

Bikini Task Force Readied For Second Atomic Test

ABOARD USS MT. McKinley, July 22 (AP)—Preparations for the underwater test of the atomic bomb will be completed tomorrow when target submarines are submerged in Bikini lagoon and an electronics rehearsal is staged.

As preparations went ahead, Vice Adm. W. H. P. Blandy, atom test commander, observed that the bursting of the world's fifth atomic bomb might be delayed at least a week because of adverse weather.

Blandy added, however, that meteorologists hoped a high pressure area would show an inter-tropical front southward and bring clear weather to the area.

The test now is scheduled for Thursday morning, Bikini time (Wednesday afternoon, U. S. time).

Six submarines will be submerged tomorrow at a depth of 60 feet. Actual submerging operations began today but it will take until tomorrow to complete.

Two other submarines—the bomb-battered Skate and the Parche—will be anchored on the surface.

Sub commanders agree that the submerged craft, will stand little chance of surviving the terrific underwater blast, since they will be closest to the center of detonation.

Heavy hulled submarines, besides the Skate and Parche, are the Dentuda, Pilotfish and Apogon, light hull craft include the Skipjack, Tuna and Scavenger.

Concrete blocks, anchored by bridges fore and aft, will hold the submarines at the desired depth. The blocks can be raised by pumping air into them.

The electronics rehearsal is in routine.

Blandy warned again today that damage to ships in the forthcoming test will be "unspectacular" and not so impressive to the lay observer as were the battered and burning ships in the lagoon after the aerial explosion July 1.

The air burst damaged ships' superstructures while damage done in the second test will be underwater.

Loaf To Jump At Portland

PORTLAND, July 22 (AP)—Bread prices will be forced two and three cents higher this week by the new wage contracts won by bakery workers and increased cost of ingredients, according to an attorney for the Portland area bakeries.

Ranson D. Meinke, attorney representing employers in wage negotiations, reported an increase of labor cost to about 20 per cent and almost 50 per cent jump in cost of ingredients.

Meinke predicted a 2-cent increase for one-pound loaves and 3 cents for the one and one-half pound size. The one-pound loaf now retails at 11 cents.

Dean F. Bryson, agent for the bakery workers, reported the settlement of the bakers' union called for a flat 15 per cent wage boost, vacations after three years and permits reopening of negotiations if the department of labor cost of living index rises five points.

Earlier bakery drivers had accepted a \$10 a week salary boost to a \$60 a week minimum, plus 7 per cent of sales over \$400 a week.

Red Actions Pose Issue In Hungary

WASHINGTON, July 22 (AP)—Soviet political activities in Hungary led diplomats today to stress the struggle Secretary of State Byrnes will face when he returns to Paris this week for more peace making.

This government is reported planning a sharp new protest to Moscow over what is considered here as oppression of Hungarian political freedoms. But the problem is considered typical of the conflict between Russia and the western powers which is the backdrop for the Paris peace conference.

The conference is scheduled to open a week from today. Aides expect Byrnes to leave Friday or Saturday. It was little more than a week ago that he returned from Paris after the Big Four foreign ministers finished drafting the treaties for Hungary, Romania, Bulgaria, Italy and Finland which are to be acted on by the peace conference.

The texts of these documents have not been published. It is known, however, that they are intended to give much greater power into the hands of the native governments and thus restrict the rights of the occupation and control powers. This more or less fixed a deadline by which the Russians must wind up their most direct methods of consolidating communist power in the Balkan states.

Connection Seen

Officials here are not sure of the connection between this fact and what is going on in Hungary, but some suggest that it probably is very close.

As a nation Hungary has voted in a manner less acceptable to Russia's political commissars than perhaps any other in eastern Europe.

In the balloting last November, the communists polled 17 per cent of the votes, social democrats 17 per cent and the relatively middle-of-the-road "small holders" party 60 per cent. Ever since the small holders have been under heavy communist pressure.

Earlier this year a "purge" resulted in the ouster of 20 party leaders as "reactionaries."

A few weeks ago Soviet Lt. Gen. V. P. Sviridov, ignoring the required routine of consulting American and British colleagues on the allied control commission, ordered the Hungarian government to disband a group of organizations he accused of being "fascist." On July 11, President Ferenc Hagy, chief of the small holder party, advised Sviridov he would meet the demand.

The organizations to be broken up are the Boy Scouts, a student union, three Catholic youth groups and an organization similar to the YMCA.

Senatorial Aspirant Sues Indiana Paper

INDIANAPOLIS, July 22 (AP)—William E. Jenner of Bedford, republican nominee for United States senator, today filed suit for \$500,000 damages, charging libel, against the Indianapolis Star, Eugene C. Pullman, its editor and publisher, and Rep. Charles M. Lofollette of Evansville, republican congressman.

The suit in state circuit court charges that Jenner's candidacy was damaged by a statement by Lofollette printed in the Star May 2, saying that liquor dealers contributed to Jenner's campaign.

Jenner defeated Lofollette for the nomination at the state convention here June 13.
