

Conciliators Offer Plan For Seamen

(Continued from Page One)

working hours, on a monthly average.

2. Ships could be operated with the same sized crews.

These disadvantages were cited:

1. Ship operators would be required to employ relief men to man ships while in port and, in some cases where ships make only brief stopovers at a port, to replace crewmen entitled to their paid shore leaves.

2. The additional men would increase operator's payroll costs.

The start of the deadline week also found Joe Curran's National Maritime union (CIO), pressing ahead in preparations for the June 15 walkout, with its national council planning another strategy meeting here during the day.

The outlook engendered no hearty optimism, and the navy methodically perfected its arrangements for operating vital merchant shipping if the threatened tie-up materializes.

Alturas Votes Approve Bonds

ALTURAS, June 8 (AP)—Alturas school district voters gave overwhelming approval yesterday to a bond issue for \$139,000 to be used in expanding physical facilities at the local elementary school.

The vote was 198 yes, 29 no.

Four rooms will be added to the school building to accommodate increases in enrollment resulting from population growth in Alturas.

Argentines Demand Conference Seats

SEATTLE, June 8 (AP)—Argentina's right to seat delegates in the international labor organization's maritime conference became an issue today when a three-man delegation from the South American country walked, unannounced, into a meeting of a workers' delegation committee at the state field artillery armory.

The Argentinians arrived here last night.

Charles Jarman, acting general secretary of the National Union of Seamen of the United Kingdom, elected yesterday as chairman of the current meetings workers' conference group, said the credentials of the Argentine delegation would be placed before the Maritime Workers' executive committee "the first thing Monday morning."

Civil War Threat Voiced In Greece

ATHENS, June 8 (AP)—The communist party declared in a formal statement today that implementations for the royalist government's decree imposing death penalties for actions against the state could lead "only to civil war."

In a similar statement, the leftist-dominated general confederation of labor called the decree "a revival of fascism" and added that "the government is unleashing an open fascist attack against the workers."

Oregon State Daly Club

LAKEVIEW (Special)—The Oregon State Daly club was host recently to Rep. B. K. Snyder and Ernest Fetsch. Blasts Hurt 11 In Egypt

ALEXANDRIA, Egypt, June 8 (AP)—Eleven persons, including four British soldiers and seven Egyptians, were injured in two explosions here last night, the date set for an anti-British general strike.

The soldiers were injured when a missile believed to have been a grenade was thrown into Mustapha Kamel barracks about midnight.

The Egyptians were hurt in the explosion of grenades found in a basket behind the British barracks at Ramleh.

Despite the strike call, which was issued by the Alexandria labor unions, the Moslem Brotherhood and the Wafist (Nationalist) youth in protest against the presence of British troops in Egypt, shops remained open and there was no immediate interruption of communications and transport services.

Police reserves and Egyptian army squads patrolled the streets of Alexandria and Cairo, and other unusual precautions were taken to maintain order.

Premier Ismail Sidky Pasha banned demonstrations, in a communique issued yesterday.

Uneasy Truce Grips Chinese

NANKING, June 8 (AP)—Government armies in Manchuria were reported to have halted today under an uneasy armistice, but in Mukden the government commander said he expected to complete the occupation of that civil war battleground after con- government and the communists.

Upon the truce, which went into effect yesterday noon, distressed China pinned her hopes for an ultimate end of the international conflict between the government and the communists.

At communist headquarters in Yenan, the communists hierarchy discussed problems which Generalissimo Chiang Kai-shek stipulated would have to be settled before the end of the truce period at noon June 22.

The assertion that he expected completion of the Manchurian occupation after the truce was made to a news conference at Mukden by Gen. Tu Li-ming, commander of government forces in Manchuria.

He said the government armies halted their advance 30 miles south of Harbin and the troops were ordered to remain at their stations in compliance with the cease fire order. (A dispatch from Peiping placed

the nationalists at a point 85 miles south of Harbin.)

Minor party leaders who late today will meet with General Marshall, U. S. envoy, said they would tell him that political as well as military questions should be settled during the truce. They represent the democratic league, the youth party and non-partisans.

Lo Lung-chi, spokesman for the democratic league, told The Associated Press "to separate the political from the military question is a risky business. We want to make these 15 days a success and if necessary prolong the (truce) period to make peace solid and permanent."

Union Musicians Reelect Petrillo

ST. PETERSBURG, Fla., June 8 (AP)—James C. Petrillo began another term as head of the American Federation of Musicians today as the union considered going into the broadcasting business for itself.

After reelecting Petrillo at the closing session of its convention yesterday, the AFM named a committee to study the advisability of the federation or its locals applying for frequency modulation broadcasting licenses and construction permits.

Should the committee favor such action, Petrillo was authorized to empower AFM officers to apply to the federal communications commission for licenses.

HERALD & NEWS, Klamath Falls, Ore. SATURDAY, June 8, 1946, Page Two

Italy for voluntary exile in Portugal.

An interior ministry spokesman said there was "a good probability" that official returns of the weekend plebiscite which ousted the House of Savoy might reach the supreme court in time for a proclamation tonight.
