

Special Ceremony Held By Order

TULELAKE—The grand cross of color degree was awarded at a special session of the Tulelake Assembly of the Order of Rainbow for girls held Wednesday evening.

Receiving the degree were Jean Wolfe and Bernice Hartley, members of the assembly; Arlie Mae Johnson of Malin, past mother advisor; Gladys Laird, past worthy matron of the Tulelake chapter of the Order of the Eastern Star, and the Rev. Hugh Bronson, pastor of the Tulelake Community Presbyterian church. The award is one of the highest given in the organization and is presented for meritorious achievement.

Officers in charge of the presentation were Harriet Coulson, grand representative of California to the grand assembly of Washington to be held in Spokane August 22-24, past worthy advisor; Fannie Adams, grand marshal; past worthy advisor; Dorothy Loosley, truth; Frances Callas, victory; Mary Robertson, service; Phyllis Hanchett, chaplain; Eleanor Kandra, musician; and Patsy Warring, keeper of the door.

On the program were Mrs. Dave Bridge of Klamath Falls, with a vocal solo, Eleanor Kandra and Dorothy Loosley, playing piano numbers, and a vocal trio by Patsy and Peggy Terry and Carla Main. Patsy and Peggy Terry were also flower girls in the ceremony.

Mother advisor of the Tulelake group is Mrs. N. C. Wilkinson.

Truman Vetoes Bill For Silver Creek

WASHINGTON, Aug. 3 (P)—A bill which would have let the government consolidate land holdings in Oregon's Silver creek recreation project was vetoed yesterday by President Truman.

The President said a provision which would have allowed the secretary of the interior to judge land titles would conflict with established practice of having the attorney general examine such titles.

Under the bill, the secretary of the interior could trade lands in the project in order to obtain adjacent terrain.

The art of cutting and polishing precious stones was scarcely developed before the middle 18th century.

Hollywood Men Photo Klamath

Pointing a camera at Klamath Falls Saturday where Tommie Braaten and Ed Crews, film producers from Hollywood, who are now completing a 16mm color production of Oregon.

The film will include the scenic highlights of the state and will depict agriculture, resources, industries and points of historical interest. It will be made available to schools, churches, civic organizations, lodges, clubs and other groups.

Klamath Falls is the last point to be covered in Oregon. The two men shot scenes at Crater lake Friday and planned to get pictures of the community today.

Drews was formerly associated with the Eastman Kodak company's color processing laboratories in Hollywood, while Braaten is formerly with Planet pictures, where he served as press manager of their publicity department.

QUITE A YOUNG MAN is Rodney Joe Sehorn, son of Mr. and Mrs. Martin Sehorn of 1107 Mitchell. He is just six months old.

Danish Report May Prove Additional Meteor Swarm

By J. HUGH PRUETT, Pacific Director, American Meteor Society. From Copenhagen comes a belated report that a meteoric display observed in Czechoslovakia, December 22, 1945, may be connected with the comet of 1792. During the height of the "shower," meteors were counted at the rate of 180 per hour. If this connection is established, it will raise to nine the number of meteoric swarms that travel in the orbits of well-known comets and doubtless result from their disintegration products. The November Leonids, which on several occasions in the past have provided startling displays of "shooting stars," seem to be particles lost from Tempel's comet of 1866. The Andromedae, another November exhibition, result from the almost complete breaking up of Biela's comet nearly 100 years ago. The famous Halley's comet, next due to appear in the earth's general vicinity in 1986,

Reports Vary On Troop Move

LONDON, Aug. 3 (P)—British Indian troops were moving by sea today to Basra, Iraq port on the Persian gulf near the Iranian frontier, and the British foreign office, the Indian office in London and the Indian government expressed varying views of what the movement meant.

An Indian government communique released in New Delhi last night said the soldiers were being sent to Basra "in order that they may be on hand for protection, should circumstances demand it, of Indian, British and Arab lives and in order to safeguard Indian and British interests in South Persia (Iran)."

The communique was expanded today with the additional statement: "There is no question of the troops going into Persia except in the case of a grave emergency, which it is hoped will not occur."

