

Senate Committee OK's Tulelake Land Transfer To Reclamation Bureau

WASHINGTON, June 5 (AP)—Transfer of war relocation centers at Heart Mountain, Wyo., Hunt, Idaho, and Tulelake Calif., to the reclamation bureau was approved today by the senate military committee.

At the outset of the war, the reclamation bureau turned over to the war relocation authority a total of 57,000 acres of land on the Shoshone project in Wyoming, the Mindoka project in Idaho and the Klamath project in California for the centers.

Besides return of these lands, the bureau would receive under the bill another 1738 acres of land acquired by the WRA, along with 2708 buildings at the three centers which originally cost \$20,000,000.

As soon as the camp buildings are transferred to the bureau, the project lands can be opened for settlement by war veterans, the committee stated. Some of the lands are expected to be opened this year.

Buildings not assigned to farm units would be used to house reclamation bureau employees on construction projects.

The three relocation centers have been vacated and declared surplus.

The Tulelake WRA center is currently held by the reclamation service in custody for the general land office.

E. L. Stephens, reclamation bureau superintendent here, said that if the legislation passes in Washington, the bureau will get in its own right the center it is holding in trust.

Stephens said that the FHA has established claim to 31 buildings from the administrative center at Tulelake but has not moved any of them. Latest report is they may be moved to the University of California campus at Berkeley.

The scholarship is awarded by the University of Oregon Mothers' club. Approximately eight scholarships were given this year to outstanding girl graduates in Oregon high schools.

Miss Griffiths was one of the three students in the state to receive the \$200 award. A smaller scholarship, for \$100, is also given by the club.

These awards are given annually by the group. Mrs. George Stevenson is head of the local chapter.

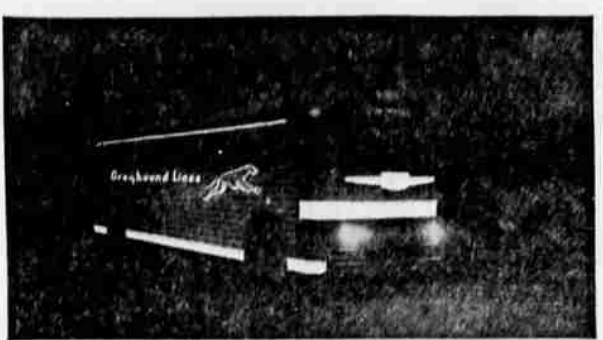

WASHINGTON, June 5 (AP)—James J. Regan Jr., a Philadelphia lawyer, has filed a taxpayer's suit seeking to block the use of naval vessels in the Bikini atom bomb tests, scheduled for about July 1.

Regan, in action filed in district court, contends the destruction of navy ships is prohibited by law. Defendants include Secretary of Navy Forrestal, Admiral Chester W. Nimitz, Gen. Dwight D. Eisenhower, Gen. Carl Spaatz, and Vice Admiral W. H. P. Blandy.

BAKER, Ore., June 5 (AP)—A charge in Oregon's primary election system which would permit electors to nominate from a single ballot was urged here by State Master Morton Tompkins at opening sessions of the state grange convention.

Tompkins told the 225 delegates the system already in use in other states would allow selection of nominees regardless of party affiliation.

He reported grange membership in the state was 29,536, largest in grange history and 47 per cent above four years ago. The convention closes Friday.

Outlines of Greyhound buses will soon glow at night from the reflected lights of other cars. For added safety the company will trim the buses with a war developed plastic film containing thousands of microscopic glass lenses per square inch. The Greyhound dog and designs on both sides, front and rear, are covered with this material. Appearance of the bus remains unchanged during daylight.

Multiple Bovine Births Seem To Run In Cycles

Always on the lookout for something just a trifle out of the ordinary, newspapers of this country for years have devoted considerable space to multiple births in the bovine world, which, according to statistics, occur only once in a good round number of attempts.

Following that line of reasoning, The Herald and News a couple of weeks ago ran a picture of twin heifer calves recently born to a Holstein owned by Pete Colley, 5526 Avalon.

Then yesterday there came in the mail a card from Henry Hanson, route 1, giving the news that he has a 5-year-old Jersey which has given birth to twins not once but twice. One pair of heifer calves was brought into the world in October, 1944,

and the other, twin bulls, appeared last December.

But just before Mr. Hanson's card was received, the good old Associated Press wirephoto service came up with quadruplets, four calves produced by a Hereford somewhere in Ohio, and that was dutifully listed as a phenomenon and the picture printed in The Herald and News.

Looks like these things run in cycles.

UNEXPECTED POPULARITY. MONTROSE, Colo., June 5 (AP)—House-hunting World War II veterans here are trying to get into the poorhouse.

