

Varied Ideas Expressed On Fringe Area Zoning

Suburban and rural zoning was agreed upon as needed, but the methods of accomplishing it came in for varied opinions at a meeting held here yesterday on the occasion of a visit to Klamath Falls by the state committee named to study the problem.

Klamath's highly developed fringe area formed the background for a lengthy discussion, with Commissioner William Lewis of Portland, head of the governor's committee, presiding at the conference. Bowes explained that the committee is investigating opinion over the state as to the need for an enabling act which would permit county courts, when asked to go to set up county zoning committees. These committees would establish zoning regulations in certain areas outside incorporated cities, in order to promote the best use of land and an orderly pattern of development. Cities already have generally adopted zoning programs.

Ned Smith and Alva Lewis, officers of the Suburban League, which is active in the nearby southeast suburbs, said they thought zoning important, but

these men returned, some of the Indians wanted to follow Fremont and annihilate the entire expedition, but the wiser ones advised against it and won out, otherwise Fremont never would have gotten out alive.

The Klamath Indians are proud of the fact that they have been able to withstand many injustices practiced upon them like the Fremont episode. Modoc war, exclusion of lands from the reservation by so-called erroneous surveys, claiming of school lands, swamp lands, etc., most of which the federal courts have upheld our aboriginal rights, established by treaty, in which the U. S. supreme court has declared our treaty is as sacred as any treaty made with a foreign power.

Farm Implements Raised By OPA

WASHINGTON, Aug. 9 (P)—OPA today granted immediate increases in retail price ceilings on farm, garden and other types of tools to meet requirements of the new price control act.

The increases are 4.3 per cent on farm and garden tools, trowels, shovels, spades and scoops; 10 per cent on heavy forged and mining tools; 7.2 per cent on hand cutting tools; and 2.2 per cent on mechanical hand-service tools.

These increases meet a provision of the new law which requires that retailers' profit margins be at least as high as they were last March 31. OPA had cut margins on the items repriced today.

Solon Predicts Raise In Taxes

WASHINGTON, Aug. 9 (P)—Rep. Clarence J. Brown of Ohio, republican national committee campaign director, said today President Truman's revised budget estimates mean the people can expect only "higher and higher taxes and more and more spending" at the hands of the democrats.

Brown, in a statement issued by national party headquarters today, said the revised estimate is "accepted in the spirit in which, presumably, it was given—as a political issue in the 1946 elections."

British Ready To Act Alone

LONDON, Aug. 9 (P)—A foreign office spokesman said today that if any "violent or sudden" threat to British lives or property took place in Iran, Britain would not be obligated to consult the United Nations security council but would feel justified in taking "unilateral action."

The government of Iran announced yesterday that it had protested the movement of Indian troops to Basra a part in Iraq at the head of the Persian gulf, and had requested their removal.

The first announcement of the troop movement, which came from the Indian government, said the troops were being sent in case of any disturbance. Labor difficulties recently have plagued operation of the British-owned oil installations.

Reminiscences of a recent transcontinental auto trip were given by Malcolm Epley, managing editor of The Herald and News, in a talk to the Rotary club at noon Friday.

Epley told the Rotarians that auto court facilities across the country are usually available to early stoppers, and that those who want to drive late have their best luck with good hotels. He told of humorous incidents on his 7000-mile trip, and described driving the Pennsylvania turnpike and other experiences.

Henry Semon was chairman of the day.

The find was reported to the sheriff's office here and Sheriff Lloyd Low and Deputy Jack Francy spent several hours tramping over the Sand creek country but found no woman, no evidence of foul play, no scantily clad wood nymphs or anything except the clothes, which were brought back and lodged in the county jail.

'Fair And Hot' Forecast Again

By The Associated Press

"Fair and hot" was the forecast of the weatherman for Friday in Oregon, with Portlanders warned they would probably experience 95-degree August weather after yesterday's 90.

For tomorrow, however, winds from the coast are due to end the present warm period. Yesterday's readings found Medford again leading Oregon with 92. Other maximum readings included: Eugene, 88; Roseburg and Pendleton, 86; and Bend, 80.

The most recent forest fire report in the state, meanwhile, was reported under control after burning over 50 acres in the Siuslaw national forest at Sand lake near Tillamook late yesterday. Before being subdued by 20 men, however, it destroyed a small sawmill.
