## MEN!

WE women think your hirsute adornments are wonderful of course (at a distance) but professionally I can see room for improvement. So, just to prove that the beautifying of masculine facial foliage is not a lost art, we're opening a Men's Department at the Hazel Beauty Salon... complete with private entrance and private room.

SOME suggestions: dye that nondescript looking bush some striking color (any color). We can touch up the grey hairs of you frost-bitten boys to a virile, school-boy hue. (If you're having trouble at home, a Creme Rinse will make your jowls soft and silky.) Or, if you have the Trotsky type, we can give you the rippling curls of a prize Black Angus ready for the show ring. As a special treat, there's the regular Cocktail Rinse... not the kind you're used to straining through your whiskers!

DON'T let the little woman see this... come in on the sly, and we'll turn you out the Beau Brummel of the Centennial. Remember—Beauty is your duty!

—RITA.
