

Christian Scientists Slate Talk

On Monday, June 17, at 8:15 a. m., Herschel P. Nunn, C.S.B., of Portland will give a free lecture on Christian Science entitled "Christian Science and the Business of Living."

He will lecture in the auditorium of Fremont school. The public is invited.

The Christian Science board of directors recently announced appointment of Luther Phillips Cudworth of Boston as president of the First Church of Christ, Scientist, in Boston. Cudworth has served on the committee of publication for the state of Oregon. He is well known in this state and is a former resident of Portland.

At the annual meeting of the board of directors affirmed that representatives of all social and religious systems must give something more convincing than promises to sustain the faith of their fellows and to provide for a lasting peace.

The group felt that responsible government heads must realize that the measure of a nation's greatness is the spiritual stature of its people and agreed that the church will continue to help in answering the basic national need for spiritual guidance.

Christ Church To Celebrate

In honor of the birthday of the Church of Christ, on the day of Pentecost, A.D. 30, the First Christian church will present a special program on next Sunday, June 9. Sermon by the pastor will be "Can Pentecost Be Produced Today?"

The choir will sing "Thy Word is a Garden," directed by Mrs. Helen Moreland, with Mrs. Patricia Hunt at the organ.

Bible school begins at 9:45 promptly, with classes for all ages. Evening service with special emphasis begins at 7:45. The midweek session is on Wednesday at 7:45 p. m. Daily vacation Bible school begins on Monday, June 10, at 9 sharp. Klamath temple will cooperate in the school. Parents are invited to send their children to the vacation church school.

Mathews Back From Conclave

Rev. Godfrey Mathews of the Community Congregational church has been in attendance this week at the 98th annual conference of the Congregational churches of Oregon at Forest Grove. He will speak to his congregation on Sunday morning at 11 o'clock on "Good News for Evil Days."

The Congregational churches throughout the country are going ahead with their missionary work at home and abroad, and hope to be able to add greater effort to the postwar emergency program for the remainder of this year.

SOCE Hears Groesbeck

R. C. Groesbeck and Arnold Gralapp of Klamath Falls went to Ashland yesterday to attend the graduation exercises of Southern Oregon College of Education.

Groesbeck represented the state board of higher education at the commencement, and spoke briefly both at the exercises and at a Rotary club meeting at noon.

Dr. U. G. Dubach, professor of political science at Oregon State college, delivered the principal address.

Navy Plans To Build Housing At Astoria

ASTORIA, Ore., June 7 (AP)—A \$4,300,000 navy appropriation will finance construction of 375 houses here for 19th fleet group personnel, naval station officials said today.

The project, planned for those stationed at the Tongue Point berthing site, probably will be started in two months—as soon as plans can be prepared and the contract let.

The money will cover building of permanent residences for 250 married enlisted men and 125 married officers, purchase of land, and installation of streets, walks and utilities. It will not provide for all of the 3000 navy men to be stationed here permanently with the inactive fleet.

Paul Lee Presides At Toastmasters

At a meeting of the Toastmasters club held Wednesday evening, June 5, Vice President Paul Lee presided. Joe Sickle of Dunsmuir acted as toastmaster with Vincent Clapp as topic master and George Kunzman as grammarian.

The speakers of the evening were Frank Weaver, George Kunzman, Paul Lee, Lyle Glenn, and Garry Robertson. They were criticized by Dale Throckmorton, critic master of the evening, who stressed development of voice control for effective speaking.

Missionary To Give Talk

Jean Buchan, home on furlough from the India mission field, will speak Saturday evening at 8 p. m. at the Bible Baptist church.

Miss Buchan, who is affiliated with the Worldwide Evangelization Crusade, lost a limb shortly after her arrival on the mission field but stayed on to serve her full term of five years. Now after a year's furlough she is awaiting passage to again return to the field of her choice.

The public is invited.

Strike Forces Auto Purchase

Rev. Charles Sundstrom, pastor of the Immanuel Baptist church, and Rev. Keith P. Fields, pastor of the Bible Baptist church, were in their respective pulpits last Sunday morning after a two-week absence, while attending the northern Baptist convention in Grand Rapids, Mich. Both pastors were delegates to the convention as representatives from their congregations.

