

# \$6 Million City Dough Up In Smoke

Nearly \$6,000,000 of the city's money, in cancelled bonds and coupons, will go up in smoke at the Consumer's Heating plant today City Treasurer Ruth T. Berry said. The money is represented by a truckload of cancelled bonds and coupons. Old bonds and coupons start with the first city sewer unit in 1910 and include all paid or refunded paper to 1936. Actual amount of the documents totals \$3,741,281, but since the earlier issues were at six per cent interest, an additional \$2,000,000 in interest is added. Fire Chief Keith K. Ambrose heads the committee in charge of the burning. The old bonds were kept for many years in the vault at the city hall, and the city council some months ago passed an ordinance authorizing the burning. Mrs. Berry has listed all the bonds and coupons to be destroyed and has filed in the city hall vault a sample of each issue. Mrs. Berry adds that the amount of interest represented by the bonds is an excellent argument for the "pay-as-you-go" plan now followed by the city. In the future all bonds and coupons paid and cancelled 10 years in the past will be destroyed each year.
