Girl Scouts Plan To Hold Bigger Camp

In completing plans for summer camp, the local Girl Scout organization sees a bigger and better camp at Camp Esther Applegate this summer.

Florence McConahey, local executive director, who will direct camp, states that facilities have been enlarged to accomodate 75 girls a week. Camp will be open July 28, and will operate for three one-week periods through August 18.

A trained staff is being assembled. Miss McConahey recently returned from Seattle where she took a two weeks camp directors' course. She has had several years experience in both day camping and established camping. The waterfront director will be a Red Cross water safety instructor who will attend the Red Cross aquatic school for latest information and techniques. There will be a registered nurse at camp, and trained experienced cooks will plan and prepare meals.

Campers will be divided into three groups according to age, school grade, and experience. Each group will plan its own program of hikes, cook-outs games, dramatics, crafts, swimming, archery, and camp fires, under the guidance of an adult leader.

Pottery Work Planned

A special project planned for this season will be clay modeling and pottery. The girls will make their own kiln in which to fire the pottery and other articles they make.

For older girls who stay two weeks, some special activities will be available. Red Cross life saving instruction is open to girls 12 years old and over who can pass the preliminary tests. Two-week campers in the oldest age group will be elegible for an overnight trip out of camp.

There are still several vacancies on the staff for women over 18 years old. On and after May 25 registration will be open to all girls 10 to 17 years old whether or not they are Girl Scouts. Thirty-three Scouts have already registered for one and two-week stays.

Strike Strands Trains In K. F.

(Continued from Page One)

is Southern Pacific southbound No. 19, slated for arrival at 6:30 p. m.

Barring a change in plans, the train will be brought into Klamath Falls where the crew completes its run. The train will be held in the yards here.

Passengers from No. 19 will be transferred to buses here, according to Lloyd Stitt, SP district agent. Pullman ticket holders have the privilege of using the sleeping accommodations on the train as long as they desire. They may also use the dining car facilities as long as the food lasts, although the stewards are members of one of the striking unions. This leaves dining car facilities as a question mark in the situation.

The buses will take the passengers to terminal points to the south.

Northbound train No. 16 which left Sacramento at 10 a. m. today and is due in here at 9:35 p. m., will probably tie-up at Dunsmuir, the end of the run for that crew. John Hoogendyk, traveling agent for the SP, left on northbound No. 20 this morning, to assist passengers on that train in event of tie-up.

Four Southern Pacific freights, and two Great Northern freights, were expected to be tied up here.

J. T. Rink, SP's contract corral man, made rapid preparations today to care for all stock in cars held up here. Stitt said that 33 cars of livestock are expected through the SP yards in the next 12 hours, and the problem is to get cars spotted at the chutes. He said there is plenty of feed.

Twelve cars of sheep were reported on their way from the north, bound for Willows, Calif.

Wholesale houses reported a moderate supply of food on hand in their Klamath Falls establishments. One local house reported five carloads of fresh stuff arrived yesterday.

Between 60 and 65 per cent of foodstuffs are brought into Klamath Falls by rail.

Two Badly Hurt In Fight Here

(Continued from Page One)

ently walked across the lawn and fell to the sidewalk.

A neighbor, Mrs. Rose Keesee, 9th and Oak, saw Ainsworth on the walk and called police, advising that there was a drunk across the street.

Klamath Valley hospital authorities, late this afternoon, said the condition of both men remained critical but of the two, Harris was the more seriously injured. Neither had regained consciousness.

Operator of the Avalon Rooms is Mrs. Georgia Fisher.

Portland Retailers Ask Daylight Saving

PORTLAND, May 23 (AP)—The Portland retail trade bureau called upon Oregon's congressional delegation today to introduce a bill establishing national daylight saving time from May 1 to August 31 beginning next year.

The bureau had backed a rejected proposal for daylight saving time in Portland.

Baseball Scores

DETROIT, May 23 (AP)—The New York Yankees tied a major league record by hitting three successive home runs in the fifth inning of today's game against the Detroit Tigers.