The trip east was made by train; however, the return trip was not so simple. Due to the rail strike a car was purchased in Minnesota and they drove back.

Highlight of the convention was the fundamentalist fellowship meeting at the Mel Trotter Mission each evening after the regular convention session adjourned.

Both pastors reported on the convention to their congregations last Sunday evening.

College Head Will Preach

Dr. Morgan S. Odell, president of Lewis and Clark college in Portland, will speak at the First Presbyterian church, 6th and Pine, during the morning worship service on Sunday.

Dr. Odell came to Lewis and Clark college in 1941 from Occidental college in Los Angeles, where he was professor of religion. Before that, after serving in the ambulance corps in Italy during World War I, he was ordained as a minister in the Methodist church. He received his doctor of philosophy degree from the University of Chicago.

He has spoken on several previous occasions to various groups in Klamath Falls and is well known here.

Bible Baptist To Open Class

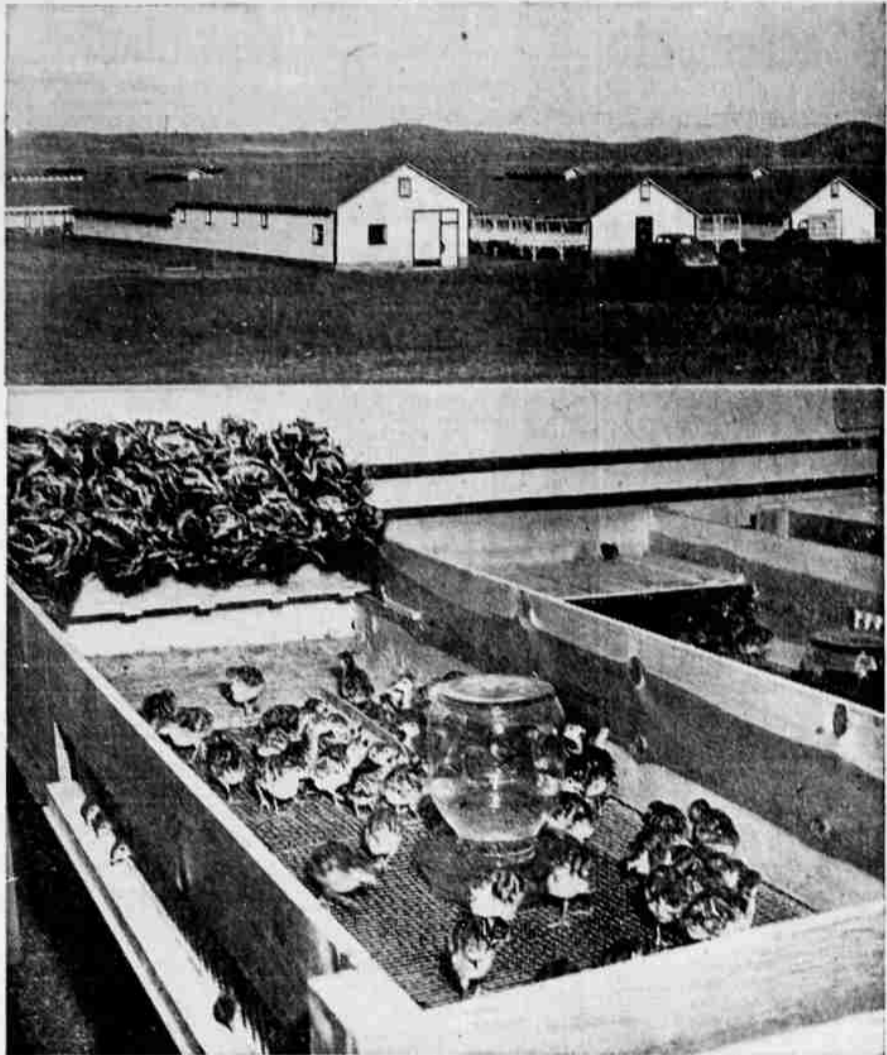

The Bible Baptist church announces the opening of its summer weekday Bible school beginning Monday morning at 9 a. m. Preregistration classes will be carried on both Friday and Saturday afternoons in the church building. Those registering early will receive extra points.

The school will be conducted again this year in the Shasta school building on Madison in south Klamath Falls.

A teaching staff has been secured, with three out-of-town teachers coming to help. Classes for all ages from four years on have been arranged for.

