

Shrine President Urges Klamath Public To Help In Crippled Child Care

By GLEN B. INMAN, President Klamath Falls Shrine Club

The Shrine club of Klamath county is sponsoring its annual dance to raise funds for the Shrine Hospital for Crippled Children at Portland.

The public is asked to cooperate in this drive by direct contribution or by buying tickets to the Shrine dance to be held in the Klamath Falls armory June 1, 1946.

Today it is philanthropy (a large word, but meaning simply "love of mankind"). What a warm and kindly feeling one receives after contributing to such a worthy cause as helping crippled children to receive the best of medical care that they may grow strong and well, and take their rightful place in society!

Down through the years come kindly figures who have devoted their lives and money, marking milestones in the progress of the age-old work of helping others and working toward the ideal of a world of healthy and happy children, that they may live more hopefully and joyously. Yes, and face life more courageously and helpfully.

The meaning of "an equal chance in life" becomes a glorious reality to the underprivileged boy or girl when leaving a Shrine hospital. No longer do the children have a restricted outlook on life. There is a new heritage of opportunity.

Do your "golden deed" today by sending your contribution to Sanford Selby, 850 Eldorado, Klamath Falls.

Portland Labor Opposes Curbs

PORTLAND, Ore., May 29 (AP)—The CIO and AFL labor councils here have denounced strike control legislation proposed by President Truman while Stanley Earl, state CIO executive secretary, declared he was changing his political party affiliation.

Earl declared yesterday he was "conscientiously unable to belong to the same political party as Truman" after being a democrat for 14 years.

Members of the CIO Portland industrial union council, representing 21 affiliated unions, last night declared the laws asked would "set labor back 50 years."

Earlier the AFL central labor council here congratulated Senator Morse (R-Ore.) on his opposition to the proposals. Council Secretary Gust Anderson urged that the senate consider the legislation "calmly and without hysteria."

Four-H News

The "Feed the Hungry" home garden club of Henley held its regular meeting Sunday, May 19, at the home of Cecil Enman. After a short business meeting the club spent some time singing. Edgar Hoffman, local leader, discussed the use of DDT for the control of aphids on peas. It should be applied when the peas are in bloom, he said.

One visitor, Donna Dixon, was present at the club meeting. The next regular meeting of the club will be at the home of Henry Williams, June 2, at 2 p. m.

The Henley Sheep club, led by I. W. White, met Sunday afternoon, May 19, at the home of Cecil Enman. After a business meeting, songs, yells and two reports were given by club members. Betty Brandtjesky reported on "Preparing Wool for Market," and Dale Williams gave a report on "Castrating and Docking Lambs."

Following the club meeting, Mrs. Enman served refreshments to the club members.

The next meeting will be held June 2, at Earl Mack's home.

The Henley Sheep club baseball team edged out the Henley Garden team by a score of 26 to 24. The evenly matched teams were tied four times during the ball game.

CPA Makes Cut In Non-Housing

PORTLAND, May 29 (AP)—Oregon's non-housing construction plans must be pared to two-thirds of the dollar volume authorized during the two weeks ending May 23, the Oregon CPA office announced today.

Nelson English, state director of the civilian production administration, said a new order effective for 45 days was designed to restore a balance between available materials and work now under way.

He said a new code of appraisal of building applications would govern the state review committee. Projects vital to public health and safety would have first priority after housing. The others would be considered in their relation to need for boosting food production and preservation, community facilities, veterans' educational facilities and non-deferrable repairs.

State Guard Moves To Camp At Clatsop
PORTLAND, May 29 (AP)—A three-day training problem will take Multnomah and Clackamas county troops of the Oregon state guard to Camp Clatsop Friday.

Three battalions will make the motorized march from here.

Utility Bids For Eastern Oregon

The California Pacific Utilities company, which operates a branch office at 1011 Main, Klamath Falls, today outlined a second proposal for purchase of Eastern Oregon Light and Power company properties. The total purchase price would be \$2,283,515, of which the balance would be financed by a six months' loan and by cash on hand.

In an application to the California railroad commission, it asked authorization to exceed its debt ceiling temporarily, by assuming \$1,800,000 of Eastern Oregon bonds.

AFL Ignores 'Hot' Log Label

VANCOUVER, B. C., May 29 (AP)—AFL unionists at Powell River, B. C., Pulp and Paper mill will disregard CIO-International Woodworkers of America picket lines placed on log booms at the plant.

The IWA claim that the booms are "hot" was challenged today by John Sherman, of Tacoma, Wash., international fifth vice president of the International Brotherhood of Pulp, Sulphite and Paper Mill Workers, representing employees at the mill.

The AFL decision means that the Powell river mill, which supplies many western United States newspapers with newsprint, will continue to function as long as lumber already cut lasts.

"Our position in this matter is and will be that any logs in the water or ready for shipment prior to the time the strike started are fair and hot. Our members have been instructed to disregard the picket lines," Mr. Sherman said.

The IWA, which represents 35,000 striking British Columbia loggers, had labelled all logs in the province hot and said they were not to be handled as unfair to the strike.

Pickets were placed on the booms at the company's mill pond in Powell river late today. Immediately, officials of the AFL union there posted a sign advising their members to work, at least through the night, and calling the picket "unauthorized."