Joe DiMaggio slammed his ninth homer into the upper left field stand with a man on base, and Nick Etten followed with his sixth circuit clout into the upper right field seats. Both were off Virgil Trucks.

Second Baseman Joe Gordon, who had homered for three runs in the fourth inning, then connected off Hal White for New York's third successive four-bagger.

Altogether, New York lashed four Detroit pitchers for 10 hits and eight runs in the big inning.

KUHS Seniors Get Diplomas

Climaxing four years of high school work the 1946 graduating class of Klamath Union high school last night marched into Pelican court to receive diplomas.

In robes and mortar boards of royal blue, the 214 graduates opened commencement exercises with the processional, the Coronation march from "The Prophet" by Meyerbeer.

Stanley Woodruff, KUHS principal, welcomed the large audience and introduced Scott Reed, salutatorian, who spoke on "Once Upon a Time," stressing the need for every individual to have a "healthy skepticism" and a mind trained to think for itself.

Mary Griffiths, class valedictorian, chose for her topic, "One Hour of Sunshine," explaining that despite a world record of hate and selfishness, there is another side of faith and hope. "The world we hope for can't be built in a generation or two," she said, "with faith in our fellowman anything is possible."

Choir Sings

John O'Connor directed the combined choirs in three numbers, "Thanks to Thee, Oh Lord," by Handel, "Weary, My Heart with Thee Doth Plead," by di Lasso, and "Cherubin Song," by Bortnianisky.

The traditional faculty trophies, given each year to the graduating senior boy and girl outstanding in leadership, scholarship, character, and attitude, were presented by Arnold L. Gralapp, superintendent of schools to Sally Mueller and James Howard. The coveted awards have been given annually since 1931.

The annual Kiwanis award given for outstanding sportsmanship, leadership, and scholarship was presented to Bill Sari by L. Orth Sisemore, president of Kiwanis.

To Effie Botens went the Elualona chapter, Daughters of the American Revolution citizenship award, and to Jean Morrison went the DAR homemaker award. Sally Mueller received a $75 scholarship from the Klamath Falls chapter of the American Association of University Women.

Special Award

Mrs. Bernadine Noggle, senior class faculty adviser, presented other scholarships and special awards. Mary Griffiths, Sally Mueller and Dorothea Whiteline received state scholarships, and Alyce Wells will receive one of two competitive scholarships to the Whitman college conservatory of music, Walla Walla, Wash.

Department awards were given to students exceptional in each field of study. Receiving the certificates were Joan O'Neill, art; George Zupan, journalism; Shirley Conrady, commerce; Caryl Vanderwall, home economics; Ted Reeves, dramatics; Mary Griffiths, English; Scott Reed, foreign languages, mathematics, and speech; Solon Stone, physical science and the Bausch and Lomb science award; Rodney Murray, music; Dorothy Kirkpatrick, retail selling; William Hendricks, industrial arts; Bob Thompson, social science; and Dean Hagen, trades and industries.

Senior members of the honor society receiving their national torch pins were Mary Griffiths, Sally Mueller, Rodney Murray, Joan O'Neill, Scott Reed, Barbara Roskamp, Georgia Tockey, Dorothea Whiteline, Alyce Wells and George Zupan.

"Klamath Memories"

Nelson Reed, chairman of the board of education, presented diplomas. Following the singing of the traditional "Klamath Memories," the class marched from the court to the recessional, "Pomp and Circumstance" by Elgar, played by the high school orchestra under the direction of John Best.

An informal reception for the graduates and their parents was given in the girls' gymnasium by the Parents and Patrons club.

The total number of diplomas given was 306, but of that number, 214 represented completion of high school in the regular way, while the remainder were granted through military channels.

Gross hourly earnings of factory workers at the 1945 war peak were $1046.

Doctor Sued For Alleged Negligence

A damage suit filed with the circuit clerk today charges Dr. Wayne McAtee, Klamath Falls osteopath, with negligence in the treatment of eight-year-old Harley Ray Olsen's fractured leg last September.

The complaint, filed by Mr. and Mrs. H. L. Olsen, parents of the boy, asks for damages amounting to $6734.20 and costs, including $1734.20 assertedly spent by the Olsens for hospitalization and treatment for the boy, and $5000 special damages.

