

Pope Receives Delegation Of American Legislators

VATICAN CITY, July 20 (AP)—Pope Pius urged a group of American senators and representatives whom he received today in private audience to share the experiences acquired on their around the world journey, so that men will understand more fully "the havoc wrought by war and the tremendous difficulty of reconstruction."

The pope spoke in English. He told his listeners, who arrived here last night from Cairo by way of Athens, that the spectacles of shattered landscapes that they had seen, and the havoc

Enlistments Up For Army

WASHINGTON, July 20 (AP)—New enlistment figures kindled hope in congressional quarters today that the army may be able to prolong its voluntary induction holiday.

Latest returns showed that during June there were 62,493 enlistments in the army, or more than 20,000 above what the war department regards as its average monthly needs.

It may be, said Rep. Short (R-Mo.), who made the figures public, that the new draft extension law will not have to be used at all or at least that the induction holiday in force during July and August can be continued.

The figures from the war department showed that during the first week of June there were 11,745 enlistments. During the second week there were 12,319; the third, 13,093, and the fourth, 25,336.

While no enrollment figures for July are available, the department informed Short that a falling off during the first week could be expected because of the holiday weekend.

Illegal Trucks Cause Arrests

Seven logging operators were given citations to appear in justice court here or at Chiloquin as the result of a weighing he conducted by state police Friday at the Fort Klamath Junction.

Officers said the arrests were made because of the danger to traffic as well as damage to highways.

Charged with overweight of log load was Melvin Allen Greeley, 1540 Homedale, Klamath Falls; Lewis Clark Williams, Baldwin hotel, city; overland and over-haul, Earl Blaine Thrope Jr., Fort Klamath; Ival Charles Knox, Fort Klamath; Dale Herman Wutrich, naval housing project; Louis Fred Kobow Jr., Fort Klamath; Lawrence Cribbens, Fort Klamath, all charged with overloads.

Police advised all drivers to remove excess loads before leaving the junction.

Bonneville Studies Power Requirements

PORTLAND, Ore., July 20 (AP)—The Bonneville administration reported today that Pacific northwest power requirements for the next 20 years were being studied, and announced that Samuel B. Ross, economic advisor in the department of justice, would aid in the survey.

Administrator Paul J. Raver said the Bonneville study is being made for a report being prepared by army engineers on the development of water resources of the Columbia basin.

AUTOPSY ORDERED

PORTLAND, July 20 (AP)—An autopsy was ordered today on Charles Mohr, 48, who died a few hours after being found unconscious in the city jail. He was serving two months on a conviction of drunkenness.

Airmail By Helicopter

A helicopter settles to a landing on the roof of the Terminal Annex post office in Los Angeles, demonstrating helicopter airmail services for the metropolitan area. A 30-day trial with six of such transport, which may be extended to machines was planned to determine the usefulness of other large cities.

Favorable Crop Outlook Seen For Tulalake Area

TULELAKE, July 20 — The entire crop output in the Tulalake area today looked favorable despite heavy mid-summer frosts which did some damage yet unestimated.

The potato crop in the Tulalake area will be less than last year due to frost which did considerable damage in spotted areas, according to Dan Crawford, secretary of Tulalake Growers, who said the area was comparable to last year with an estimated 15,000 acres in tubers.

Some of the fields are making a comeback but the crop will not come up to the 1945 harvest, Crawford said. In discussing the market, Crawford advised that the ceiling of 15 cents above last year's price which started at \$2.40 per hundred for No. 1 grade, and went up to \$3.25 as the season advanced, will probably hold this year.

A lighter grain crop was also anticipated this year due to frost as well as some insect damage, Crawford said. The insect damage, inflicted by red spider mite, appeared only in the lease lands and not on homestead acreage, it was reported. Ceiling last year on grain was \$3.12 per hundred-weight. Quite a bit of grain this year will be sold as feed. Last year, almost all of the crop went for malt barley.