Women Voters Urge Food Ration Urgo

EUGENE, Ore., May 29 (AP)—A return to food rationing was urged here by the Oregon League of Women Voters in a resolution approved in the final day of the league's convention.

The action followed an address by Miss Anna Lord Strauss, president of the League of Women Voters of America, who told the delegates yesterday that food shortages in famine stricken areas would continue for two years.

The league notified the state's congressional delegation that it favored support of any move to ration food.

4-H School At Corvallis

The 4-H club summer school is to be held June 18 to 28 inclusive, at Oregon State college at Corvallis. Forty 4-H club members will leave Klamath Falls the morning of June 18 and will return the evening of June 28, according to Francis Skinner, county club agent.

Local leaders are preparing lists of their club members who desire to attend summer school. From these lists the county delegation will be selected.

This year, on account of the increased cost of food and labor, it has been necessary to increase the fee for scholarships to \$16.

4-H club summer school is the outstanding 4-H club activity of the year that enables club members from all over the state to gather for additional instruction in subjects relating to their club projects. The 4-H summer school differs from practically every other camp for boys and girls in that it is organized for instruction in agriculture and home economics, besides affording opportunity for recreation and organized play.

The 4-H club summer school assembles boys and girls from all over the state into a common group, so organized that they profit by their association with one another, learning better methods in agriculture and home economics, and returning this valuable information and experience to other boys and girls in their communities who are unable to attend.

Klamath Man Gets Letter From King

Gust P. Vourchis, 832 Oak, has received an answer to a letter of good wishes he sent to the king of Greece, now living in London, two months ago. The answer, from the private secretary to his majesty, the king of the Hellenes, written from Claridge's hotel, London, says:

"The private secretary is desirous by his majesty to acknowledge receipt of Mr. Vourchis' letter of March 21st and to thank him for the good wishes he has been kind enough to send."

MERCY FLIGHT
TILLAMOOK, May 29 (AP)—Anti-tetanus serum was flown by navy plane from Portland yesterday for J. H. Krostag, Tillamook, whose conditions was reported serious. Tetanus developed after a hand injury.

Flashes Of Life

OUT GUNNED
BRAZIL, Ind., May 29 (AP)—The Brazil American Legion post should have included the dimensions of its lawn when it asked the war department for a souvenir weapon.

The souvenir arrived—an anti-aircraft gun, 22 feet long and 5000 pounds heavy. The Legion's lawn isn't that big. Post officials have asked the city park board to mount it in a park.

PHILADELPHIA, May 29 (AP)—The county of Philadelphia spent \$7000 to prepare and mail ballots for the recent Pennsylvania state primary to its servicemen.

Only 114 military ballots were cast—which means that each vote cost \$61.05.

TURN ABOUT
PORTLAND, Ore., May 29 (AP)—Carl A. Peterson was fed up with the way traffic officers gave him parking tickets—so he did something about it.

Peterson mailed City Auditor W. E. Gibson a bill for \$6.30 to pay repairs on his windshield wiper, which Peterson explained had been broken three times by patrolmen attaching the tickets.

MONEY GROWING ON TREES
CHILLICOTHE, Mo., May 29 (AP)—A tornado that struck Elmer Runge's house near here last week took his pocketbook, but left him some "change." Runge found a \$5 bill stuck on a tree in his front yard.

Army And Navy Give Big Lumber Orders

PORTLAND, Ore., May 29 (AP)—The army and navy have placed priority orders for 90,000,000 board feet of lumber with northwest pine and fir mills, R. L. Hennessy, army-navy purchasing agent reported today.

He said the orders represented about 3 per cent of the industry's output over a 10-week period and were parceled out to about 700 mills.

About 70 per cent is for one-inch sizes and 30 per cent two-inch boards or larger, he reported.

Fall Remedy For Deaf-Mute

SEATTLE, May 29 (AP)—Claude Berger, a deaf-mute for 62 of his 65 years, could talk today and could hear the sound of his own voice—and to a man who had "prayed and prayed and prayed for this" it was nothing short of a "miracle."

Berger took a tumble yesterday while at work in the army service forces depot. He said later he "just let out a yell" of fright and when a supervisor ran over to ask if he was all right, Berger said "I feel fine."

Capt. Rosario Sacco, surgeon at the army forces depot, said there was no doubt about Berger's former muteness. He suggested a childhood shock probably caused the defect, disagreeing with Berger's report that scarlet fever had robbed him of speech and hearing. The shock of the fall, the surgeon said, undoubtedly caused the restoration.

"I've always been able to hear loud noises," Berger said, "but I couldn't speak a word. I learned to form words by talking to myself."

"I've been a lonely man."

Log Roads Held Back By Equipment Delays

PORTLAND, May 29 (AP)—Delay in release of surplus road equipment to northwest loggers has hampered road building into logging areas and will result in shortage of logs next fall and winter, the West Coast Lumbermen's association reported today.

"While acres of tractors, power shovels and hoists are rusting in government storage lots in the west," the association declared, lumbermen have been unable to get delivery on equipment for which they hold certificates of purchase.

The report explained that loggers must build the roads into the logging tracts in spring and

summer months to build up log inventories at mills before heavy snows in the mountains close the camps.
