Real Estate Prices Held Bar To Eastern Industry

SALEM, June 22 (AP)—Inflation in real estate is influencing several large eastern industrial firms against locating in Oregon now, John W. Kelly, secretary of the state postwar commission, reported to Governor Earl Snell today.

He said these firms are willing to wait for lower land prices.

Kelly said the Henry J. Kaiser interests are planning to develop a subdivision in Washington county, using prefabricated houses made in California.

Kelly also reported that this season there will be 160 food processing plants in operation in Oregon, with fresh fruit and vegetable shipments totaling 35,350 cars. About 70,000 persons will be employed in harvesting the crops, and more than 25,000 in the processing plants.

In reporting on new industries Kelly said the shortage of bricks and lumber has resulted in six concerns commencing the manufacture of concrete blocks. Other new firms include a furniture plant at Winchester, Douglas county; three plants to make venetian blinds in Coos county; several plants to make home freezers; two companies to make home electrical heaters; and other firms to make aluminum boats, plywood motor boats, caustic soda and chlorine, and frozen fish.

Canada May Export Logs

WASHINGTON, June 22 (AP) The Canadian embassy has informed the state department that if production of logs from Crown Grant lands increases the dominion may be able to release more logs to the United States.

The embassy statement from the dominion's timber controller was sent to Senator Mitchell (D-Wash), by Assistant Secretary Clayton.

"There is no prohibition on the export of cedar logs from Crown Grant lands in Canada," the controller said. "With respect to fir and hemlock logs we have indicated that we are prepared to permit at least 17½ million feet of fir logs, exclusive of high grade peelers, and 32½ million feet of hemlock and balsam logs, exclusive of high grade logs, to go to the United States from Crown Grant lands in Canada during the year 1946.

"This follows the identical pattern used last year with respect to the export of these logs to the United States.

"Logging conditions are, at present reasonably good at the coast and if as anticipated our production increases materially during the summer months it is quite likely we may be able to release futher logs for shipment to the United States before the end of the year. However, the situation is not at all encouraging at the present moment."

The controller said there were indications labor troubles might retard logging. Since the letter was written a strike was called and the department told Mitchell all log shipments would cease until it was settled.

Turnout Small For Swimming

Adult beginning swimmers' classes are falling far short of the expected registrants, according to Joe Peak, swimming instructor, and unless more interest and turnout is shown the classes may have to be discontinued. One class is held every day, daily, except Saturday and Sunday, at the high school natatorium.

Any adult or high school boy or girl may take the course. For further information interested persons are asked to go to the swimming tank or phone 6466.

All Hands Said Lost As Bomber Crashes

ANCHORAGE, Alaska, June 22 (AP)—All personnel aboard a B-24 bomber were presumed lost Monday when the airplane crashed into the quartermaster warehouse at Shemya, headquarters of the Alaska department reported yesterday.

The total number aboard was not reported but the names of five victims were listed. None was from the northwest. The report said damage estimated at $308,000 as done to the warehouse by the crash and the resulting fire.