Tulalake's new crop, celery, is doing exceptionally well, it was learned from Crawford. Some 12 to 14 acres is under cultivation, the Utah Green type having been put in by growers who expect to realize \$17,000 an acre for the stuff. Some of the celery will be marketed locally but most will be shipped to market centers where the demand is greater. Celery has been put in here by Earl Ager and B. C. Schultz.

A better than average onion crop is expected this season. Between 700 and 800 acres are now under cultivation with the Southport White Globe variety planted. All of the crop has been contracted, it is understood. Onions have been planted in this section for approximately 10 years.

Hughes Slated For Operation

LOS ANGELES, July 20 (AP)—Howard Hughes, plane and movie maker critically injured in a test flight crack-up July 7, was scheduled tonight to have his chest tapped for fluid for the second time, Physician Verne R. Mason reported.

At the same time Hughes will be given his seventh blood transfusion, Dr. Mason said. The physician described Hughes' condition as slightly improved in the last 12 hours, although his pulse, which has been fluctuating between 105-120, counted 120.

Pearl Harbor Probers Split On FDR Blame

ant increase in personnel and material losses, of the army and navy to institute measures designed to detect an approaching hostile force, to effect a state of readiness commensurate with the realization that war was at hand and to employ every facility at their command in repelling the Japanese."

Specific Failures

The report accused Short and Kimmel, the Hawaiian commanders, of seven specific failures:

- "To discharge their responsibilities in the light of the warnings received from Washington."
- "To integrate and coordinate their facilities for defense and to alert properly the army and navy establishments in Hawaii."
- "To effect liaison . . . and to exchange fully all significant intelligence."
- "To maintain more effective reconnaissance within the limits of their equipment."
- "To effect a state of readiness throughout the army and navy establishments designed to meet all possible attacks."
- "To employ the facilities, material and personnel at their command, which were adequate at least to have greatly minimized the effects of the attack."
- "To appreciate the significance of intelligence and other information available to them."

Students Back Bolivian Revolt

BUENOS AIRES, July 20 (AP)—Rebellious students fired on Bolivian cabinet ministers, wounding one and narrowly missing President Gualberto Villarroel in a fresh disturbance at La Paz yesterday, said reports from Chile today.

Earlier reports said 100 persons were killed in an uprising Thursday which had for its aim the overthrow of Villarroel.

The Associated Press correspondent at Arica, in northern Chile, only about 200 miles from La Paz, said the new disturbances yesterday took place in the Bolivian capital in front of the government palace when President Villarroel and his ministers were making speeches from the balcony. One policeman was killed.

The report said the government alleged that Alfredo Mendizabal, said to be acting under communist instruction, was leader of the revolutionary uprising. A general strike was reported still in progress in La Paz.

Officials of the Bolivian embassy here said the revolutionary uprising occurred Thursday afternoon when a group of heavily armed students staged a rebellion at the University of La Paz which was crushed within a few hours.

However, a dispatch from Arequipa, Peru, quoted private sources there as saying that the situation remained chaotic throughout the day yesterday, with bloody fighting and many persons killed.

The attempted coup was the second in Bolivia in the last five weeks.

The earth is surrounded by a blanket of air 100 miles deep.

South America Seen As Overflow Haven

PORTLAND, July 20 (AP)—South America could provide living for a large share of 25 or 30 million Europeans who lack land, the Right Rev. Msgr. L. G. Ligutti said today.

The executive secretary of the National Catholic rural life conference said South American countries would welcome such immigrants, but have been unable to solve the financing problem.

Ligutti arrived here last night to attend an Oregon State college rural life institute.

Search For Atom Denied By Gromyko

NEW YORK, July 20 (AP)—Soviet Delegate Andrei A. Gromyko, playing a stand-in role among the scientific advisers to the United Nations atomic commission, was on record today as saying that "nobody is asking for secrets" of atomic know-how at this stage of atomic control discussions.

