

DAR Cheers Retention Of 'White Artist' Ruling

ATLANTIC CITY, N. J., May 23 (AP)—The Daughters of the American Revolution clapped hands and cheered today when Mrs. E. C. Denny Vann of Lenox, N. J., announced withdrawal of a resolution calling for deletion of a "white artists only" clause in Constitution Hall rental contracts.

Hundreds of the 2000 delegates to the DAR's 55th continental congress hissed Mrs. Vann when she rose. The delegates by voice vote refused at first to allow Mrs. Vann to speak on the resolution which was reported out as unfavorable by the 74-woman resolutions committee.

Mrs. Julius Y. Talmadge, of Athens, Ga., president general of the DAR, and Mrs. Vinton E. Sisson of Chicago, a delegate, suggested that in the interest of the society the congress permit Mrs. Vann to speak. In a second voice vote Mrs. Vann was given permission.

She said that in view of the appointment of a special committee to study the rental contracts, her Polly Wyckoff chapter of northern New Jersey had decided to withdraw the resolution.

Mrs. Talmadge sent a telegram to Rep. Clare Boothe Luce (R-Conn.) head of a 17-woman committee seeking deletion of the "white artists only" clause, saying the DAR would enforce dissolution of that committee.

Mrs. Luce, in a telegram to Mrs. Talmadge released last night in New York, said the committee would not be dissolved.

Mrs. Grace L. H. Brosseau of Greenwich, Conn., national chairman of the resolutions committee, said her group voted unanimously against the Wyckoff chapter resolution.

The American petroleum industry was born in 1859, when crude oil was pumped from the first well ever drilled for the sole purpose of producing petroleum.

The usual admonitions, "No guns, no dogs, no women," have been augmented by one other, "no airplanes, beyond the Lakeview airport." However, Antelopes wishing to come by plane are urged to take advantage of the excellent port facilities at Lakeview. Transportation the rest of the way will be provided.

Plans are being made for a radio broadcast from atop Hart mountain's 3000 feet, and a strong likelihood exists that movies and magazine "stills" also will materialize. Further highlights are to be announced shortly.