The Olsens charge that on September 8 of last year, Harley received a broken left leg and Dr. McAtee accepted him as a patient, but that the doctor was negligent in treating the injury and the broken ends of the bone were not set properly.

Dr. McAtee did not, the suit charges, use means available to determine if the setting was properly done, failed to give the boy proper attention after his leg was placed in a cast and that the cast was placed in such a manner that severe pressure sores and gangrene developed on the boy's body.

As a result, the complaint maintains, Harley was placed in a local hospital, specialists and surgeons were called in on the case and the boy underwent two major operations and mechanical devices were placed on his leg.

He also had to be taken to a Portland hospital, the suit reads.

The Olsens are represented by L. Orth Sisemore. They are already named as defendants in a lawsuit for payment of $100 allegedly borrowed from John Irwin, attorney, while the youngster was in Hillside hospital.

Bulger Killer Obeyed Orders

DACHAU, Germany, May 23 (AP)—George Fleps, identified as the SS private who fired the first shots in the Malmedy massacre of American prisoners of war, said in a statement today that he raised his pistol after "we received orders from up ahead to bump off the Americans."

In the document read to the seven-man court trying 74 former SS men and officers for wanton murder of unarmed American prisoners and Belgian civilians, Fleps asserted:

"I fired one shot at one of the Americans and saw him fall over. As far as I know, I fired the first shot into the field."

Then, Fleps said, machine-guns in the surrounding tanks of the column started spraying the Americans who had been herded into the field at the Malmedy crossroads during the early stages of the Battle of the Ardennes Bulge.

Throughout the reading of the document, Fleps, a Romanian, stared expressionless in front of him. He had been identified in court Tuesday by Virgil P. Lary of Winchester, Ky., former first lieutenant who escaped from the field from which 71 bodies were recovered a month later.

Sgt. Hans Siptrott, another of the accused, said he was in the tank with Fleps and saw that Fleps was eager to shoot. He said he gave the order to Fleps because he had been ordered by his company commander before the start of the offensive to shoot prisoners.

Door Left Open For Auto Hikes

WASHINGTON, May 23 (AP) OPA, slapping four to eight per cent price hikes on top of previous increases for new automobiles, kept the door open today for a possible further boost.

At the same time chances virtually disappeared for any OPA-ordered cut in ceiling prices when the industry achieves full scale production.

A high OPA official who asked to remain anonymous said the agency "does not plan to try to reduce prices" after cars begin to roll from assembly lines at the pre-war rate. Manufacturing costs usually decline as production goes up.

The official asserted that car makers "have had a pretty tough time of it" and that a price cut by OPA would be out of the question."

But he added there could be another increase. Three already have been piled on 1942 auto prices.

Present ceilings will stand, the official said, until the industry has been operating at the 1941 production rate for three months. It may take some time to hit that stride. The civilian production administration reported last week that, due mainly to strikes, only 433,766 passenger cars were produced in the 10 months through April. It said this was just about a normal pre-war figure for one month.

La Grande Proposes Tax On Water Use

LA GRANDE, May 23 (AP) — A proposed 25-cent levy against each water user here to build additional sewers held endorsement of the chamber of commerce, city planning commission and a businessmen's group today.

The sewers are needed for surplus water during storms and in the snow-melting season. The levy would raise about $8200 annually.

Lane County Denies 2 School Combines

EUGENE, May 23 (AP)—Only one of three school consolidation elections in Lane county this week passed, the county school superintendent reported today.

Lower Fern Ridge, Meadowview and Harpole districts approved a merger with Junction City. Oak Grove rejected the consolidation.

Marcola turned down a merger with the Wendling grade school district, and none of the four districts involved in a proposed consolidation with Pleasant Hill approved it.

Police Arrest Drunk Driver

Maurice L. Johnson, 60, 412 Main, posted $100 bail on a charge of driving while under the influence of intoxicating liquor after he was arrested by city police last night. The driving took place on Conger, arresting officers reported.