A British foreign office spokesman in London, however, said the men were being sent to Basra merely to relieve troops on duty there and "we will withdraw troops equivalent in number to those being brought in from India." Neither he nor the Indian government specified the number of troops, who left Bombay yesterday for the five-day voyage.

An Indian office spokesman earlier said the troop movement was "purely precautionary" and there was no suggestion the units would be used in the near future—or at all—unless "circumstances demand it."

is responsible for two rather inconspicuous swarms, the Eta Aquarids of May and the Orionids of October.

Meteors, or "shooting stars," are sometimes incorrectly referred to as "comets." The apparent motions of the two are quite different. Comets may actually be traveling just as rapidly as meteors, but to earth dwellers they do not seem to be. Comets are very extensive objects, sometimes 100,000,000 miles long and tens or hundreds of millions of miles from us. When viewed at any instant they appear to be as motionless as the moon. But, like the moon, a movement among the background of the stars can be noted from night to night, or even from hour to hour.

The Perseids, traveling in the orbit of Tuttle's comet and appearing in practically equal numbers from year to year, form the best known swarm. Counts between August 10-13 are made by members of the American Meteor society and many other interested persons. On clear, moonless nights from 60 to 100 per hour of these fleeting lights may be seen dashing across the skies during the pre-dawn hours; about half as many in the late evening. This year the full moon will block out the fainter meteors. Anyone willing to count for an hour or more is asked to send his report to the writer at Eugene, Oregon.

MARTHA SHOPS & SHOPS

Dashing

from the airport . . . to LA-POINTE'S, Thursday . . . Martha was in time to watch Mabel and Trudy unpack the new hats . . . Fred A. Block distinctive originals . . . flown in from Chicago within 12 hours. Most of them are black or brown felt creations . . . feather trimmed . . . but you'll have to see them for yourself.

While admiring these distinguished arrivals . . . I was summoned to the dress and suit department . . . where customers were already trying on the three Fred A. Block dressmaker suits . . . also originals which accompanied the hats . . . a handsome black gabardine with gold nailhead shoulder designs . . . a startling gray wool, trimmed in . . . red, green and crystal sequins . . . and a long-jacketed blue and black combination that's certainly "different."

Among the four Rothmoor creations that came by air express . . . a cardinal red fur-trimmed coat created quite a sensation when the girls couldn't wait . . . and unpacked it right there at the airport as Mayor Ostendorf was stepping from the Mainliner.

LA-POINTE'S, at 507 Main . . . will receive "originals" by air from now on . . . and they'll be shown here at this store the same day as they make their first appearance in New York City's fashion marts.

Mirror, Mirror

on the wall . . . adds a deal of spaciousness to any room . . . which is why Martha's particularly offering the new ones seen at THE ART AND GIFT SHOP . . . as gift suggestions . . . either for yourself or the newlyweds.

Many of these are good reproductions of lovely, old mirrors . . . in all sizes of oblongs or ovals . . . with plain and ornate frames of gold, brown or white. Then, for dressing tables . . . there are mirrors that hang or stand . . . of all white, gold or silver. And, one of the nicest things about these is the so reasonable price!

THE ART AND GIFT SHOP . . . 519 Main . . . has numerous other little furnishings that delight the home decorator . . . such as glass-enclosed curio cabinets . . . mahogany wall and corner shelves . . . and sturdy, but picturesque, Ponderosa pine shelves.

Particularly during this warm weather, the best way to make up your mouth is with a lip brush. You'll get a clean, unblurred outline that will have less chance of smearing on a sultry day.

August Memo . . .

Since vacationing, my hair is so dry . . . that I must call Anona . . . at THE BEAUTY NOOK . . . and see about some oil treatments . . . before time for a new Fall permanent. Oh, yes, Leona Berry . . . formerly of Portland . . . is now assisting Anona . . . and is available for evening appointments at THE BEAUTY NOOK . . . 133 No. Fourth . . . where the Willitt Wanda cold wave is a specialty.

