

Auto Stolen From Hager

A new 1946 Ford coupe, gun metal in color and owned by Mrs. Paul Dalton of Hager, was stolen from Hager sometime after 11 o'clock last night. Mrs. Dalton reported to city and state police.

In the car were two tennis rackets and two pairs of shoes. The left window was shattered, there was a Crescent City sticker on the rear window and the gas tank was nearly empty, Mrs. Dalton said.

Joe Ernest Dallabona of Doris posted \$30 bail with city police yesterday for a violation of the basic rule after he was stopped for driving 58 miles an hour in a 25-mile zone on N. 11th. Louis Mandros, 912 Fulton, posted \$5 for running a stop sign at Upham and Prospect.

U. N. Weighs Soviet Plan on A-Bombs

(Continued from Page One)

bid use and production of atomic weapons, provide for their destruction three months after the convention is ratified, and require each signatory nation within six months after enactment to provide its own legislation prescribing severe punishment for violations.

Two Committees Proposed
It would set up two committees to handle exchange of scientific information for peaceful use and to provide international controls embracing "a system of sanctions for application against the unlawful use of atomic energy."

The primary difference between the American and Russian proposals is that Baruch offered to yield the atomic secrets and destroy the American bombs only after international control is assured, while Gromyko proposed a measure taking the control out of American hands by international convention.

Observers said that Russia's presentation of a "counter-plan" came as a surprise at this early stage of discussions. They believed it would greatly prolong the long-range preliminary for ultimate disposal of atomic energy as an instrument of warfare. The delegates are in recess until next Tuesday afternoon.

HUNTING REGULATIONS
PORTLAND, June 29 (AP)—Hunting regulations will be considered at the state game commission's July 13 meeting here, it was reported today.

Marked Trout Placed In South Twin Lake

PORTLAND, June 29 (AP)—Anglers at South Twin lake in Deschutes county, where the season opens June 29, will find trout minus the adipose fins.

The state game commission reported today that in its continuing study of the lake, 18,000 legal-sized trout had been placed in the lake this spring and marked for subsequent identification.

A biologist of the commission will be on the lake throughout the season checking creels.

Death Of Hays Told In Error

LOS ANGELES, June 29 (AP)—An undertaker today incorrectly identified a death victim named Will Hays as the former chairman of the republican national committee and head of the Motion Picture Producers Association.

An employee of Pierce Brothers, a southern California mortuary, telephoned the Los Angeles Evening Herald and Express to announce the death. The newspaper quickly notified The Associated Press.

A check with the former Hays' office and with Hays' home in Encino determined a few minutes later that the identification was erroneous.

Hays, now in New York, close friends said.

The confusion was occasioned partially by the fact that both the Hays of movie fame and the other Will H. Hays, a farmer, reside in Encino. The names are identical, even to the initial.

The Pierce Brothers' spokesman said that when a request to come for Hays' body was telephoned to the mortuary, the caller was asked if it was "the" Will Hays, and the response was affirmative.

Vicksburg Plans Big Celebration

VICKSBURG, Miss., June 29 (AP)—The populace of Vicksburg, who brooded over the surrender of this key confederate city to the Yankees for 82 years, are planning their greatest Independence Day celebration in history this year.

And to show their enthusiasm, after first celebrating the Fourth of July in 1945, Vicksburg is planning a two-day celebration—on the 3rd and the 4th—with Secretary of War Robert P. Patterson the honored speaker.

A huge military parade will be staged, and the 1946 celebration will be known as the "Carnival of the Confederacy."

Committee Rejects Truman Proposals

WASHINGTON, June 29 (AP)—The house expenditures committee expressed disapproval today of a federal agency reorganization program submitted by President Truman.

The committee approved three resolutions by Rep. Pittenger (R-Minn.) voicing opposition to the president's proposals. One proposed Pittenger argued against would centralize all federal housing activities on one agency. Pittenger said this would put the government in the building business permanently.

Another proposal would lay the groundwork for establishment of a department of welfare under a new cabinet officer.

Rodeo to Open Headquarters
(Continued from Page One)
The present bleachers will be extended.

The 16 section parade, under the direction of Pat Ivory is reported going well, with several entries already in. The Klamath Sheriffs Posse will appear in their new uniforms for the first time in Klamath Falls, and will be backed by the Klamath Saddle Club, in colorful costume, who will assist in escorting the queen and her court throughout the parade and grand entry at the fairgrounds.

Others to enter their names for the parade include Bud Howard, of the Sunset Stable, who will bring an organized group of riders with him and Dorothea Buck's AB Corral, which will enter a mounted group of young women in colorful costume. Besides these organized groups it is expected there will be hundreds of men, women and children, dressed in their finest riding gear and with their horses groomed for the day. Prizes will be given in each of the 16 sections, and judges will be spotted up and down the line of march to make the decisions.

