

House Wants GI's To Get Pay In Cash

WASHINGTON, July 24 (AP)—House supporters of terminal pay for GI's and Gobs shouted an emphatic "No" today to the senate's plan to issue bonds cashable only after five years.

Rallying behind the cry that "if cash is good enough for the enlisted men," the group planned to fight for restoration of the original house provision for lump sum payments.

That fight will be made in a senate-house conference to which the bill passed by the senate late yesterday may be sent by nightfall.

Rep. Sikes (D-Fla.), chairman of the military sub-committee which wrote the house bill, and Rep. Dwight L. Rogers (D-Fla.), its co-sponsor, told reporters they will demand a reversal of the senate's position.

"Good Enough For Men" "If cash is good enough for the officers it's good enough for the enlisted men," said Sikes, who probably will be one of the house conferees.

"The main argument for payments in bonds," Sikes added, "is that it would be inflationary to pay out so much cash at one time. It's a strange thing that the only time some people worry about inflation is when the GI's are liable to get some cash. I didn't hear any cries of inflation when we voted to give several billion dollars to Great Britain."

Rogers and Sikes both noted that the bond payment plan was not even considered by the house when it passed the bill without a dissenting vote on June 11. The senate action yesterday was by voice vote.

The bond provision, suggested by President Truman after the house acted on its own bill, provides that payments generally are to be in bonds unless the amount is less than \$50. In that case the recipient would get cash.

Forest Fires Reported Out

SALEM, July 24 (AP)—Oregon was without a single forest fire today, but State Forester N. S. Rogers was keeping his fingers crossed in the face of a weather bureau warning that no break in the current heat wave is in sight.

"The situation still is critical," Rogers said, "and people must be very, very careful. It will remain critical for several days." Rogers said there isn't much danger yet that a fire would run in green timber, the principal danger being in cutover areas and in the grassy regions of eastern Oregon.

The four fires which had been burning over the weekend have been extinguished, he said.
