# Hodge Calms Korea Fears

SEOUL, May 9 (AP)—Lt. Gen. John R. Hodge, American occupation commander, today warned Koreans "against undue excitement over the temporary adjournment" of the U. S.-Russian trusteeship commission.

"Mud-slinging, personal attacks, demonstrations or derogatory remarks about any allied powers or their representatives can only operate to hurt the cause of Korean independence," Hodge said in a translated radio address.

Russian delegates to the stalled conference left today on two sections of a special train for their occupation zone, northern Korea. There was no indication when or if they might return to resume planning a unified, self-governed Korea.

# Local Area Will Feel Lewis Pinch

(Continued from Page One)

The roads are mostly coal burners. The SP's Ogden and Salt Lake City gateway will be embargoed from those cities eastward because the Union Pacific from there back burns coal.

To allow a shipment of goods not on the exempted list to be taken east of Chicago on a coal-burner, for example, the railroad will have to get a special permit from Washington by stating the number of cars, shipper, origin, route, destination and immediate need of the shipment.

Items on the exempted list can move on any railroad.

Washington Advice Awaited  
Freight authorities on both local railroads were waiting this afternoon for word from Washington telling them just what connecting roads can be dealt with.

The Great Northern is oil burning to St. Paul and can definitely handle through freight with the Burlington line from St. Paul to Chicago, from Laurel, Mont., and Omaha, Laurel and St. Louis, Laurel and Kansas City, and all intermediate points on those lines, and with the Western Pacific into California.

The post office also today declared an embargo on parcel post shipments weighing more than 11 pounds or having a combined length and girth measurement of 60 inches, with the same exceptions.

# Food Supplies Get New Slash

WASHINGTON, May 9 (AP)—A further cut in food supplies at home was announced today by the agriculture department as the government posted higher prices for grain to get more bread for famine areas abroad.

The department said civilian supplies of fats and vegetable oils—such as lard and margarine—will be cut 10 per cent during the April-June quarter from the amount available the first three months of the year.

The smaller allocation results, the department said, from a seasonal drop in production—particularly of lard—and heavy shipments of margarine and shortening during the first quarter to meet foreign relief needs.

However, the department calculated that civilians will get more lard and margarine this year than they consumed in the 1934-39 prewar period. But, there'll be less shortening and other edible oils.

# Servicemen Shine In College Work

CORVALLIS, May 9 (AP)—World War II veterans studied harder—or were smarter—than the average Oregon State college student last term.

The registrar's office reported today that the grade point average of the 2000 veterans was 2.56 (halfway between B and C) compared to 2.43 for men as a whole.

Even the vets, however, were outshone by the co-eds. The girls averaged 2.58.

# Moscow Paper Sees New War

MOSCOW, May 9 (AP)—An Izvestia editorial said today that "the menacing nightmare of a new war is looming" because of the activities of international reactionaries.

"Peoples of the world know from experience that the Soviet Union is the main obstacle in the war of the reactionary clique which is rearing up plans for a new war," the editorial in the official government newspaper asserted.

"That is why freedom loving people see in the Soviet Union the stronghold of their own security. They rely with confidence not only on the might but on the just character of the abiding principle and unchanging policy of the Soviet Union—the policy of equality and friendship between peoples."

The front pages of Izvestia, Pravda and other newspapers were devoted almost entirely to the commemoration of the victory over Germany a year ago. May 9 was celebrated throughout the Soviet Union as one of the major holidays.