Ben Dillenburg, Empire hotel posted $5 for running a stop sign at 11th and Klamath, and Leonard M. Quam, 933 Gobi, put up $5 for running a red light at 9th and Main.

Six drunks, six persons charged with being drunk and disorderly and two Indians charged with possesion of liquor appeared in municipal court this morning, and four drunks and one drunk and disorderly bailed out. Four parking tickets were paid.

Police are now issuing warrants for persons who do not voluntarily come in to the station after receiving traffic tickets and are making arrests of persons who let their dogs run loose.

Man Confesses 'Peep Hole' Kill

LIVERPOOL, Eng., May 23 (AP) — Police today charged Thomas Hendren, slender 31-year-old ship's baker, with the "peep hole" slaying of Ella Staunton, red-haired manicurist and former dance contest winner.

Arraigned in magistrate's court, Hendren said: "I did it, I did it. I will say nothing."

He was dapperly dressed in a double-breasted brown coat and grey flannel trousers.

Police Superintendent T. A. Smith said Hendren had given a signed statement regarding the death of Mrs. Staunton, but no details were made public.

Police said the baker, found sleeping in a park, had been sought since Monday, when the stabbed and strangled body of attractive Mrs. Staunton, 30, was found in the manicure salon she operated here.

Two detectives, sent by Liverpool authorities to investigate the use being made of the premises, were peering through a peep hole in the ceiling when the woman was slain. They said that after a male client and Mrs. Staunton moved momentarily out of range of the peep hole they heard a scream and rushed downstairs to find the woman dead and the man gone.

Congressman Tells Of New Navy Weapon

WASHINGTON, May 23 (AP) Rep. Albert Thomas (D-Tex.) told the house today that the United States navy has developed a weapon "far more deadly than the atomic bomb."

Thomas did not say what the weapon was nor would he elaborate to reporters other than to indicate it was a development of the bureau of medicine and surgery. His statement to the house:

"We have something far more deadly than the atomic bomb today—not tomorrow, and furthermore it's in usable shape."

Asked by reporters if the new weapon was in the nature of a death ray, Thomas declined to answer.

"I guess I've said too much already," he said.

AWOL Soldier Killed In Escape Attempt

SPOKANE, May 23 (AP)—PFC. Robert E. Lee, whose wife's address was listed as New York City, was fatally shot yesterday by a guard when he attempted to escape from Geiger field prison, the provost marshal said.

The officer said Lee disregarded a warning shot and continued to run after climbing over two wire fences. He was arrested in civilian clothing in Coeur d'Alene, Idaho, the officer said, and was to be taken to Fort Lewis, Wash., where army authorities said he was AWOL.

War Veterans Man Seattle OPA Panel

SEATTLE, May 23 (AP)—A price panel of six veterans of the second World war, believed by OPA officials to be the first in the nation, was set up here today to handle price complaints of fellow veterans. Edward M. Joyce, district veterans relations adviser, also announced that at least one war veteran has been named to every price panel in the area and 150 veterans are serving, without pay, as advisers.

2 In Hospital After Wreck

Webster E. Thornton, 34, of 514 S. 7th, was arrested by city police on a charge of driving while under the influence of intoxicating liquor last night after an automobile accident which sent two young men to Hillside hospital for treatment of injuries.

This morning Thornton paid a $100 fine in municipal court.

James E. Herbert, 19, of 910 Hanks, was treated for chest injuries and a gash on his knee, and Orlie Norton, same address, was treated for a forehead cut.

The accident occurred on Main near Broad at 8:20 last night. Herbert, son of Police Officer Sid Herbert, was driving west on Main and Morton was a passenger in the car. Thornton was driving east on Main, the police report said.

Just past Broad Thornton apparently intended to go into a parking place on the right hand side of the street, and pulled out into the driving lane just beyond the empty parking spot.

Herbert at the same time was making a left turn into a service station on the same side of the street and the two cars crashed headon. A wrecker from Balsiger Motor company towed Herbert's car to the police station after the men were taken to the hospital, and brought Thornton's 1936 Ford, extensively damaged to the garage.

Examined at the police station last night, Thornton was reported by officers as having admitted drinking beer in several Main street taverns before the accident.
