

Unemployment On Wane In Klamath Basin Area

The unemployment situation in Klamath Falls and vicinity is "looking up," according to Jick Hanlon, local employment officer, as employment rate figures revealed a steady increase in jobs being filled for the past three months. Many jobs are still open, especially with lumber concerns who are looking for skilled woodsmen, but there is a labor shortage in construction work, official bulletins stated.

Total unemployment for June was 749, including 286 women, as compared with 962, 327 of whom were female unemployed, for the month of May. Unemployed labor unemployment remained almost the same as for the last two months. Sixty per cent of all applications were made during May.

Chicken Plant Now Building

Rebuilding of the Oregon State chick hatchery, destroyed by fire May 6, and located at S. 6th near Washburn, started Friday, July 19, when workmen prepared to clear away the debris littering the site. Fred Hubler, owner, said the building will be rebuilt within 60 days, and the hatchery will be operating to capacity in six months to a year.

The building was destroyed by a short circuit in one of the machines, starting in the corner of the building next to a wooden wall. Estimated damage was \$40,000 to \$50,000. Approximately 90,000 eggs and 500 live chicks were lost in the blaze, as well as all incubator machines. The hatchery previously ordered three new machines, delivery of which is expected in the fall or winter of this year. However, due to the fire, two of the machines were delivered early. The third is expected at the regular delivery date.

The hatchery serves local and northern California market with day-old chicks, and handles approximately 10,000 eggs as maximum capacity. Ernest Gienger and John Quigley are also part owners of the hatchery.

Tumbles Bring Broken Arms

Falls out of trees sent two Klamath children to the hospital, both with badly fractured arms.

It was the third break in the left arm of 9-year-old Bill Connolly, son of Mr. and Mrs. Haarbly, of Hechen of 1208 California, when he fell from a tree on the lawn and broke his arm at the wrist. Bill is in Klamath Valley hospital for treatment. The accident occurred late Thursday afternoon.

Also in Klamath Valley hospital is Eleanor Meade, 8, visiting here with her grandmother, Mrs. Lillie Harrington, route 3 box 913. Eleanor and the family were getting ready to go fishing when the child fell from a tree late Friday and struck the tongue of the trailer which had been packed for the trip, fracturing her right arm.

Utility Securities Issue Authorized

PHILADELPHIA, July 20 (AP)—Despite objections of Oregon public power groups, Mountain States Power company, Albany, held securities and exchange commission approval today for issuing \$2,200,000 of notes.

The SEC refused opposers' request for a rehearing, claiming their objections would not be decided by the SEC. Objections, based on the argument that the note issue would finance service duplicated by their own organizations, came from the Benton-Lincoln Rural Electrification cooperative, Lane County Electric cooperative, Blachly Lane Cooperative Electric association, Coos Electric Cooperative Inc., and W. W. Abraham on behalf of the Linn county proposed PUD.

Homemakers To See Remodeled Kitchen

The newly remodeled kitchen of Mrs. L. E. Reeves, 437 N. 3rd, will be inspected by homemakers July 24 at 2 p. m. Just what can be done with kitchens to make them more convenient and attractive will be described by Mrs. Winnifred Gillen, county home demonstration agent.

One of the services of the home demonstration office is to distribute material on the planning and arranging of homes.

Son Born—Mr. and Mrs. J. A. Hennefer of Tacoma are parents of a son, their second child, born Saturday, July 20, in the Washington city. The child, James Alfred, weighed 8 pounds 8 ounces at birth. The Hennefers have another baby, a girl, Mrs. Hennefer is the former Betty Hauger of this city, daughter of Mr. and Mrs. Herbert E. Hauger of Pacific Terrace.

Applications for work in June, 1945, were 611, Hanlon stated, with 218 filled during the same month this year. Total June references to jobs in 1945 were 1376, but for June of this year, the total amount reached only 528. Veteran references were almost exactly the same for June of both this year and last year.

Sixty-nine permits were issued to minors last month. These permits, an authorization by the U. S. employment service for an employer to hire a minor, are issued to boys and girls under 18 years of age, and are required by law.

Early in the war, President Roosevelt gave the navy permission to depth bomb and otherwise shoot up three American submarines off Portsmouth, N. H., so the navy knows just how to go about preparing the target subs for the approaching atomic experiment.

First the subs will be taken outside the lagoon and put into deep dives. During these dives, some of the tanks inside the hull, fore and aft, will be filled with water. This maneuver assures that the submarine will be balanced on even keel when under water.

With these tanks filled, the craft can still rise to the surface. Crews will run them back into the lagoon and debark.

Next, steel bridges will be hung across both bow and stern. To these bridges will be attached 30-ton concrete weights.

As the last step, a submarine rescue ship will attach long hose lines to valves opening tanks of the submarines and let water in. As the water enters, the subs will sink steadily. But at the moment the concrete weights touch bottom, each craft will be relieved of 60 tons of weight and stop sinking. Then the valves will be closed.

If the submarines are not sunk by the bomb, they will be brought to the surface by the rescue ship. This can be done by blowing high pressure air into the water-filled tanks of the subs.

Submarines are many times stronger than other kinds of warships in resistance to underwater shock.

It's predicted that the underwater explosion July 25, Bikini time (July 24, U. S. time), may merely blow some submerged subs to the surface, and leave them floating there not too badly damaged.

