal is midnight tonight.

He had not yet received a request to place the Palestine question before the security council.

Replies had started to come in on the Spanish case in response to a request to the 51 United Nations for any evidence that the Franco regime was threatening world peace. He said he could not give any specific information on the replies.

County Roads Opening Up

The Lake o' the Woods road is now open, County Engineer Wally Hector said today, and the Dead Indian road on up to the Jackson county line is expected to be cleared by tomorrow. Road equipment is now working on that stretch.

Fishing season on Lake o' the Woods begins next Saturday and resort owners will have no trouble in getting to the lake for the weekend.

The Fish lake road, which is a forest service road, will not be opened by the county, Hector said, and the best way to get to Fish lake is from the Jackson county side.
