

Russ Block Progress At Paris Parley

PARIS, Aug. 6 (AP)—The rules committee of the Paris peace conference adjourned in a tangle over procedural questions today and a British spokesman said the possibility had been raised that the entire Russian bloc might leave the conference.

The committee bogged down over the question of whether the committee could pass by simple majority rule on whether a simple or two-thirds majority vote would be required to approve matters before the full conference.

A dinner recess was decided upon when Yugoslavia served notice she would not be bound by any committee decisions reached by less than a two-thirds majority.

U. S. Secretary of State Byrnes accused Russia of attempting to dictate to the conference through the council of four leading foreign ministers, and Soviet Foreign Minister Molotov replied that the Big Four was an American idea.

Sicilians Dead In Crop Riots

ROME, Aug. 6 (AP)—Four policemen and "many more" peasants were reported killed today in fighting near Palermo between Carabinieri and Sicilian peasants in revolt against consigning their crops to the government's "granaries of the people."

The fighting broke out yesterday when police attempted to enforce the wheat decree, the Italian news agency Ansa said, and women were reported fighting side by side with men against the Carabinieri, who used tanks and armored cars in their efforts to smash the revolt.

The fighting was said to be centered in the town of Caccamo, which dispatches said was surrounded by police.

Sicily has lagged far behind most other parts of Italy in the government program, which the government instituted in an effort to smash the black market and assure an equitable bread ration. Latest reports said the Sicilians had turned in only 12.8 per cent of their goal of 178,184 tons of wheat.

To cook green peas and help keep the natural color start in just enough briskly boiling water to cover. Salt may be added at the start or end of the cooking.

Supervising construction of the Centennial pageant stage at the fairgrounds is Bob Stedman of Medford. He is a former teacher at Henley high school and was recently discharged from the army engineers.

Pageant Stage Well Underway

Work on the 500-foot stage for the Centennial pageant is progressing rapidly, according to Bob Stedman, in charge of the structure rising at the county fairgrounds.

All of the platforms have now been completed and workers are getting ready to start painting the setting Wednesday. Howard Ramey, who is in charge of lighting, is in Portland collecting material to be used. Approximately 200,000 watts of electricity will be needed to illuminate the show, with flood lights and covered spotlights being used to furnish synthetic sun and moonlight.

Between six and 10 men are building the setting which will contain 45,000 board feet of lumber and 1000 square yards of burlap. As soon as the painting is started, the number of workers will be increased.

The pageant is the main event in the celebration commemorating the 100th anniversary of the opening of the Southern Route into Oregon in 1846. The show will depict the development of the Klamath basin area and will be performed at the fairgrounds August 22, 23 and 24, at 8:30 p. m. Horace Robinson is general director of the pageant.

Bartlett Pear Crop Harvest Will Start

MEDFORD, Aug. 6 (AP)—Harvesting of the Bartlett pear crop, good in size and quality, will start this week, assistant county agent, C. B. Cordy said today. Packers in most Rogue river valley plants will receive 13 cents per box, compared to 12 cents paid last season.

Cemetery May Open In Autumn

If present plans proceed according to schedule the Klamath Memorial park, the new cemetery to be located on the Cumberland road off highway 97 south of town, will be open soon after September of this year.

The cemetery committee originally had planned to have the park in first-class condition, with lawn and landscaping and all the details of beautifying it in order, before the initial opening. Because of the difficulty in getting equipment and materials the committee has found it necessary to open the cemetery by sections.

Paving Job Snagged

Plans for the paving of Michigan and Martin streets are progressing without difficulty but the proposed improvement of Doty and 8th has hit a snag.

Councilman Rollin Cantrall and Paul Landry reported that they had studied the situation and found that some of the property owners on 8th feel that the cash difference of the cost of improvement would be too great. Landry and Cantrall recommended that 7th be paved instead of 8th. The recommendation was accepted, but no definite action will be taken until a later date, when the council hopes to work out some satisfactory solution.

A request was presented by the three taxi companies in Klamath Falls asking that because of a rise in operation costs the companies be permitted to narrow the zone in which a 50-cent charge is made. Lawrence Nash of Yellow cab explained that the cab companies want to be relieved of going to the extreme limits of the city and that the zones be narrowed a few blocks. It was referred to the police committee for study and report.

The city dads agreed to meet at 4 p. m. today to discuss plans of the proposed city-county jail, which have been accepted by the county.

Fire Chief Keith Ambrose reported on a meeting with the Klamath retail merchants at which it was suggested that the alleys of the city be cleaned up and that garbage cans be placed inside stores instead of the alleys. The council went on record to support any general clean-up movement and to notify the merchants of its intention.

Congratulatory letters on the inauguration of United Air Lines here were read from Mayor Roger Lapham of San Francisco, Mayor Herbert L. Beach of Oakland, Mayor A. T. Niebergall of Bend and Harold Cray, vice president of traffic and sales for United.

