

Production Faces Snag In Car Lack

NEW YORK, July 25 (AP)—Lack of ample freight-carrying space threatened today to clamp an undeclared but nonetheless rigid ceiling on the nation's productive effort.

"Why produce more goods than you can expect to ship?" was a question already confronting some industries.

The shortage of freight cars was so acute there were reports in railroad circles that the office of defense transportation would recommend further steps to speed deliveries of new units.

One proposal discussed was for the reconstruction finance corporation to finance purchase of 50,000 cars for lease to the carriers, with priorities on scarce materials for quick construction.

Individual railroads already have some 40,000 freight cars on order.

The car building industry points to a drop from 2814 deliveries in May to 2004 in June as emphasizing a need for assistance in obtaining materials, principally steel and lumber.

Operations Cut

Carnegie-Illinois Steel corporation, a U. S. Steel subsidiary, cut its Chicago area operations 25 per cent this week because of a car shortage; Pittsburgh

Today's Newsie

DON STILES

Carrier of route 13, Mills addition, is Don Stiles, 13-year-old son of Mr. and Mrs. C. B. Stiles, 2036 Orchard, who has 107 customers in that section of town. Don was born in Klamath Falls August 17, 1932, and is one of 10 children. Don saves a part of his check handed him by the circulation department of The Herald and News, and the rest he uses to buy his own clothes, school supplies and his personal spending money needs. He especially likes to go fishing and has bought his own fishing gear of which he is quite proud. Don is a graduate of Fremont junior high and goes into high school this fall. He hopes to take woodworking and math at KUHS. Don's father works with the O.C.E.

manufacturers running out of storage space anticipated steel mill curtailments within a week; in northern states grain was piled on the ground at bulging elevators and on farms awaiting shipment. Some coal mines were reported closed temporarily.

The situation stems from high production, at record levels in many lines of manufacture, with resultant demand for a huge amount of shipping space, and the fact that less than 200,000 freight cars were built during war years when essential materials were diverted to armament needs.

Railroad car loadings this month approached 800,000 cars a week, a July level untouched in peacetime since the record year of 1929.

Offerings Mount Up At Adventist Camp

GLADSTONE, July 25 (AP)—Offerings of more than \$25,000 have been made at the Seventh Day Adventist camp meeting here, Treasurer R. T. Emery reported today.

Saturday's request for collection for missions brought in \$24,000 of the total, he said.

Japanese Budget Skips War Claims

TOKYO, July 25 (AP)—Minus any provision for payment of war indemnity, a proposed 1946-47 budget for Japan was presented today to the house of representatives today by Finance Minister Tanzan Ishibashi.

Lack of indemnity provision suggested the government intends to ignore claimants who have asked more than 70 billion yen for war damages to industrial plants, reconversion

costs, unfilled government contracts and war damage insurance.

The largest expenditure item of 19 billion yen was listed under the heading of postwar settlements and included occupation costs. The second largest, of 10 billion yen, was for economic reconstruction.

MOVIE MAN DIES

PORTLAND, July 25 (AP)—Mark E. Cory, pioneer motion picture theater operator and RKO-radio branch manager here since 1930, died at his home last night.