A Personal Touch

can now be added to flowers sent from here to relatives and friends in other cities where United's planes make stops. You can select choice blooms . . . watch the arrangement made up at THE KLAMATH FLOWER SHOP . . . and add your OWN CARD.

This floral remembrance is then shipped by air express . . . and delivered within an hour after arriving at any designated coastal or northwest city served by the airlines. The cost is very little more than that on telegraphed flowers, according to Charlie Mack . . . and infinitely more personal!

So "flowers by air" will henceforth be a service of THE KLAMATH FLOWER SHOP . . . 1211 Main . . . and fresh posies will be arriving here daily by plane . . . which, added to those grown at the shop's South Sixth Greenhouses, give you a complete, reasonable selection.

Label Of Luxury

marks the Callaway hand-printed, Sunstone Table Cloth . . . that, until now, has been unpacked at YOUR STORE, Inc., 721 Main . . . and, as most of us know, the name Callaway means quality. These new 52 by 52-inch cloths are available in floral or a fern pattern in five color combinations . . . on durable, easily laundered material . . . priced at only \$2.56 each . . . which makes it easy to afford two or three.

You'll also find extra lace table cloths at YOUR STORE . . . that are not only lovely to look at . . . but serviceable.

Lip Blisters

caused by an excessive dose of sun are a messy aftermath of fun which can be neatly avoided by occasionally drawing in your lips—as you do when you blend rouge—during long periods of exposure. That's a help to girls with lip tissue that's particularly sensitive to summer sun.

Fall Jerseys . . .

that will look stunning in the campus parade . . . have arrived at WHYTAL'S . . . for your early selection. Most of this shipment is comprised of the two-piece dress type with neat touches of nailhead trim . . . or unadorned tailoring to play up your costume jewelry. And they're the sort that can be worn comfortably without a coat on cool days.

Some of the new characteristics Martha noted in these soft woolen jerseys are . . . versions of the wing necklines . . . longer jacket tops that follow the pepum trend . . . push-up sleeves . . . an emphasis on belted waists . . . and trimmings with glamour. However, one extremely youthful fuchsia model retained the short jacket . . . decorated in blue and gold buttons . . . and had a slightly flaring skirt.

Colors in these jerseys run to inspiring pastels more than deep tones . . . such as blue, maize, fuchsia, blush pinks, new greens and grays.

WHYTAL'S . . . in the Medical-Dental building, Main at Ninth . . . has a few advance arrivals in one-piece jerseys, too . . . among which is a striking crimson wool . . . set off by a black metal-studded belt and cuffs . . . with a similar style in the new Emerald Lake green . . . at WHYTAL'S.

Autumn Plaids

feature the cheerful, wool skirts they showed Martha at LONG'S . . . where the back-to-schoolers are already traipsing in for new wardrobe apparel.

Gay and loveliest, in my estimation, are the diagonal plaids . . . playing up deep tones of reds, blues or browns. These have freedom pleats both fore and aft . . . and are seamed in somewhat of a gore effect. Secondly come the pleated, block plaids . . . over woods brown or dark navy . . . extremely flattering to slender figures . . . and priced slightly less.

If it's a plain skirt you want . . . LONG'S has those luscious, soft Botany flannels . . . tailored with all-around simulated pleats . . . in green, rose shades and maize . . . leather-belted woollens made with the placket front . . . or zored, lightweight wool skirts with wide self-belts. There are also many of the latest styles in browns and charcoal black.

LONG'S APPAREL . . . 719 Main . . . has an enticing array of sweaters to go along with the new skirts . . . including nubby knits, cardigans and slip overs.

If you're one of the gals who hates to see her comb pull the wave out of her hair, there's a new device on the market and I'm watching for its arrival here. It's a plastic comb with two rows of curved teeth, and will not only preserve your beauty salon coiffure but, if used regularly, will coax a soft, natural wave into straight locks.

Let-Out Muskrat Stroller

A superior blended muskrat in a warm tone of Marten—softly overcast with blue-woolen tones. One of the many new shades and styles at Richards.

Try on your coat in air-conditioned comfort.
