Without Painful Backache
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatism, leg pains, loss of pep and energy, getting up nights, swelling, stiffness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder.
Don's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Don's give happy relief and will help the 15 million of kidney tubes flush out poisonous waste from your blood. Get Don's Pills.