Those Klamathites who cannot make the show, can listen to daily broadcasts of main events over KFLW. Arrangements are under way with the committee to make possible full coverage of major events such as bronc riding, steer roping and calf roping.

Prices Cause Lack Of Meat

WASHINGTON, June 29 (AP)—Foresighing even slimmer supplies of meats than now exists in many cities, the agriculture department reported today that the nation's big packers were virtually forced out of the cattle market last week by further advances in prices.

The big packers contend that prices offered for most slaughtered cattle in recent weeks are above levels which they can pay and still comply with government price controls. These packers normally provide the bulk of the meat moving in interstate commerce, particularly to urban areas.

Reviewing last week's livestock markets, the department said the big packers probably secured fewer cattle than in any previous week in their history.

Buyers for other slaughterers—generally small local concerns and plants doing custom killing for hotels and restaurants—were said to have "practically taken over" the marketing run which, at 12 leading centers, was roughly 10 per cent short of the previous week's small volume.

Foley's Case in Hands of Jury

(Continued from Page One)
Clarence A. Humble, but denied the motion for dismissal.

Then this morning, after the state had rested, Baletine again moved for dismissal because, he said, the prosecution's testimony "failed to prove a crime."

District Attorney Humble, arguing against the move, said that the crime had been shown, Foley was identified as the driver of the car which rammed into the back of a stalled pickup, pinning Spicer between the vehicles, that the state had shown negligence in Foley's driving by not seeing the stalled truck at the lighted corner.

Motion Denied
That motion for dismissal was also denied. Foley, placed on the stand in his own defense, testified that he did not see the stalled truck in time to avert the accident because the pavement was wet and the lights glared in his eyes.

He was in the right lane on the highway, he said, the traffic light at E. Main read "go" and he had the car under control.

Johnny Spicher and Joe M. Dunson had come out of a filling station at the corner to help push the stalled truck off the highway, and Spicher, on the left rear of the truck, was struck when the car driven by Foley smashed into the truck. Dunson, on the right side, was not hit. Spicher, his legs crushed, was placed in a cab and died on the way to a hospital.

Joseph G. Balthazar, testifying for the state yesterday afternoon, said that he was following the car driven by Foley along S. 6th and that the car was traveling at least 30 miles an hour when he heard the sound of the crash.

Balthazar's estimate of the speed was made from a block away, he said.

This morning, at the request of the defense, the jurors were shown police pictures taken at the scene of the accident, the pictures showing that Foley's car was in the correct traffic lane and that the men pushing the stalled truck may have obstructed Foley's view of the truck's two tail lights, as the defense has contended. Dunson said yesterday that he did not believe he was standing in front of the tail light.

The jurors were also taken to the scene of the accident this morning.

Judge Vandenberg said this morning, referring to a flaw in the indictment and the defense's other motion for dismissal, that he was going to let the case go to the jury but if Foley was found guilty he would probably have to set aside the verdict.

President Summons Alaskan Tourists

EDMONTON, June 29 (AP)—A party of Anchorage, Alaska, businessmen who passed through Edmonton en route to the central United States, have received a summons for an interview with President Truman in Washington, it was disclosed today in a telegram received by the Edmonton chamber of commerce. No other details were given.

The party, headed by Ernest H. Gruening, governor of Alaska, was to have returned north through Edmonton this week and plans for their entertainment have been postponed.

School Board No. 2 Will Hold Election

Voters will go to the polls to elect directors for school board No. 2, the high school district, on June 24.

Place for voting will be the high school, between 2 and 7 p. m. The candidates are Scott Warren, up for re-election for a five-year term, and R. E. Lamott, running for a four-year term.

64-Year-Old Woman Injured on Bicycle

ALBANY, June 29 (AP)—A 64-year-old woman bicyclist was in the hospital here today with broken bones and scalp lacerations.

Police Chief R. L. Chandler said the elderly woman, Mrs. Fred Hensolt, Albany, collided with a car as she rode her bicycle along the Pacific highway yesterday.

Indian Envoys Leave Confab

SEATTLE, June 29 (AP)—M. A. Master, Indian employer delegate, and all his advisers walked out of the international labor organization maritime conference here today.

Master, in an impassioned address, said he could remain no longer and serve his fellow ship owners because Charles Jarman, British labor delegate, had refused to apologize for what Master termed offensive language.

Rep. Henry M. Jackson, conference president, said later that steps had been taken to smooth the difficulty.

"We have been treated today to what is now becoming the usual performance of our Indian friends in this type of conference," Jarman said.

"If I had known that Mr. Master really intended to walk out, I would have presented him with a set of conplainers."

New Army Plane Sets Speed Mark

DAYTON, Ohio, June 29 (AP)—The U. S. army's partly jet-propelled XA-30E flying roundtrip between Wright field and St. Louis set a new speed record of 413 miles per hour today over a 1000 kilometer course with a 1000 kilogram payload.