The word volcano comes from the name of Vulcaon, Roman god of the fiery elements.

Water Nymphs

Delora Hedlund was crowned queen of the Camp Fire Girls' water carnival held during the Camp Fire Girls' campout at Lake o' the Woods. Assisting her were Carol Guderian and Geraldine Lewis who were princesses of the water fete.

Truman Gives Job To Collet

KANSAS CITY, Kas., Aug. 6 (AP)—President Truman took off for Washington today, accompanied by Federal Judge John Gaskie Collet, who has agreed to take over a key role in the economic stabilization office.

Collet, who once before left the western Missouri federal district bench to serve as director of the office of economic stabilization, has agreed to serve again this time as an assistant to Reconstruction Director John R. Steelman under whom the stabilization office now functions.

A close friend who would not be quoted by name said Judge Collet was taking over the assignment with the understanding that he is being "borrowed" from the bench for a few months. He is not giving up his judgeship.

Council May Put Levies Up To Vote

(Continued From Page One)

pendent of the city's jurisdiction. Members are appointed for life terms. Under the new setup the park commission would be appointed by the mayor and city council. Members would be the mayor, city engineer and six citizens appointed for two, four and six-year terms.

All measures to appear on the ballot will have to come before the city council next week to allow time for compliance with official procedures. First a resolution must be read and then an ordinance for first, second and final readings before it is prepared for its appearance on the ballot.

Seaside Has Funds For Civic Memorial

SEASIDE, Aug. 6 (AP)—Seaside, with \$50,000 already in a special coffe, hopes to construct a \$225,000 memorial civic center building by the fall of next year.

The building, sponsored by American Legion post 99 and to be built on a city-owned site, would contain a hall with 3500 seats, an arena, basketball court, offices for the Legion and chamber of commerce, and an arcade with 15 stores.

A campaign is under way to collect the needed money. Gifts and loans—the latter to be repaid through rentals—comprise the \$50,000 on hand.

The first automobile show in the United States was held in 1900.

Schools Ready For New Year

With the next school year only a matter of weeks away, plans are being made by both county and city officials for the initial enrollment and further registration of school pupils. School is scheduled to start earlier in the county than in the city, although it will not actually begin on a daily and weekly schedule until September 16 for either.

County school pupils are to report to schools in their district on September 4, for three days. The following week there will be no school held, as all county teachers will attend an institute, or conference, in Ashland at the Southern Oregon College of Education. School will reconvene for the county September 16.

Schools in the county are at Bonanza, Weyerhaeuser Camp 4, Keno, Bly, Fairhaven, Fort Klamath, Shasta, Malin, Merrill, Gilchrist, Henley, Summers, Chiloquin, Shewlin, Altamont elementary and junior high, and Crescent Lake.

Greece Fights Albanian Bid

NEW YORK, Aug. 6 (AP)—Albania's Soviet-supported bid for membership in the United Nations was bitterly opposed today by Greece, which charged that Albania could not qualify in the role of a peace-loving state as required by the UN charter.

The application remained under the critical examination of the security council's membership committee, meeting in closed session with prospects that it would bring about another sharp conflict between Russia and the western powers.

Russia and Poland were reported backing Albania's bid without qualification. The United States and Great Britain reserved judgment, although both have levied sharp criticism at the regime of Premier Enver Hoxha.

An American delegation spokesman said Hoxha had refused to give Washington assurance that his peoples republic would honor treaties negotiated between the United States and the previous Albanian government before the war, thus raising a question as to Hoxha's readiness to accept the obligations of UN membership.

Britain also questioned the peace-loving qualities of Albania on several counts.

Yugoslavs Courteous To U. S. Army Family

GORIZIA, Italy, Aug. 6 (AP)—Major George Wood, U. S. army officer whom Yugoslavia soldiers detained for 24 hours together with his wife, small son and a soldier driver, said today his captors "went out of their way to be courteous."

"The Yugoslavs were very nice to us," Major Wood said, "and took care to look out for our welfare. A Yugoslav soldier walked for an hour to bring us fresh water. Sunday night they gave us a meal of fried eggs with good bread and wine and brought my eight-year-old son a bottle of orange soda."

Reclamation Bureau Program Gets Slash

WASHINGTON, Aug. 6 (AP) Acting Commissioner William E. Warren of the bureau of reclamation said today that the bureau's construction program has been slashed from nearly \$200,000,000 to \$85,000,000.

He said this was in line with President Truman's decision to defer the federal construction program at least until spring.

Contracts already outstanding and in the process of execution already account for most of the \$85,000,000 now available.

George Bernard Shaw had only five years of formal schooling.

Members of the team were Ray Aubrey, Elmore Kenyon, Ray Van Meter, Joe LaHoda, Joe Chotard and Lester Wilson. Hilary Wineberger acted as the candidate.
