

Boeing To Continue Army Manufacture

SEATTLE, Dec. 12 (AP)—The Boeing Aircraft company will turn its "full energies" to the production of four-engine planes and the "development of several new military products, including a new compact and

versatile army plane to be built at Wichita," President William M. Allen said today.

The new policy was contained in a statement announcing suspension of its plan to produce Boeing 417s, a 20-passenger plane designed for service on regional airlines and others on which there are frequent stops.

This production was dropped "because of changed conditions and present market uncertainties," Allen said.

Benjamin Franklin was appointed the first colonial postmaster general at Philadelphia in 1753, and held the post for 16 years.

Leading Grain Authority Dies

COLFAX, Wash., Dec. 12 (AP)—David Edmund Stephens, 87, one of the northwest's leading grain authorities, died Tuesday of a heart attack. He had been with the department of agriculture for 38

years, 25 of which were spent as a department field station in Moro, Ore. For the past four years he had been stationed at Washington State college. Stephens was credited with development or collaboration in the production of such popular varieties as Federation, Golden, Rio, Oro and Rex wheat and

Markton smut-resistant oats.