New Store Viewed At Opening

With an accent on color, The Anita Shop, 707 Main, was formally opened to the public Friday night, and Klamath residents viewed the latest in women's apparel stores. This is the first Anita shop to be opened in Oregon, although there are a number in southern California.

Navy To Use Trick Method On Bikini Test Submarines

ABOARD USS APPALACHIAN, July 20 (AP)—Tricks learned in a secret test during the recent war will be used by the navy to submerge empty submarines for the underwater atomic bomb test at Bikini lagoon.

As the last step, a submarine rescue ship will attach long hose lines to valves opening tanks of the submarines and let water in. As the water enters, the subs will sink steadily. But at the moment the concrete weights touch bottom, each craft will be relieved of 60 tons of weight and stop sinking. Then the valves will be closed.

If the submarines are not sunk by the bomb, they will be brought to the surface by the rescue ship. This can be done by blowing high pressure air into the water-filled tanks of the subs.

Delinquent Tax Lists Readied

The county tax office is now balancing its tax rolls in preparation for making up delinquent tax lists at the close of the fourth quarter, August 15. If not paid by August 15, 1945-46 taxes become delinquent that day.

The tax office collected \$2,049,526.65 from August 15, 1945, to last June 30, and of that amount \$1,908,005.52 was applied to the current tax roll. Monthly collection of tax money for the period averaged \$171,600.

Since the first of the year, or since December 15, when auto licenses went on sale, the office has issued 7150 temporary permits.

Seven New Airports Licensed By State

PORTLAND, July 20 (AP)—The state board of aeronautics reported today it had licensed seven new airports in the last month, for a total of 19 licensed ports out of the 80 operating in Oregon.

The new licenses went to J. E. Dewitt's Skyhaven airport at Brooks; A. L. Adams' airport at Silverton; Henry Troh's airport at Portland; Willamette Air park at Eugene; Ira S. Mann's airport at Sutherlin; the municipal field at Lexington; and J. J. Rutherford's field at Enterprise.

CARD OF THANKS

We wish to express our thanks and appreciation to our friends for their kindness and lovely floral offerings extended us during our bereavement of the loss of our beloved husband and father.

Mrs. Walter Shepherd and Family

CARD OF THANKS

We wish to extend our heartfelt thanks and appreciation for the acts of kindness, the messages of sympathy, and the many beautiful floral offerings during our recent bereavement, the loss of our beloved wife, mother, and sister.

Letters printed here must not be more than 100 words in length, must be written legibly on ONE SIDE of the paper only, and must be signed. Contributions following these rules are warmly welcomed.

FRIENDS THANKED

KLAMATH FALLS, Ore. (To the Editor)—May I have a little space to thank my many friends in Klamath Falls for their favors and patronage of the past 10 years. One doesn't remove himself from such pleasant relations without a sense of loss. In our new home in Eureka, Calif., we hope the contacts we make will be as pleasant and cordial.

Sincerely,
Mr. and Mrs. A. W. Benedict
915 F St., Eureka, Calif.

Police Arrest Injured Driver

Cecil H. Cullen, 35, of 2225 Garden, who was severely injured in an auto accident on the S. 6th viaduct June 9, was arrested by police on a warrant charging reckless driving in connection with the wreck today, and placed in the city jail.

Clyde Henry Ellis, 2550 Vine, arrested last night on S. 6th near the Ewanna Box company, posted \$10 bail on a charge of driving while under the influence of intoxicating liquor.

William L. Heup, 417 Lincoln, posted \$2 bail for making an improper left turn at 8th and Main yesterday, and Roscoe R. Kinsey of Beatty put up \$5 for running the red light at Main and 7th.

Two drunks, two vagrants and one man charged with disorderly conduct appeared in police court this morning.

Mount Rainier Park Improvements Slated

WASHINGTON, July 20 (AP)—Mount Rainier national park will be improved for winter sports recreational use, Senator Mitchell (D-Wash.) said today.

Disclosing plans of the national park service, he said \$30,500 of \$484,580 congress had appropriated for the park would be spent developing its winter features.

Hostages Returned By Russians

Weary and nerve worn after 15 days' detention by Russian authorities in Russ-occupied Germany, Warrant Officer Samuel L. Harrison of San Antonio, Tex., and his wife, Helen, seek nourishment and rest on arrival in Berlin. Photo by Reg Kenney, NEA-Acme photographer.

MOTORCYCLIST KILLED

PORTLAND, July 20 (AP)—Homer Sparks, 27, Portland, was killed last night when his motorcycle collided with a pickup truck.

Plane Wreck Victim Found

TACOMA, July 20 (AP)—The body of Sidney Matz, New York business executive who disappeared on a flight to Seattle July 8, was found last night in the wreckage of his plane on a high peak in the Cascade mountains.

A ground search party reported the body was pinned in the crumpled fuselage and could not be extricated. The men planned to return to the scene today with tools to cut the body free.

The searchers report said the plane evidently struck a tall tree and crashed, killing Matz outright.

The search for Matz led to the discovery of the wreckage of another plane—an army craft missing from Buckley Field, Colo., since February of

HERALD & NEWS, Klamath Falls, Ore. SATURDAY, July 20, 1946, Page Three

1945—and brought death to John F. Mines in the crash of a searching aircraft. The ground party reported the remains of four men, all badly burned, were in the wreckage of the army plane.

Imports of unassembled trucks into New Zealand from the United States in 1946 may reach a total value of approximately \$331,000 and of passenger cars about \$428,000.