The remark was given emphasis by the fact that the five quoted words were the only ones given in direct quotation in a 700-word official UN report of yesterday's secret meeting of the new 12-nation scientific and technical advisory committee on atomic energy.

The only reported point of conflict yesterday arose over Gromyko's proposal that the scientific committee chairmanship should pass back and forth between the representatives of the Netherlands and Poland. This was authoritatively said to have been beaten by ten votes, with Poland abstaining.

Dr. Hendrik Anthony Kramers of the Netherlands was named temporary chairman.

Pinch Hitter

Gromyko, who represents Russia in all political deliberations on atomic control, turned up among the scientists as a substitute for the Soviet scientific representative who now is observing the Bikini atom bomb tests.

In the official version of yesterday's meeting the Soviet delegate said "nobody is asking for secrets" and then was indirectly quoted as saying the time was ripe for discussion of the methods of exchange of scientific information on the peaceful uses of atomic energy.

Gromyko also told the scientists that his proposals for exchange of information, as stated more than a month ago in the presentation of Russia's counter plan for handling atomic energy, were in no way in conflict with the views expressed by Bernard M. Baruch of the United States in a supplement July 12 explaining one phase of the proposed American program.

Four Turks Killed On Election Eve

ISTANBUL, July 20 (AP)—Four persons were reported shot to death today on the eve of Turkey's general election to determine the fate of President Ismet Inonu's government.

Three men were reported slain while sitting in a coffee house at the village of Izmir. One of them was president of the village branch of Jelal Bayar's opposition democrat party.

A man described as a member of the opposition restoration party was killed near Istanbul by a gendarme who sought to question him.

Tension mounted as Turkey prepared to vote in her first great experiment in democracy tomorrow. The military commander at Istanbul issued a directive warning he would tolerate no disorder of any nature.

Health Bureau Closes 3 Swimming Pools

Three Portland school swimming pools have been closed for the current season, according to the Oregon Board of Health Bulletin. Permits for the operation of the pools were not issued by the state board of health as pools did not comply with standard requirements.

The Portland health bureau notified the school board that the park bureau would not operate the pools as specified improvements had not been made.

'VIPS' Collect Bikini Souvenirs

KWAJALEIN, Sunday, July 21 (AP)—Even VIPS (very important persons) are ardent souvenir collectors.

Commodore Ben H. Wyatt, Marshall Islands commander who has been host to some 500 VIPS for Bikini atomic bomb tests, learned this to his dismay. His guests have included senators, representatives, admirals, generals.

Wyatt has a large and fine collection of Marshallese handicraft. Recently while proudly showing a native harpoon to visitors he noticed that 12 of its 16 shark's teeth had been removed.

"VIPS" disgustedly exclaimed Wyatt who has gone far beyond the call of duty to provide as much Marshallese handicraft as possible for guests desiring souvenirs.

Posse Chases 'Canyon' Man

Officer Bud Adkins of the city police force was given a one-hour start at 1 o'clock this afternoon as "The Man from Canyon Passage" sought to elude a posse on horseback in the Wocus area north of here.

Sylvia Hillis drew three slips from a hat while a crowd looked on in front of the Esquire theatre at 1 p. m., and the third slip designated the area where Adkins would hide. If he is not apprehended, a check for \$150 will go into the treasury of the Klamath Falls Police Officers Beneficiary association. However, any individual who approaches Adkins and says "You're the Man from Canyon Passage," will be \$150 richer.

Lloyd Lamb, manager of the Klamath Theatres said today that "Canyon Passage," southern Oregon film, will open Sunday at both the Esquire and Tower theatres with a longer run expected at the Esquire.

Newberg Youth Killed In Highway Accident

NEWBERG, July 20 (AP)—Robert Lee Stokes, 23, was killed early today as his motorcycle and a car driven by Everett Osterman collided near McMinnville.

Stokes was returning to his home here at the time.

He was a veteran of World War II. Survivors include his parents, Mr. and Mrs. Robert E. Stokes, Newberg.