The plane which took off from here at 11:07 a. m. EST, made the trip at 22,000 feet in one hour, 30 minutes and 50 seconds. Its turn about in flight at St. Louis was checked by radar. It was powered by a combination of conventional and jet engines.

STEAMBOAT REUNION

PORTLAND, June 29 (AP)—The Veteran Steamboatmen's association will hold its annual reunion at Champeo State park June 30, with the sternwheeler Claire making the trip upriver from Portland.

Cascade Lake Lures Atomist

CASCADE SUMMIT, June 29 (AP)—When atomic energy is harnessed and used like electricity for the benefit of mankind and to lighten the work of the housewife, credit will be partly due to one Oregonian, Dr. Charles H. Secoy of Eugene, former professor of chemistry at the University of Oregon.

Dr. Secoy will work at the Oakridge plant of the government in connection with peacetime use of the atom.

He and Mrs. Secoy are spending a vacation here at their summer home on the lake prior to their departure for Tennessee where they will make their home. With them is their daughter, Joanne and a friend, Beth Anne Stuart, also of Eugene.

Like so many of the summer home colonists whose work has called them to different parts of the country, they will return to Lake Odele each summer to spend their vacations.

Today Hottest Day Of Year

The official temperature mounted to 88 degrees at 2 p. m. today, making this the hottest day 1946 to date.

There was a chance the mercury might go even higher in the late afternoon.

Yesterday's maximum was 86, a season's record to that date, but it was six degrees under the maximum for the corresponding day of 1945.

Until this week, an 83-degree maximum on April 24 held the season record for warmth.

Modoc Council Sets Whitehorse Meeting

June meeting of the Modoc council of natural resources will be held at Whitehorse on Wednesday, June 28.

Whitehorse is the logging headquarters of the McCloud River Lumber company in northern California, and Elmer Hall of that company will be host.

DeWitt Nelson, California state forester, and Paul Keene, of the bureau of entomology, will be present at the meeting. A number of Klamath Falls men are planning to attend.

Pioneers Lack Heart To Quit

PORTLAND, June 29 (AP)—The last handful of members of the Oregon Pioneer association met today to disband—but didn't have the heart to do it.

The meeting of the men and women who crossed the plains to the Oregon country or were born in Oregon prior to its statehood, was expected to be the last one for the group organized in 1871.

But at today's luncheon the pioneer fires still burned and a motion to continue the annual sessions was approved.

Solon Demands Quiz On Fight

WASHINGTON, June 29 (AP)—Rep. O'Toole (D-NY) demanded today the New York state boxing commission hold up the purses of Joe Louis and Billy Conn until an investigation can be made of last night's championship fight.

O'Toole voiced his demand in a telegram to Edward Egan, commission chairman, which asserted that the championship bout was "a fraud."

It declared that the purses should be held up and the investigation be made "in justice to those who were swindled" at the fight.

"One more fraud such as last night's and boxing will be ruined in the United States for many years to come," O'Toole declared.

President Favors Civilian Control

WASHINGTON, June 29 (AP)—President Truman declared emphatically today that he favors civilian control of atomic energy.

He told his news conference that the atomic control measure passed by the senate suited him exactly.

This was in reply to a question about a house committee amendment designed to add a military member to the proposed control commission.

ASTORIA, Ore., June 29 (AP)—Poor salmon fishing in the Columbia river has been reported by all receiving stations below St. Helens, packers here reported today.

Many fishermen are expected to take in their nets until the heavy July run starts. The June run has been poor for a number of years.

Army Budget Before House

WASHINGTON, June 29 (AP)—A \$7,091,034,700 army budget—biggest ever in peacetime and with an extra \$175,000,000 tacked on for atomic energy development—went to the house floor today.

It was almost twice as large as the last pre-war allotment, voted in 1941.

Nearly balancing the extra cash granted the army's famed Manhattan project which produced the atomic bomb, the appropriations committee trimmed \$150,000,000 from budget bureau estimates for army-supervised relief and government activities in occupied countries.

Otherwise the committee generally followed the budget bureau's recommendations for war department funds for the fiscal year starting July 1. Net changes in the big measure represented a production of \$117,172,729.

The committee approved in full the \$1,199,500,000 allotment for the air corps after hearing General Carl Spaatz relate plans for an air force adequate to detect and repel any surprise attack, to launch a crippling counter-offensive end to back up the land and sea forces.

The committee boosted the atomic service fund—part of which will be used to pay for contracts into the fiscal year 1948—after hearing army heads outline plans to maintain development activities at their present level and to press vigorous research into peacetime possibilities of the newly-decorated power source.

Three billion persons ride New York City's subways annually.

Morse Announces West Point Exam
WASHINGTON, June 29 (AP)—Senator Morse (R-Ore.) announces that a competitive examination will be held in Oregon July 24 for one appointment to the U. S. military academy.

Morse said it would be necessary for youths wishing to take the examination to notify him at once.