Welcome is extended to all the boys and girls of the south Klamath Falls district to attend this school. Parents are also invited to visit the school.

Scenes at Big Turkey Operation

Upper picture shows the general layout of the turkey operations on Coppeck bay in the Tulelake area. Below, poults in a brooder pen. The feather board is turned up at the back of the pen, but when turned over, with feathers down, makes a cozy snuggling place for the little turks.

Modoc Turkey Farm Raises Big Crop For Thanksgiving

By RUTH KING

TULELAKE, June 6 — Juicy white meat turkey breasts are in the making at the Modoc turkey farm at Coppeck bay which was built and is being operated by Clifford and Claude Shuck of Tulelake and Merrill. The problem of putting 15,000 yearling turkey poults to bed looks like a never ending task to the bystander but to Bruce Hagerman, manager of the big plant that went into operation this spring for the first time, it is all in the day's work.

Last October actual construction on the buildings got under way and today there are four ultra modern brooding houses, an incubator building, and hundreds of feet of wire enclosed, wire floored pens ready for the season.

The new business is registered as the Modoc Turkey Farm and the trade mark bears the figure of a feather Modoc Warrior and a bronze gobbler.

Hatch in 28 Days
Two thousand hens and 250 toms will be kept to insure plenty of eggs for next year's hatching eggs. The electrically operated automatic incubators will handle 40,000 eggs, which will hatch 28 days later, almost to the hour from the time they go into the trays. Eventual capacity of the plant will be 60,000 birds.

The site ideally located for the business is the former Williams ranch of 1400 acres. The natural gravel deposit of the area insures excellent drainage which minimizes disease. Mortality in the young birds this spring was less than 10 per cent. Oldest of the poults are ready for the range at 8 weeks and the youngest are about two weeks old.

Two thousand turks will be

cared for during the summer in 20 acre wire enclosed pens.

The day old turks, hatched at Albany, Oregon are first put under feather boards, imitation of a turkey mother. Fluffy masses of feathers are fastened to boards and the young poults hover beneath this makeshift.

Feeding Forced
They are raised on wire netting in the long concrete floored, hot water heated brooding houses. Water flows automatically to each pen and feed is before the birds at all times.

Dr. Rugh Gets Cessna Plane

Dr. C. V. Rugh, Klamath physician, today took delivery of a new Cessna two place plane from Cliff Hogue, marking the first postwar Cessna to be sold to an individual in the northwest. The plane was flown to Klamath Falls from Denver by Hogue, local salesman for the airship.

Dr. Rugh, who has just recently received his private license, is a veteran flyer of World War I. In getting his flying license he re-learned to fly after 26 years.

Rugh is one of the few members of the distinctive International Aero club of World War I days, and says that his membership helped him out in getting his license after so long a lapse in his flying.

The plane is a de luxe Cessna 140, a side by side two place plane in the small ships class.

New Aeronca Plane On Display Sunday

A new Aeronca Chief two place side by side de luxe sport plane will be on display and demonstration at the Shasta-Cascade office at the municipal airport Sunday. The public is invited to come out and see this ship.

Wilcoxon In Solo For First Time

P. B. Wilcoxon, local man, soloed for the first time this morning, following six hours of instruction from the Shasta-Cascade flying service. Wilcoxon is a former member of the AAF, where he served as a mechanic in England.

Thanksgiving and in preparation for that time of year, Shuck brothers plan construction of an ultra modern dressing plant. The seal method instead of the paraffin dip will probably be used and Hagerman states that 24 workers operating in a well equipped plant can process 1000 birds per hour.

Hagerman has been in the turkey business since 1929 and for six years managed the Crater Lake turkey farm owned by Dave and Dan Liskey north of Malin. More recently he has been in turkey growing areas on the coast.

Shuck brothers operate extensive farming interests in the Merrill and Tulelake communities and own and operate the

Washington Convict Flees From Custody

WALLA WALLA, June 7 (AP)—Decora F. Snyder, inmate of the state prison since October 1944 escaped yesterday afternoon while working on a construction project outside the walls.

State patrol officers as well as city and county police departments were cooperating in the search last night.

I. Q. tests of our so-called dumb animals show that chimpanzees are most intelligent, and hogs rate higher than horses.