The county farm and poorhouse, long unused, was sold yesterday for \$10,000, and the new owners plan to use it for veterans' housing.

Heart Attack Kills Visitor

Tragedy struck at a dinner party last Sunday when Mrs. Ray Derrah of Marquette, Mich., suffered a heart attack and died a short time later.

Mr. and Mrs. Ray Derrah had arrived recently for a visit with his sister and family, Mr. and Mrs. William A. Bishop, 429 N. 9th, who were entertaining with a family dinner, Sunday. Others present were Mr. and Mrs. Frank Derrah, 1343 Crescent, and Mr. and Mrs. Lawrence Derrah, 1327 Sargent.

Mrs. Derrah had been subject to slight heart attacks, but seemed to be feeling fine Sunday. She had just helped with the dishes when she suffered the attack. They had planned to leave this week, driving home by way of Seattle.

Ray Derrah and Mary Bishop, his niece, will accompany the remains to Menominee, Mich., for burial. Services will be held Saturday from St. John's church, Derrah, superintendent of the Pickwick Lumber Co., Marquette, plans to return to make his home in Klamath Falls.

Strike May Sock Sockeye Salmon

VAN COUVER, B. C., June 5 (AP)—British Columbia sockeye salmon fishing, due to start June 30, may be paralyzed by a union tieup, President William Bigsby of the United Fishermen and Allied Workers union said last night.

Unless negotiations now being conducted with salmon cannery operators result in a satisfactory agreement by June 22, Bigsby said, tendermen will be called to a mass meeting which will remain in session until agreement is reached.

Union fishermen have rejected operators' offers of half a cent increase per pound for red salmon and an eighth of a cent increase for pinks and chums.

Autoist Fined In Tulelake

TULELAKE, June 5—Eugene Taylor, route 1, box 641, Klamath Falls, has pleaded guilty to a charge of reckless driving here.

The charge was filed in Justice E. L. Booth's court by State Officer H. C. Wilson, as the

aftermath of an accident on May 20. The Taylor car on that date was involved in a collision with a car belonging to Clarence Schott, at the intersection of state highway 39 and the state line road.

Mrs. Schott, a passenger in the Schott car, sustained a severe chest injury and was badly shaken up. She was in Hillside hospital at Klamath Falls for a while, but returned home May 30 and is able to be around.

Scholarship For KF Girl

An additional award, arriving too late to be included in the presentation of scholarships and fellowships at the Klamath Union high school commencement exercises held May 22, was given last week to Mary Elaine Griffiths, valedictorian of the 1946 senior class and daughter of Mr. and Mrs. Charles Griffiths, 3950 Shasta Way. The award, the Burt Brown Barker \$200 scholarship to the University of Oregon, was announced to Miss Griffiths by mail.

The scholarship is awarded by the University of Oregon Mothers' club. Approximately eight scholarships were given this year to outstanding girl graduates in Oregon high schools.

Miss Griffiths was one of the three students in the state to receive the \$200 award. A smaller scholarship, for \$100, is also given by the club.

These awards are given annually by the group. Mrs. George Stevenson is head of the local chapter.

WASHINGTON, June 5 (AP)—James J. Regan Jr., a Philadelphia lawyer, has filed a taxpayer's suit seeking to block the use of naval vessels in the Bikini atom bomb tests, scheduled for about July 1.

Regan, in action filed in district court, contends the destruction of navy ships is prohibited by law. Defendants include Secretary of Navy Forrestal, Admiral Chester W. Nimitz, Gen. Dwight D. Eisenhower, Gen. Carl Spaatz, and Vice Admiral W. H. P. Blandy.

BAKER, Ore., June 5 (AP)—A charge in Oregon's primary election system which would permit electors to nominate from a single ballot was urged here by State Master Morton Tompkins at opening sessions of the state grange convention.

Tompkins told the 225 delegates the system already in use in other states would allow selection of nominees regardless of party affiliation.

He reported grange membership in the state was 29,536, largest in grange history and 47 per cent above four years ago. The convention closes Friday.

'Top-Secret' Plant Offered For Lease

SEATTLE, June 5 (AP)—A "top-secret" wartime Seattle plant which produced charcoal for gas masks has been offered on lease to the highest bidder by the Seattle district U. S. army engineers.

The 15-acre factory, which operated on a round-the-clock basis during the war, produced activated and impregnated charcoal which went into 75 per cent of all gas masks issued to American fighting men, the engineer's report said.

The plant has been declared "inactive" rather than surplus. Invitations to bid on the lease have been mailed to chemical, wood products and mining concerns throughout the country and bids will be opened August 30, the report added.
